

Restroom Faucets

Chicago Faucets

The best faucets for public restrooms.

We make the best commercial faucets in the world. Every one of our products is manufactured to the same high standard that has made us the top choice of professionals for over 115 years. Since 1901, we have influenced how every faucet in the world is made and designed with over 50 significant patents and industry innovations.

Our primary business is and always will be commercial faucets. No other manufacturer can match our quality, knowledge, and experience. So if you need a faucet for your restroom, Chicago Faucets is always your best option.

Our new EQ Series high arc faucet delivers a modern design and dependable performance at an affordable price.

EQ Series

The next generation of electronic restroom faucets.

We took what we know about building the highest quality commercial faucets in the world and combined it with advanced electronics. The result? EQ, the next generation of electronic faucets: easy to install, easy to operate, and easy to maintain:

- **Built to Last:** heavy-duty cast brass spouts and high-quality electronic components
- **Plug-and-play Installation:** faucet is up and running in minutes, not hours
- **Match Any Public Restroom Décor:** three sleek, modern designs in two finishes
- **No Need to Program:** “learns” over time and adjusts for dependable performance
- **Saves Water:** superior user detection means EQ comes on when you approach
- **Sustainable Design:** all components are made from recyclable materials

From top to bottom,
**a completely
new faucet.**

Durable Construction

Heavy-duty, one-piece solid brass spout and waterproof electronics provide unsurpassed reliability.

Water Conserving

Low flow outlets combined with smart technology help reduce water usage by as much as 77%.*

Designed For Easy Installation

Braided stainless steel hose and electronics cable pre-installed for simple plug and play installation.

Simple, Compact Control Box

The heart of every EQ faucet, the EQ control box houses everything needed for faucet operation including power, solenoid, mixing valve, and supply.

Versatile Design

Choose AC, DC or our Self-Sustaining Power Supply that utilizes a hydraulic turbine to power the faucet. Also available with manual or thermostatic mixing.

Simple Connections

Supply hoses are pre-installed for fast, easy connection to stops.

**Pick a style and finish that
work best for your restroom.**

Choose from 3 distinct spout styles in a choice of polished chrome or brushed nickel finish.

* Comparison is based on using EQ faucet with a 0.5 GPM outlet to replace a faucet with a 2.2 GPM outlet. Water savings is based on 40 seconds of usage. The faucet with a 2.2 GPM flow rate would use 1.47 gallons of water while the EQ faucet would use .33 gallons of water.

E-Tronic® 40

Durable and reliable with remote programming.

The E-Tronic 40 is a great option for your restroom with advanced technology for dependability, convenience and water savings. The hermetically sealed, above-deck electronics offer easy maintenance and long-term reliability.

- **Advanced Technology at an Affordable Price:** bring state-of-the art electronics to any restroom
- **Water Savings:** precise metering, low-flow outlets, and enhanced programming options can provide substantial water savings
- **Flexible, Convenient:** perform routine maintenance without shutting off water
- **Durable:** spout and belly plate feature durable metal construction for long life
- **Remote Programming:** use Commander™ Handheld Programming Unit to adjust, monitor, and access four faucet operating modes

Optional Commander handheld unit allows you to program and monitor E-Tronic 40 from the palm of your hand.

3500 Series

A whole new level of style, convenience, and affordability.

The 3500 Series brings a new, modern look to our line of water conserving metering faucets. Easy to install, easy to operate, and easy on the budget, the 3500 can dramatically reduce water use when compared to older, conventional faucets.

- **Modern Design at an Affordable Price:** an affordable, sleek look that complements almost any lavatory application
- **Water Savings:** self-closing mechanism shuts off automatically; 0.5 GPM (1.9 L/min) outlet and easily adjustable cartridge provide even greater savings
- **Flexible, Convenient:** models available with user-adjustable external temperature control or concealed internal temperature control for added comfort and safety
- **Durable:** handle and non-aerating outlet resist tampering
- **Easy to Install:** flexible stainless steel hoses are pre-installed and connect to standard water supplies; internal temperature control features above-deck access

420 Series

Single control, convenience and dependability.

The 420 Series is an affordable single control option that combines the durability of solid brass construction with the dependability of a time tested ceramic mixing valve. The 420 Series is easy to install and just as easy to maintain.

- **Durable:** solid brass, chrome plated body construction with metal lever handle
- **Versatile:** available with a pop-up drain and choice of three outlets to match your installation requirements
- **Dependable:** long life ceramic mixing cartridge with temperature limit stop

Marathon™ 2200 Series

Heavy duty, proven performance.

You'll feel the difference of the 2200 Series the first time you hold it. Heavy duty, solid brass construction is combined with ceramic valve design to deliver a faucet that can stand up to years of use and abuse. The 2200 Series offers single control convenience and unsurpassed durability.

- **Durable:** the most durable single control faucet on the market with solid brass construction backed by a lifetime warranty on the body
- **Reliable:** proven ceramic mixing cartridge with adjustable hot water limit stop to reduce chance of scalding injuries
- **Easy to Install:** with 3/8" compression flexible stainless steel supply hoses

802 Series

Curved design, with countless handle options.

These faucets combine durability with a graceful curving design. The time-tested Quatern™ operating cartridge results in reliable, trouble-free operation and the vandal resistant aerator and handles are standard equipment.

- **Modern Design at an Affordable Price:** an affordable, sleek look that complements almost any lavatory application
- **Water Savings:** self-closing mechanism shuts off automatically; 0.5 GPM (1.9 L/min) outlet and easily adjustable cartridge provide even greater savings
- **Flexible, Convenient:** models available with user-adjustable external temperature control or concealed internal temperature control for added comfort and safety
- **Durable:** handle and non-aerating outlet resist tampering
- **Easy to Install:** flexible stainless steel hoses are pre-installed and connect to standard water supplies; internal temperature control features above-deck access

MeterMix™ 3600 Series

An ideal choice for high-use, high-abuse locations.

The 3600 Series is an improved and expanded line of MeterMix™ sink faucets. Vandal resistant features are built right into the handle and outlet making it an ideal choice for high-use, high-abuse locations.

- **Convenience and Comfort:** long-reach spout with angled outlet keeps water in the sink and off the deck
- **Adjustability:** built-in user temperature control, plus installer-adjustable hot/cold water mixing
- **Reliable Operation:** MVP™ cartridge opens with one touch and closes automatically
- **Vandal Resistance:** tamper-proof aerators and handle secured with vandal-resistant screw
- **Water Savings:** adjustable cycle time and outlet options from .35 GPM to 1.5 GPM to meet building codes, state laws, or user preference
- **Easy Installation:** fully threaded mounting studs and pre-installed, flexible hoses allow installation in minutes

Accessories

**Complete your faucet
with countless accessory options.**
