

NSDW300

It's time to ditch the plastic water bottle. Our Eco-conscious full-flow system hooks up directly to your faucet water line, giving you unlimited access to clean, great-tasting water. Its certified contaminant removal makes it perfect for drinking, cooking, rinsing produce and more.

FEATURES AND BENEFITS

- Compact design easily installs under the kitchen or bathroom sink
- · No additional faucet required
- Utilizes twist-and-pull sanitary filters for easy replacements, without shutting the water supply off
- NSF Certified under NSF/ANSI std. 42 and 53
- Installation kit includes all components needed for a typical install
- Filter should be replaced every 6 months or 2000 gallons
- Includes one-year limited warranty

REPLACEMENT FILTER

Filter utilizes activated carbon to reduce chlorine and sediment, while allowing for more thorough filtration. Sanitary encased design allows you to easily change filters without touching filter media.

Replacement Filter NSDW300R

BUILT-IN CABINET MOUNT

3/4" mount keeps the filtration system secure and provides stability while making filter changes. Installation kit includes mounting screws.

*Number based on 16.9 fl. oz. bottles of water

WARRANTY DETAILS

Warrantor guarantees, to the original owner, that the Undersink Full Flow Water Filtration System, when installed and maintained in accordance with the instructions, will be free from defects in materials and workmanship for a period of one (1) year from the date of purchase. If, within the first year, a part proves to be defective, Warrantor will, at its sole option, either replace or repair the part without charge, except normal shipping and installation charges. Labor to maintain the equipment is not part of the warranty. Filters, which are expendable, are not covered by the warranty.
