YEELIGHT PRO

SMART HOME HUB

Centralised Control for Smart Lighting

The **Yeelight Pro Smart Home Hub** serves as a central control device for the Yeelight Pro's Smart Bluetooth Mesh (BLE Mesh) ecosystem. This hub allows integration, automation, and voice control of a wide range of Yeelight Pro smart devices, including lighting, motion sensors, and smart switches, by connecting them to a popular smart home hub.

A certified Control4 integration driver allows Yeelight Pro Bluetooth Mesh lighting to integrate seamlessly into any project. Featuring quick discovery protocols and no additional control wiring, deployment is fast, reliable, and installer-friendly. With built-in support for Apple Home-Kit, Google Assistant, and Amazon Alexa and other leading automation platforms, Yeelight Pro provides versatile smart lighting control for projects of any scale.

Features

- **Comprehensive Device Integration**
  Supports full-range connectivity and management of Yeelight Pro smart devices, including lighting, switches, motion sensors, scene panels, and curtain motors within a unified BLE Mesh ecosystem.
- **Cross-Platform Compatibility**
  Compatible with major AIoT and voice platforms: Apple Home-Kit, Matter (Wi-Fi), Google Assistant, Amazon Alexa, Smart Things, and Control4 for flexible and scalable smart home automation.
- **Certified Control4 Driver**
  Seamless integration with Control4 systems using certified driver, featuring quick device discovery, no additional wiring, and fast installer-friendly deployment.
- **Dual Network Connectivity**
  Wi-Fi (2x2 MIMO) and wired LAN supported for reliable, high-performance communication suited for both large residential and commercial environments.
- **High-Performance Wireless Technology**
  Advanced Wi-Fi chip with 2x2 MIMO technology delivers strong, extended signal coverage and superior penetration through walls.
- **Massive Device Capacity**
  Manages up to 150 Bluetooth Mesh devices concurrently, enabling expansive smart home and building automation solutions.
- **Smart Automation & Scene Control**
  Supports scheduling, scene creation, and sensor-triggered automation to enhance convenience, comfort, and energy efficiency.
- **Matter Board Router Functionality**
  Operates as a Matter Board Router, facilitating interoperability between Yeelight Pro devices and other Matter-enabled products via Wi-Fi.
- **Voice and App Control**
  Integrates with popular smart home platforms for voice commands and app-based control, enabling intuitive, hands-free operation.

Specifications

Product Model #	**YL-1-000007879 (YP-0194)**
Input Voltage	5V1A / Adapter: 220-240V
Rated Power	5W
Standby Power	<3W
Driver Type (works with)	• Yeelight Pro BLE Mesh driver • Matter
Size (mm)	84 x 84 x 21 mm
Surface Finishing	Light Grey
Product Weight (g)	320 gram
Operational Temperature	0~40°C
Humidity	0~95%
Ports & Connectivity	Ethernet, Wi-Fi, Bluetooh Mesh
Max Connected Devices	Up to 150 BLE Mesh Devices
Operating System	Linux
Processor	2 Cores
Memory	128mb RAM and 128m ROM
Integration	Control4, Apple Home-kit, Matter, Google, SmartThings, Amazon Alexa
OTA (Over The Air)	Yes
IP Rating	IP20
Certificates/Compliance	RCM, CE, RoHS, UKCA
Warranty	3 Year
