

YEELIGHT PRO

The **Yeelight Pro D Series CCT Recessed Downlight 8W** delivers refined illumination and intelligent control for modern interiors. Its compact form fits standard 75 mm cutouts and features a matte white finish that complements any décor. A 60° beam angle provides uniform, wide coverage ideal for living areas, offices, and commercial environments. Multi-layer anti-glare optics and a precision-engineered lens deliver soft, comfortable light with outstanding visual quality.

Integrated wireless BLE Mesh technology enables quick commissioning, grouping, and scene control via app, remote, or smartphone. The fixture supports flicker-free, ultra-deep dimming with tuneable white lighting (Circadian) and provides CRI of Ra90+ colour accuracy for natural, true-to-life lighting.

Part of the Yeelight Pro ecosystem, the D Series works seamlessly with Control4, Apple HomeKit, Google Assistant, Amazon Alexa, and other major automation platforms for a scalable and reliable smart lighting experience.

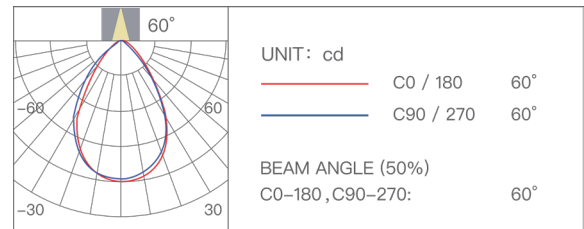

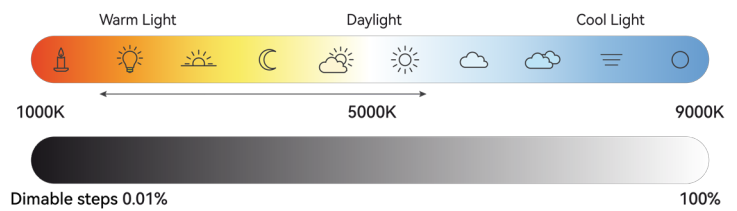

Features

- **Intelligent Wireless Control:** Integrated Bluetooth Mesh technology enables rapid commissioning, device grouping, and scene customisation through the Yeelight Pro app, remote control, or smartphone interface.
- **Tuneable White Colour Temperature:** Adjustable colour temperature recreates natural daylight with a gentle blue undertone, enhancing comfort and supporting circadian-friendly lighting throughout the day.
- **Dimming Performance:** Delivers precise brightness control with stable, flicker-free performance, ensuring visual comfort in residential and commercial settings.
- **Optical Design:** Features multi-layer optical filters and a precision cellular louvre structure that minimize glare and produce soft, evenly diffused light.
- **Colour Quality:** Delivers true-to-life colour rendering for enhanced visual clarity, bringing out the natural tones of interiors, furnishings, and artwork.
- **Smart Home Integration:** Fully compatible with Control4, Apple HomeKit, Google Assistant, Amazon Alexa, and other major automation platforms for effortless voice or app-based lighting control.
- **Ecosystem Compatibility:** Works seamlessly within the Yeelight Pro BLE Mesh ecosystem and integrates with the Yeelight Pro Smart Home Hub (model YL-1-000007879, sold separately) for scalable automation.
- **Power Efficient:** 8W power consumption achieves high luminous efficacy for energy-efficient performance and long operational life using premium LED components.
- **Controlled Beam Precision:** The 60° beam angle delivers soft, uniform illumination ideal for general lighting applications.

D SERIES Recessed CCT Downlight

75 mm 8 watts 60° angle

Specifications

Product Model #	YL-1-000008352-8W-EU
Input Voltage	220-240V
Frequency	50/60Hz
Rated Power	8W
Luminous Flux	480 lm
Colour Temperature	Tuneable White 2700-5700K
CRI	RA≥90
Beam Angle	60°
UGR Rating	<16
Dimming Rate	0.03% increments
Bluelight Hazard Class	RG1
Standby Power	<0.8W
Driver Type (works with)	Integrated Yeelight Pro BLE Mesh driver
Size (mm)	Ø83 x 73 mm
Cutout (mm)	Ø75 mm
Surface Finishing	Matte White
Product Weight (g)	345 gram
Integration	Control4, Apple Home-Kit, Google Assistant, Amazon Alexa
Certificates/Compliance	RCM, CE, RoHS, UKCA
Warranty	3 Year
