

AT
A GLANCE
2023

WHO WE ARE

A global leader developing and manufacturing innovative, high value-added aluminium products and solutions.

Our mission

Meet our customers' and society's need for lightweighting, efficiency and sustainability

Our values

Safety, Respect,
Trust, Transparency,
Collaboration,
Empowerment

2022 Revenue

€8.1 bn

A Global Network

~12,500

employees worldwide

28 production sites

3 R&D centers

Our Products and Solutions

Our Facilities Worldwide

North America

Europe

Asia

WHAT WE DO

From soft drink cans to cars and planes, we design, develop, and engineer products and solutions in partnership with our customers.

Automotive

Our advanced aluminium solutions help global automotive manufacturers produce lighter, safer, and more fuel-efficient vehicles, as well as electric vehicles with greater range. We are a world leader in aluminium Crash Management Systems and structural components, and hold a leading position in Auto Body Sheet.

[Audi](#), [BMW Group](#), [Ford](#), [General Motors](#), [Honda](#), [Jaguar Land Rover](#), [Mercedes-Benz](#), [Porsche](#), [Renault](#), [Toyota](#), [Volkswagen](#),...

Packaging

Constellium is a world-leading integrated supplier for the aluminium packaging market, from design and production to recycling. We supply aluminium coils and sheets for the production of beverage and food cans, wine and spirits closures, personal care aerosols, and luxury packaging for the cosmetic industry.

We are the global leader in closure stock, and a leader in Europe and North America for can stock.

[AB InBev](#), [Amcor](#), [Ardagh Group](#), [Ball](#), [CANPACK](#), [Crown](#), [Coca-Cola](#),...

Aerospace

We offer innovative, high performance products and manufacturing for commercial aircraft, military aircraft, and space programs. We are the global leader in aerospace plates and aluminium-lithium-Airware[®]- flat rolled products, and a major player in fuselage sheet.

[Airbus](#), [ArianeGroup](#), [Blue Origin](#), [Boeing](#), [Dassault Aviation](#), [Lockheed Martin](#), [Pilatus](#), [Safran](#),...

But also...

Defense

Constellium's lightweight alloys offer outstanding impact resistance for armored vehicles and military bridges.

Transportation

We offer a wide range of lightweight and high performance solutions for vehicles such as commercial trucks and trailers, boats and ships, trains and buses.

Industry

We have more than 100 years of experience in industrial applications, from precision plates to semiconductor equipment to architecture.

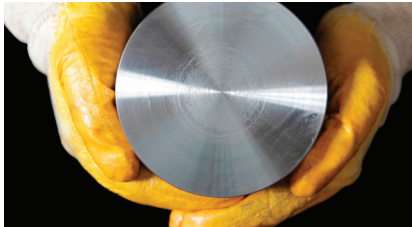

HOW WE DO IT

Sustainability At the core of our business

We are committed to building a safe, sustainable, and socially responsible company. This means reducing our environmental footprint, investing in the safety and diversity of our people, supporting our communities, and expanding our sustainability principles and initiatives to our supply chain.

Safety First - Safety is our highest priority. Our safety results are among the best in the industry and we remain committed to continuous improvement.

Reducing Greenhouse Gas Emissions

Emissions - As an important step in doing our part in the fight against climate change, we have committed to reduce our greenhouse gas emissions intensity by 30% in 2030 vs. 2021.

Sustainable Reporting - Every year, we track our sustainability performance and disclose our progress transparently with independent verification.

Innovation

Staying on the cutting edge

Our innovations bring improved performance, enhanced manufacturability, and eco-efficient solutions to our customers. We promote collaborative research among our teams, joint development with our customers, and long-term partnerships with universities, research labs, and scientific organizations around the globe.

~50 partnerships with universities

200+ active patent families

Creating Value

throughout the life cycle of aluminium
