Technical Data

Material:

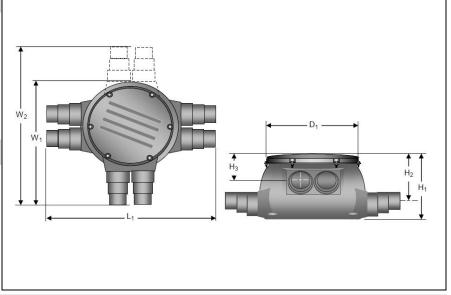

Body: Rotationally-molded Polyethylene

Body Interior: Polyethylene Insulation

Cover: Polyethylene
Cover Fasteners: Stainless Steel
Cover Gasket: EPDM Rubber

Product Information and Application Use

The Ecoflex® Connection Vault provides a fully watertight, insulated enclosure for multiple straight-through and branch underground connections. This product is designed to eliminate the need for multiple branch connections, saving installation time and cost. Step-down outlets are compatible with the majority of Ecoflex piping. **Note:** End Caps are required at all ends of the piping system to ensure insulation integrity.
