

Ingersoll Rand Transport Solutions Brands Set to Shine at Solutrans 2023

Ingersoll Rand Transport Solutions (IRTS), a global leader in innovative solutions for the transportation industry, is proud to announce its participation in the upcoming Solutrans 2023 exhibition. This premier event, dedicated to the future of sustainable and efficient transportation, will see IRTS showcasing its brands, including Gardner Denver Transport, EMCO Wheaton, GHH RAND, TODO, Hibon, and Robuschi.

Solutrans is a platform where industry leaders, innovators, and stakeholders come together to explore cutting-edge technologies and advancements in the transportation sector.

About Ingersoll Rand Transport Solutions

Ingersoll Rand Transport Solutions (IRTS) encompasses Gardner Denver Transport, EMCO Wheaton Fuel Systems, TODO and GHH Rand, with a focus on developing innovative sustainable products for future transportation solutions. With a focus on dry and liquid bulk transfer for road tankers, compressor packages for electric vehicles, dry-break couplings and fuel systems, IRTS has a global presence with more than 100 sites and distributors situated across the globe.

About Gardner Denver Transport Solutions

Gardner Denver Transport Solutions is a world-leading provider of specialist equipment used to transfer dry and liquid bulk materials from road tankers and other vehicles. The company has continued to evolve its unrivalled portfolio and now also produces tailored on-board power systems for operating equipment and bespoke electric compressor packages for e-mobility vehicle solutions.

About GHH RAND® Transport

GHH RAND® focuses on the production of innovative oil-free compressors for the global road tanker industry. The company combines leading compression technology, deep application knowledge, and a global footprint, to work in partnership with customers and meet specific dry bulk compressor application challenges.

About EMCO Wheaton

EMCO Wheaton is a market leader in the supply of fuel tank truck equipment and bus fleet and aviation fuelling systems. The EMCO Wheaton product portfolio is installed and trusted by global leaders in fuel transportation and the wider fuelling industry. The brand is synonymous with reliability, quality and superior functionality.

About TODO

TODO is renowned globally as the pioneer behind the famous DRY-BREAK® couplings, which are used in the oil and gas, chemical and petrochemical industries. TODO products transfer highly valuable and aggressive media in the most testing conditions for loading and off-loading in a wide variety of applications from offshore to road and rail. TODO couplings carry the highest level of certification and approvals available worldwide.

About Hibon

For over a century, Hibon has remained a prominent figure in the truck market, renowned for its positive displacement blowers. Hibon specializes in tailoring solutions for the most demanding truck applications, whether it's delivering high-pressure or vacuum solutions.

Our heavy-duty truck blowers have earned widespread recognition within this industry.

About Robuschi

Established in 1941, Robuschi has experienced continuous growth throughout its history. Our core belief centers firmly on innovation, leading us to invest in cutting-edge machining systems and state-of-the-art production processes.

We take pride in our recognition as a global leader in manufacturing oil-free compressors at low pressure, lobe blowers, liquid ring vacuum pumps, and centrifugal pumps.

Since 2011, Robuschi has been an integral part of Gardner Denver, a prominent manufacturer of air flow control products with a significant global presence.
