M12™ AIRSNAKE™ Drain Cleaning Air Gun

The M12™ AIRSNAKE™ Drain Cleaning Air Gun is the industry's first drain cleaning machine designed to clear through drain covers and traps with powered air. The M12™ AIRSNAKE™ allows users to clear clogged drains while leaving fixtures and drain covers intact. Designed for 1"-4" drain lines, the M12™ AIRSNAKE™ has the power to clear up to 35 feet, past vent stacks and tees while the variable pressure dial allows for control on delicate pipe systems. Powered air flushes water out of pipes, completely removing grease and sludge from pipe walls. With the ability to work over sinks and eliminate retrieval mess, Drain Professionals, Plumbers, and Facility Maintenance will be able to work faster when clearing clogs. The M12™ AIRSNAKE™ is powered by REDLITHIUM™ Batteries, which deliver more work per charge and more work over pack life than competitors. REDLINK™ Intelligence provides optimized performance and overload protection against abusive situations.

INCLUDES:

- (1) M12™ AIRSNAKE™ Drain Cleaning Air Gun (2572-20)
- (1) Carrying Case

FEATURES:
