Model Number: B-8170, B-8171, B-8172,
B-8180, B-8181, B-8182, B-8190, B-8191

Warnings and Notes:

Check with local plumbing code requirements before installation.
This product should be installed by a local listed plumber.
Do not use plumbers putty on threads.

Installation Steps:

Two Handle Laundry Faucet

Tools:

Adjustable Wrench

Plumbers Putty

Teflon Tape

Rags

(1) Shut off water supplies. Remove old faucet. Clean mounting surface in preparation for new faucet.

(2) Apply plumbers putty under the base gasket, with base gasket on the bottom of deck plate, place faucet in position on the sink. Slide washers on shanks and secure the locknut to the shanks from underneath of the sink.

(3a) when using ball-nose flexible supplies to connect faucet to water supply valves, slip coupling nut onto flexible supply. Ball-nose coupling will go partially into shank. Tighten coupling nut (DO NOT OVERTIGHTEN). Install opposite end according to manufacturer's instruction for both tubes.

(3b) when using stainless steel braided faucet supply hose; this faucet requires one end of the supply hose to have a 1/2" female IPS connection. The other end of this supply hose must match the thread on the water supply valve under your sink. Once you've identified the required size, carefully follow the manufacturer's installation instructions for each hose.

(4) Important: After installation is complete, remove aerator. Turn water supply on and allow both hot and cold water to run at least one minute each. While water is running, check for leaks. Turn off water and replace aerator.
