Technical Data

Material: Plastic cover is made of OmniCarb™ PC/PBT 400IM2. Leveling ring and pavement box are made of CP Pryme® ABS A100-20 plastic. Pavement box connects to Sensor Well via PVC fitting. Sensor Well is a copper shaft with brass NPT fitting powder-coated black.

Ambient conditions: Do not expose to conditions above 185°F (85°C).

Product Information and Application Use

The Climate Cōntrol™ Multifunction Controller supports snow-melt operation for up to two zones through the use of the Uponor Snow-melt Control. Use the Snow-melt Rough-in Kit and Well in conjunction with the Automatic Snow and Ice Sensor Assembly (A9013062) for full automatic operation.

Note: Installation requires the Automatic Snow and Ice Sensor Assembly (A9013062), sold separately.

✓	Description	Part Number	Cup Height	Cup Width	Total Weight
	Snow-melt Rough-in Kit and Well	A9013060	4.1"	5.0"	1.0 lb.
			Sensor Well Length	Sensor Well Width	
			4.5"	0.65"	

Installation

Install into a flat, secure surface. Adjust the final grade and sensor level to ensure the sensor surface is flush with the finished pavement. Ensure the adjacent pavement is either level or slightly crowned. A sensor submerged in water will not function properly. Refer to the Uponor Climate Cōntrol Multifunction Controller Installation Guide for additional information.
