## TIGRE-ADS USA INC.

Located in Janesville, Wisconsin

Servicing the plumbing, waterworks, municipal and other sectors, Tigre-ADS USA manufactures PVC pipe fittings for home remodeling, residential and commercial building, waterworks applications, drainage and agriculture.

Through our mission to promote the sustainable development of the human habitat, we seek to apply our ethical

principles of doing business while respecting our customers, consumers and society as a whole. This is our formula for generating consistent results throughout the years, ensuring excellent opportunities for the people who make, sell and buy our products.

Beginning in 2006 as Tigre USA, Tigre-ADS USA was established in 2014 through a strategic partnership between two multinational companies making it

one of the largest companies providing innovative solutions for the construction industry in North America.

Tigre Group and ADS (Advanced Drainage Systems Inc.) combined have over 115 years of experience. Tigre Group is the 3rd largest PVC manufacturer in the world. Advanced Drainage Systems (ADS) is the number one corrugated pipe manufacturer in the United States.

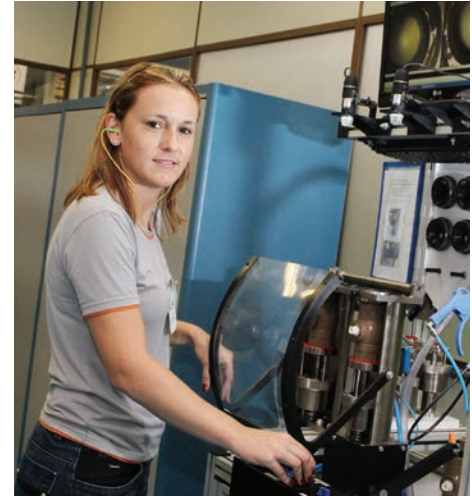

## PRODUCTION

Tigre-ADS USA production continuously strives to improve efficiency and output.

Tigre-ADS USA is known around the world for its high quality standards and products that meet or exceed ASTM and CSA standards. Each product is tested regularly by our quality control team to assure joint

tightness, impact strength, burst pressure and dimensional accuracy. Virgin PVC compound and gaskets are also tested to meet and exceed ASTM standards. All Tigre-ADS USA PVC fittings are made in the USA and are third party listed by NSF.

# OUR people make the DIFFERENCE

## PUTTING PEOPLE FIRST.

Loyal customers throughout North America include building professionals, homeowners, architects, engineers, contractors, distributors and wholesalers.

Our customer service department is dedicated to first class service - helping you with anything you may need, providing customers an excellent buying experience.

Every department has only the best professionals working for you. Tigre-ADS USA's network of sales professionals play a

key role in providing knowledgeable service to our customers in every state across the country as well as Canada and Mexico.

## DISTRIBUTION

In addition to our sales network, our distribution system is designed to make your buying experience seamless and positive, accommodating your needs for product, timeliness and service.

The Tigre-ADS USA distribution system continues to expand with the objective to meet demands in high volume regions. Each warehouse location has products available to cover the demands from HVAC, Waterworks and Plumbing markets, aiming for high fill rates (+98%) and 24 hour order turnaround.

Our multiple warehouse locations provide products close to our customers so they are available when and where they are needed.

## DRAIN WASTE VENT (DWV)

Used for non-pressure drainage of sewer and surface water, as well as ventilation where temperature is less than 140°F.

- Durable
- Leak proof connections when joined using solvent weld glue
- Chemical / corrosion resistant
- Index marks make installation easy
- Cost effective
- Weather resistant
- Over 400 SKUs offered

Perfect for PLUMBING, HVAC and some WATERWORKS applications.

Sizes available: Molded parts 1-1/4" - 12"

Manufactured to meet or exceed **ASTM** D-2665 standards.

Certified by **NSF**.

## SCHEDULE 40 PRESSURE

Used for condensate lines, irrigation and situations where water pressure may be a factor.

- Approved for potable water
- Durable
- Leak proof connections when joined using solvent weld glue
- Chemical / corrosion resistant
- Easy to install
- Cost effective
- Weather resistant
- Over 600 SKUs offered

Ideal for PLUMBING, HVAC, IRRIGATION and some WATERWORKS applications.

Sizes available: Molded parts 3/8" - 12"

Manufactured to meet or exceed **ASTM** D-2466 standards.

Certified by **NSF** 14 and 61.

## SDR 35 SOLVENT WELD

Used for non-pressure drainage of sewer and surface water.

- Durable
- Leak proof connections when joined using solvent weld glue
- Chemical / corrosion resistant
- Easy to install
- Cost effective
- Weather resistant
- Over 1165 SKUs offered

Perfect for PLUMBING, HVAC and WATERWORKS applications.  
Sizes available: Molded parts 3" - 8" Fabricated parts 10" - 36"  
Manufactured to meet or exceed **ASTM** D-3034, **CSA** B182.2 standards.  
Certified by **NSF**.

## SDR35 GASKET

Used for sanitary, gravity storm sewer and private drain. Typically used when fittings will be less than 9' deep.

- Durable
- Leak proof joints when using solvent weld glue
- Chemical / corrosion resistant
- Easy to install
- Cost effective
- Weather resistant
- Over 1200 SKUs offered

Typically used in PLUMBING and WATERWORKS applications.

Sizes available: Molded parts 4" - 12" Fabricated Parts 15" - 36"

Manufactured to meet or exceed **ASTM** D-3034, F-1336, **CSA** B182.2 standards. Certified by **NSF**.

## SDR 26 "HEAVY WALL" GASKET

Used for sanitary, gravity storm sewer and private drain where heavy wall fittings are called for. Typically used when fitting will be buried deeper than 9'.

- Durable
- Leak proof joints when using solvent weld glue
- Chemical / corrosion resistant
- Easy to install
- Cost effective
- Weather resistant
- Over 1125 SKUs offered

Typically used in PLUMBING and WATERWORKS applications.

Sizes available: Molded parts 4" - 12" Fabricated parts 15" - 36"

Manufactured to meet or exceed **ASTM** D-3034, F-1336, **CSA** B182.2 standards. Certified by **NSF**.
