Constellium joins EPA's ENERGY STAR® program as an Industrial Partner

Paris, May 11, 2023 – Constellium SE is proud to announce its participation in the U.S. Environmental Protection Agency (EPA) ENERGY STAR® program as an Industrial Partner. This partnership further demonstrates Constellium's commitment to energy efficiency and the fight against climate change.

The ENERGY STAR® program is a voluntary initiative that helps businesses protect the environment by promoting energy-efficient products, homes, buildings and manufacturing plants, as well as save on energy costs. As an Industrial Partner, Constellium will work closely with the EPA to identify and implement energy-saving strategies and technologies across its manufacturing operations in the United States.

"We are excited to join the ENERGY STAR® program as an Industrial Partner," said Bill Allemon, Global Energy Best Practices Leader at Constellium. "Sustainability is a key priority for Constellium, and this partnership aligns with our commitment to reduce our carbon footprint and promote energy efficiency. We look forward to our partnership with the EPA to achieve our shared goals."

Constellium has already taken significant steps to reduce its energy consumption and [greenhouse gas emissions](#). The company has set a target to reduce its greenhouse gas emissions by 30% by 2030 vs 2021, and reports its results annually in its [sustainability report](#).

About ENERGY STAR®

ENERGY STAR® is the government-backed symbol for energy efficiency, providing simple, credible, and unbiased information that consumers and businesses rely on to make well-informed decisions. Thousands of industrial, commercial, utility, state, and local organizations — including nearly 40% of the Fortune 500® — rely on their partnership with the U.S. Environmental Protection Agency to deliver cost-saving energy efficiency solutions. Since 1992, ENERGY STAR and its partners helped American families and businesses avoid more than \$500 billion in energy costs and achieve 4 billion metric tons of greenhouse gas reductions.
