Satisfying Thirsts Since 1912.

List Price HTLP-2015
Effective March 2, 2015

Terms and Conditions

PRICES

All prices quoted herein supercede all prior published price sheets and are subject to change without prior notice, without exception.

TAXES

We as the manufacturer, shall not be held responsible for any sales or excise taxes or other Governmental charges imposed on the product or for its use or resale.

TERMS

As standard.

FREIGHT ALLOWANCES

All prices are F.O.B. Factory. Shipments of \$1500 ordered Halsey Taylor products, full freight allowed. Drop shipments to job site are F.O.B. Factory. Actual freight charges will be added to all parts and accessory orders under \$250.

FREIGHT CLAIMS

Our responsibility as the manufacturer of our products definitely ceases upon delivery in good order to any carrier or transportation company. Should material be received in a damaged condition, it is the cosignee's responsibility to file proper report and damaged freight claims. All materials are shipped at the cosignee's risk. For your own protection, we recommend visual inspection of materials prior to signing carrier's receipt.

SHORTAGES

Claims for shortages or variances must be submitted in writing within 10 days following receipt of invoice or shipment, otherwise they will not be honored.

WARRANTY ADJUSTMENT PROCEDURE

See hasleytaylor.com for full warranty information. A detailed warranty is also included with each water cooler and drinking fountain.

DELAYS BEYOND OUR CONTROL

We are not held responsible for any delays in delivery which are beyond our control, such as fires, strikes, riots or any other contingencies of similar nature.

SPECIAL ORDERS

Any material or item(s) requiring deviation from standard production as catalogued are NOT subject to change or cancellation after production is started. This includes colored ware, special sizes, special drilled items, fabrication or plating, items and components as purchased from other manufacturers, unusual design features or fixtures requiring special supervision at the Factory. Contact Customer Service for additional charges on special order items.

Halsey Taylor®...

We Have The Solution, Inside and Out!

For both indoor and outdoor applications, Halsey Taylor can provide the solution to meet your drinking water needs. From the classroom to the playground, indoor arenas to the ballfields, correctional facility to the jogging path, office to the golf course, hotel lobby to the sidewalk...you can count on Halsey Taylor to deliver a safe, satisfying drink with style.

Stroll through our price book to see exciting new HydroBoost® bottle filling station products, as well as the tried-and-true water cooler, drinking fountain and remote chiller favorites. Refer to page 4 for a detailed look at the HydroBoost series.

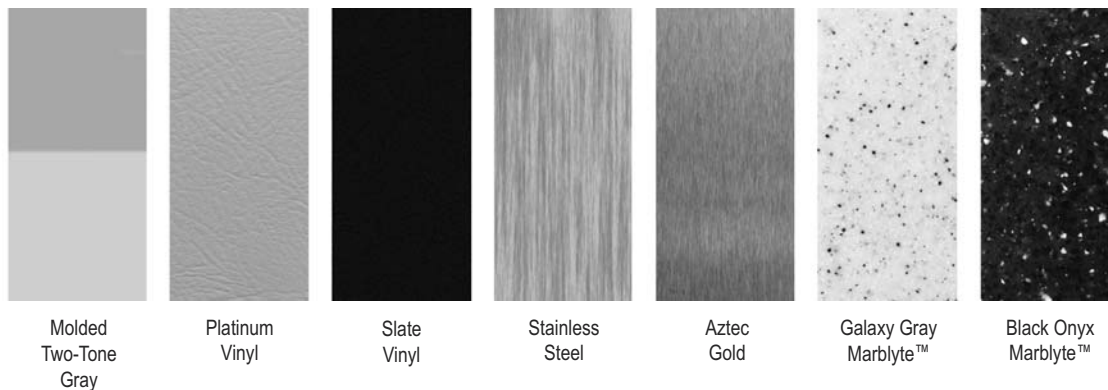

We, at Halsey Taylor, understand the importance of offering products which support efficiency and lessened environmental impact. Halsey Taylor continuously looks for opportunities within products and processes to reduce waste. We proudly offer a wide portfolio of products designed with a focus on sustainability:

- HydroBoost bottle filling stations help to reduce our dependency on plastic water bottles which often end up as landfill waste. The innovative Green Counter™ counts the number of plastic bottles saved from waste. Offered with optional WaterSentry® Plus filtration system.
- Green water coolers and chiller products, including HAC, Vandal-Resistant, OVL-II™ and SJ8GRN feature high-efficiency refrigeration systems and reduced refrigerant usage. HVRGRN and OVL-II GRN include SmartFlow™ bubblers for conserving water usage over the average market performance.
- Marblyte™ composite fountain series have been awarded with the U.S. Dept. of Agriculture BioPreferred® designation. These fountains are produced from corn and soy which are rapidly renewable agricultural materials.

Many of our products feature the exclusive Double Bubbler™ which projects two separate streams that converge to form a fuller, more satisfying drink. Additionally, most of our products are offered with optional filtration systems which are NSF/ANSI 42 and 53 certified.

- Halsey Taylor water coolers, bottle filling stations, drinking fountains and remote chillers are certified to NSF/ANSI 61 and 372 and meet Federal and State low-lead requirements.
- Electric water coolers, bottle filling stations and chillers are certified to UL399 and CAN/CSA 22.2 No. 120.
- Halsey Taylor offers a variety of water coolers and bottle filling stations which are GreenSpec® Listed.
- Designed to meet A.R.I. standard 1010.
- The Savanna, Illinois manufacturing facility is ISO 9001 registered.

Our durable and attractive finishes further reflect our concern for our products appearance, as well as their ability to withstand the test of time. From our standard vinyl colors and popular stainless steel finish, to our stunning Aztec Gold and unique Marblyte™, Halsey Taylor offers colorful options for today's vibrant and distinct environments.

This symbol means model is ADA compliant when properly installed. See specification sheet for details.

HYDROBOOST®

Water bottle filling stations designed to provide a rapid fill of refreshing drinking water to quench thirst and minimize plastic bottle waste in the environment.

Bottle Filling Stations

- Select from retrofit, surface mount, in-wall, water cooler combo, vandal-resistant and outdoor tubular models.
- Available with optional WaterSentry® Plus™ 3000 gallon filter (certified to NSF 42 and 53 for lead, Class I particulate, chlorine, taste and odor reduction).

The Halsey Taylor Difference

Green Counter™*

Informs users of number of 20 oz. plastic water bottles saved from waste.

Visual Filter Monitor (filtered models only)

Green, yellow and red LEDs to indicate filter status and when replacement is necessary.

Water Dispenser

- Fill rate is 1.1 for refrigerated models; 1.5 gpm for non-refrigerated models.
- Laminar flow provides clean fill with minimal splash.

Sensor Activation*

- No need to hold, just place bottle and fill.
- Automatic 20-second shut-off timer.
- User interface graphics for intuitive operation.

Silver Ion Anti-microbial protection on key plastic components to inhibit the growth of mold and mildew.*

*Available on most HydroBoost models.
Some features not available on specific models.

HydroBoost® Bottle Filler - HAC Green Cooler Combo

- Includes increased efficiency refrigeration system with over 35% greater energy efficiency than average market performance
- Sanitary sensor activation (bottle filler); easy-to-operate push activation (cooler)
- Quick fill rate of 1.1 GPM
- Automatic 20-second water flow shut-off
- Green Counter™ displays the number of plastic bottles saved from waste
- Available with optional WaterSentry® Plus 3000 gallon filter
 - Certified to NSF 42 and 53 for lead, chlorine, particulate, taste and odor reduction
 - Filtered models include Visual Filter Monitor to indicate when replacement is necessary
- Exclusive Halsey Taylor Double Bubbler™
- Easy-to-operate front and side pushbars with raised letters for the visually impaired
- Rated for indoor use
- Finish Options: PV (platinum vinyl); SS (stainless steel)
