

Analysis of “Essential Business” Exceptions to Government “Stay at Home” Orders

Local, State, and National governments have introduced measures to help slow the spread of the COVID-19 pandemic. In some cases, governments have ordered the closure of certain types of businesses (e.g., “non-essential” businesses). Wirepath Home Systems, LLC (d/b/a “SnapAV,” “Control4,” “Allnet,” “Volutone,” “MRI,” and “CPD”) in conjunction with our dealers and vendors, produce products and services that perform vital roles that are essential to our communities. Examples include supplying and servicing critical technologies for healthcare providers, first responders, and other essential businesses that deliver food, shelter, medical care, financial support and social services. Our products and services also help enable people to work from home while also supporting the safety and essential operation of residences in your communities.

Essential product lines include networking, power, infrastructure, home security, lighting, control, and remote conferencing. Our organizational analysis regarding how we fit within the exceptions to current government orders as an essential business that should remain open is below.

The information below is for informational purposes only, and should not be relied upon as legal advice by non-SnapAV third parties such as dealers, distributors, and vendors to make business decisions. Business factors vary considerably for our business partners, including products sold and customers served. Third parties should obtain their own legal advice with respect to legal compliance matters.

The list on the following pages will be updated as new orders are implemented, and government guidance is clarified.

Guidance by Region

Alaska	Georgia	Massachusetts	New York	TX - Dallas/FTW
Arizona	Georgia - Atlanta	Michigan	North Carolina	TX - El Paso
California	Hawaii	Minnesota	NC - Charlotte	TX- Houston
CA - Sacramento	Idaho	Mississippi	Ohio	TX - San Antonio

Executive Order 2020-18: Stay Home, Stay Safe, Stay Connected ([order text](#)) ([top](#))

Executive Order 2020-12: Prohibiting the Closure of Essential Services ([order text](#))

We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in *Executive Order 2020-12* including “3.b. Essential Infrastructure Operations,” “3.e.ix. service providers who provide services that are necessary to maintaining the safety ... and essential operation of residences [and] essential businesses,” and “3.e.xv. “Businesses that sell, manufacture, or supply other Essential Businesses [with] computers, audio and video electronics ... IT and telecommunication equipment.”

Note that businesses that do not feel they are essential under the exceptions of *Executive Order 2020-12* may continue to operate under Section 12 of *Executive Order 2020-18* so far as they do not require in-person, on-site transactions.

Commentary

- SnapAV and many dealers also qualify under “essential” or “critical” infrastructure exceptions because they may meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including within the **Communications Sector** and the **Information Technology Sector**. They also meet similar exceptions for providing various “telecommunications” or “information technology” products and services.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.
 - We qualify under the Information Technology Sector, as we provide hardware, software, and information technology systems and services needed for the security, safety, and basic operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus,

Sense);

- **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and essential operations of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

California (Statewide)

Executive Order N-33-20
([order text](#)) ([top](#))

We believe SnapAV, including through its Volutone and CPD locations, and some of its dealers and vendors meet several of the exceptions to the executive order for “maintain[ing] continuity of operations of the federal critical infrastructure sectors, as outlined at <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>,” including the **Communications Sector** and the **Information Technology Sector**.

Commentary

- SnapAV, Volutone, and many dealers and vendors qualify under the Communications Sector CISA exception, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.

- SnapAV, Volutone, and many dealers and vendors qualify under the Information Technology Sector CISA exception, as we provide hardware, software, and information technology systems and services needed for the security, safety, and basic operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

California (Sacramento County)

Page 1 of 2

Order of the County Health Officer to Stay at Home or Place of Residence

[\(order text\)](#) [\(top\)](#)

We believe SnapAV, including through its CPD locations, and some of its dealers and vendors meet several of the exceptions to the order for Essential Businesses: “Essential Infrastructure,” “Service providers who provide services that are necessary to maintaining the safety, sanitation, and essential operation of residences,” “Businesses that supply products needed for people to work from home,” and “Businesses that supply other essential business with the support or supplies necessary to operate” See Section 10(g)(i, ix, xiv, xv).

Commentary

- SnapAV, CPD, and many dealers and vendors qualify under the “essential operation of residences,” and “work from home” exceptions, as we provide the following lines of products that enable such activities:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

- SnapAV, CPD, and many dealers meet the exception for “Essential Infrastructure” as we meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure:

<https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19> including as part of the **Communications Sector** and the **Information Technology Sector**.

 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.

 - We qualify under the Information Technology Sector, as we provide hardware, software, and IT systems and services needed for the security, safety, and operation of businesses and homes:

Colorado (Statewide)

Page 1 of 2

THIRD UPDATED PUBLIC
HEALTH ORDER 20-24
IMPLEMENTING STAY AT
HOME REQUIREMENTS
([order text](#)) ([top](#))

We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including “2. Critical Infrastructure ... [telecommunications],” “4. Critical Retail [including businesses] engaged in the sale of products that support working from home,” and “9. ... “[Businesses] who provide services necessary to maintain the safety ... and critical operation of residences and other Critical Businesses.”

Commentary

- SnapAV and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and critical operation of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);

OFFICE OF THE
GOVERNOR EXECUTIVE
ORDER NUMBER 20-89[\(order text\)](#) [\(top\)](#)OFFICE OF THE
GOVERNOR EXECUTIVE
ORDER NUMBER 20-91
[\(order text\)](#)

We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the orders including “Essential Critical Infrastructure” of Order 2020-91, and additional exceptions of Order 2020-89 including “2.i. ... service providers who provide services that are necessary to maintaining the safety... and essential operation of residences and other structures,” “2.n. Businesses that supply office products needed for people to work from home,” and “2.z. Telecommunications providers, including sales of computer or telecommunications devices and the provision of home telecommunications.”

Commentary

- SnapAV and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and essential operations of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

- SnapAV and many dealers also qualify under “essential” or “critical” infrastructure exceptions because they may meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including within the ***Communications Sector*** and the ***Information Technology Sector***. They also meet similar exceptions for providing various “telecommunications” or “information technology” products and services.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus,

Illinois (Statewide)

Page 1 of 2

*Executive Order in
Response to COVID-19
(COVID-19 Executive
Order No. 8)*

[\(order text\)](#) [\(top\)](#)

We believe SnapAV, including through its Allnet locations, and some of its dealers and vendors meet several of the exceptions to the executive order for essential business and operations:

Section 9: Essential Infrastructure. For the purposes of this executive order, individuals may leave their residence to provide any services or perform any work necessary to offer, provision, operate, maintain and repair Essential Infrastructure [the definition of Essential Infrastructure Includes] ... “distribution centers;” [and] ... “internet, video, and telecommunications systems (including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services).”

Commentary

- SnapAV, Allnet, and many dealers qualify under Essential Infrastructure exception above because they provide internet, video, and telecommunications systems for business and home communications infrastructure, computing services, and web-based services. These product lines include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- Allnet locations would qualify as a distribution center of Essential Infrastructure;
- Those dealers and vendors that provision, operate, maintain, or repair the products above may also qualify under the Essential Infrastructure exception.

Section 12: Essential Business and Operations. Essential Businesses and Operations means [In addition to Essential Infrastructure]:

- **M. Supplies to work from home.** *Businesses that sell, manufacture, or supply products needed for people to work from home.*
- **T. Manufacture, distribution, and supply chain for critical products and industries.** *Manufacturing companies, distributors, and supply chain companies producing and supplying essential products and services in and for industries such as ... technology, ... [and] communications.*

Illinois (Statewide)

Page 2 of 2

*Executive Order in
Response to COVID-19
(COVID-19 Executive
Order No. 8)*

[\(order text\)](#) [\(top\)](#)

Commentary

- SnapAV, Allnet, and many dealers and vendors qualify under the Section 12.M. exception because they supply products needed for people to work from home. Products needed for people to work from home include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

- SnapAV, Allnet, and many dealers and vendors qualify under the Section 12.T exception. because they distributor and act as the supply chain for critical products and industries including technology and communications. Examples of such technology and communications products include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

Indiana (Statewide)

Page 1 of 2

Directive for Hoosiers to Stay at Home: Executive Order 20-08

[\(order text\)](#) [\(top\)](#)

We believe SnapAV, including through its Allnet locations, and some of its dealers and vendors meet the several exceptions of the Order including:

- “11. Essential Infrastructure ... distribution, fulfillment centers ... internet, video, and telecommunications systems (including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services).”
- “14.a. CISA List.”
- “14.o. Supplies to Work from Home.”
- “14.p. Supplies for Essential Businesses and Operations”
- “14.u. Manufacture, Distribution, and Supply Chain for Critical Products and Industries”

Commentary

- SnapAV, Allnet, and many dealers and vendors qualify under the definition of “11. Essential Infrastructure ... distribution, fulfillment centers ... internet, video, and telecommunications systems (including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services).” Because they provide qualifying products in these categories including the following:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV, Allnet, and many dealers and vendors qualify under the definition of “14.a. CISA List” because they meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19> including the **Communications Sector** and the **Information Technology Sector**.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment**

Directive for Hoosiers to Stay at Home: Executive Order 20-08

[\(order text\)](#) [\(top\)](#)

(Autonomic, Binary, Episode, Triad, Control4);

- **Videoconferencing and telecommunications** (Nearus, Sense);
- **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.

- We qualify under the Information Technology Sector, as we provide hardware, software, and IT systems and services needed for the security, safety, and operation of businesses and homes:

- **Networking** (Araknis, Pakedge, Wattbox);
- **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
- **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
- **Security and Surveillance** (Luma, Pakedge, Visualint);
- **Videoconferencing and telecommunications** (Nearus, Sense);
- **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
- **Power and Lighting:** Wattbox, Pakedge, and Control4;
- **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

- SnapAV, Allnet, and many dealers and vendors qualify under the definition of “14.o. Supplies to Work from Home,” “14.p. Supplies for Essential Businesses and Operations,” “14.u. Manufacture, Distribution, and Supply Chain for Critical Products and Industries” for the same rationales provided under the responses highlighted in 11 and 14.a. above (i.e., we supply essential businesses and operations, and are a critical business and industry ourselves).

<p>Kansas (Statewide)</p> <p>Page 1 of 2</p> <p><i>Executive Order No. 20-16</i></p> <p>(order text) (top)</p>	<p>We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including “KEFF 100 Connect [categories apparently based on the CISA Communications and IT Sectors],” “2. WIREPATH CONFIDENTIAL

Published April 3, 2020

Kentucky (Statewide)

Executive Order 2020-246

[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors are not prohibited from continuing operations, as we do not meet the criteria for those business identified as prohibited to operate under Section 1: “[I]n-person retail businesses that are not life-sustaining” and do not meet any subsequently identified types of prohibited businesses, including those found in the Exhibits to the Order.

Louisiana (Statewide)

*Proclamation No. 33 JBE
2020: Additional
Measures for COVID-10
Stay at Home*

[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors meet the several exceptions of the Order including:

- “3(C). [Essential functions include the COVID-19 Guidance provided by] the U.S. Department of Homeland Security, Cybersecurity & Infrastructure Security Agency (CISA).”

Commentary

- SnapAV and many dealers and vendors qualify under the definition of “3. [T]hose industries and workers described in the U.D. Department of Homeland Security’s Cybersecurity and Infrastructure Security Agency’s ...COVID-19 Response [Guidance].” because they meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including the **Communications Sector** and the **Information Technology Sector**.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.
 - We qualify under the Information Technology Sector, as we provide hardware, software, and IT systems and services needed for the security, safety, and operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

<p>Maine (Statewide)</p> <p><i>19 FY 19/20: AN ORDER REGARDING ESSENTIAL BUSINESSES AND OPERATIONS</i></p> <p>(order text) (top)</p>	<p>We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including “II.B.1. Maryland (Statewide)

Executive Order: 20-03-23-01 (as amended)
([order text](#)) ([top](#))

We believe SnapAV and some of its dealers and vendors are not prohibited from continuing operations, as we meet the criteria of the order as “part of the critical infrastructure sectors identified by the U.S. Department of Homeland Security’s Cybersecurity and Infrastructure Security Agency (currently described at <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>).”

Commentary

- SnapAV and many dealers and vendors qualify under the Communications Sector CISA exception, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.

- SnapAV and many dealers and vendors qualify under the Information Technology Sector CISA exception, as we provide hardware, software, and information technology systems and services needed for the security, safety, and basic operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

Michigan (Statewide)

Executive Order: 2020-21: Temporary requirement to suspend activities that are not necessary to sustain or protect life ([order text](#)) ([top](#))

We believe SnapAV, Allnet, and some of its dealers and vendors are not prohibited from continuing operations, as we meet the criteria as “necessary to sustain or protect life” of the order. The order specifically includes “critical infrastructure” as defined by CISA. Section 8.h of the order specifically includes the CISA communications and information technology sectors. See also <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>.

Commentary

- SnapAV, Allnet, and many dealers and vendors qualify under the Communications Sector CISA exception, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.

- SnapAV, Allnet, and many dealers and vendors qualify under the Information Technology Sector CISA exception, as we provide hardware, software, and information technology systems and services needed for the security, safety, and basic operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

Minnesota (Statewide)

Page 1 of 2

*Executive Order 20-20:
Directing Minnesotans
to Stay at Home*

([order text](#)) ([top](#))

We believe SnapAV, Allnet, and some of its dealers and vendors meet several of the exceptions outlined in the order including “6.h. Communications and information technology ... listed in the CISA Guidance,” “6.x. ... service providers who provide services that are necessary to maintain the safety... and essential operation of homes and residences and the Critical Sectors.” “6.ii. Businesses that sell products, tools, materials, or supplies necessary for: ... workers to work from home, or ... for the maintenance of the safety ... and essential operation of homes or residences.”

Commentary

- SnapAV, Allnet, and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and essential operations of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

- SnapAV, Allnet, and many dealers also qualify under “essential” or “critical” infrastructure exceptions because they may meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including within the ***Communications Sector*** and the ***Information Technology Sector***. They also meet similar exceptions for providing various “telecommunications” or “information technology” products and services.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);

Missouri (Kansas City)

(Page 1 of 2)

*Second Amended Order
20-01*[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including “2.i. Essential Infrastructure,” “2.x. ... service providers who provide services that are necessary to maintaining the safety ... and essential operation of residences ... and Essential Businesses,” “2.xvi. Businesses that supply office products needed for people to work from home,” and “3. ... internet and other telecommunications systems (including the provision of essential infrastructure for computing services, business infrastructure, communications, and web-based services).”

Commentary

- SnapAV and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and essential operations of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

- SnapAV and many dealers also qualify under “essential” or “critical” infrastructure exceptions because they may meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including within the ***Communications Sector*** and the ***Information Technology Sector***. They also meet similar exceptions for providing various “telecommunications” or “information technology” products and services.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);

Health 2019 Novel
Coronavirus ("COVID-
19") Stay at Home Order*
[\(order text\)](#) [\(top\)](#)

- **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.
- We qualify under the Information Technology Sector, as we provide hardware, software, and information technology systems and services needed for the security, safety, and basic operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV and many dealers and vendors qualify under exceptions for supplying products that enable working from home including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

Montana (Statewide)

Page 1 of 2

Directive Implementing Executive Orders 2-2020 and 3-2020 providing measures to stay at home and designating certain essential functions ([order text](#)) ([top](#))

We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including “8. Essential Critical Infrastructure ... internet, video, and telecommunication systems (including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services),” 11.h. ... service providers who provide services that are necessary to maintaining the safety... and essential operation of residences, Essential Activities, and Essential Businesses and Operations,” “11.m. Businesses that sell, manufacture, or supply products needed for people to work from home,” and “11.n. Businesses that sell, manufacture, or supply other Essential Businesses [with] computers, audio and video electronics ... IT and telecommunication equipment.”

Commentary

- SnapAV and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and essential operations of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV and many dealers also qualify under “essential” or “critical” infrastructure exceptions because they may meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including within the **Communications Sector** and the **Information Technology Sector**. They also meet similar exceptions for providing various “telecommunications” or “information technology” products and services.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge,

WIREPATH CONFIDENTIAL

Published April 3, 2020

New Jersey (Statewide)

Executive Order No. 107

[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors are not prohibited from continuing operations, as we do not meet the criteria for those businesses required to close:

- “[B]rick-and-mortar ... non-essential retail business [open] to the public.” See Section 6.
- “All restaurants, cafeterias, dining establishments, and food courts, with or without a liquor license, all bars, and all other holders of a liquor license with retail consumption privileges.” See Section 8.
- [R]ecreational and entertainment businesses, including but not limited to ... Casino gaming floors ... Racetracks ... Gyms and fitness centers ... Entertainment centers ... indoor portions of retail shopping malls ... places of public amusement ... personal care services ... libraries and computer labs at public and private colleges and universities.” See Section 9.

**New Mexico
(Statewide)**

Page 1 of 2

Public Health Emergency Order Closing All Businesses and Non-Profit Entities Except for those Deemed Essential and Providing Additional Restrictions on Mass Gatherings Due to COVID-19 ([order text](#)) ([top](#))

We believe SnapAV and some of its dealers and vendors meet several of the exceptions to the order for Essential Businesses: “infrastructure operations... data and internet providers ... technology support operations, and telecommunications systems,” “services necessary to maintain the safety ... of residences.” See Sections 3(g),(i).

Commentary

- SnapAV and many dealers and vendors qualify under the “maintain the safety ... of residences,” as we provide the following lines of products that enable the safety and essential operation of residences:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

- SnapAV and many dealers meet the exception for “infrastructure operations... data and internet providers ... technology support operations, and telecommunications systems,” as we meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19> including as part of the **Communications Sector** and the **Information Technology Sector**.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.

 - We qualify under the Information Technology Sector, as we provide hardware, software, and IT systems and services needed for the security, safety, and operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems;**

New York (Statewide)

Page 1 of 2

Executive Order 202.6
([order text](#)) ([top](#))

We believe SnapAV, including through its MRI locations, and some of its dealers and vendors meet several of the exceptions to the executive order for Essential Businesses including: “2. *Essential Infrastructure including telecommunications*” and “11. *Essential Services necessary to maintain the safety [and] essential operations of residences and other essential businesses*”

Commentary

- SnapAV, MRI, and many dealers may qualify under the “essential infrastructure including telecommunications” exception because they provide telecommunications products and services including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.

- SnapAV, MRI, and many dealers also qualify under “essential infrastructure” exception because they meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including the **Communications Sector** and the **Information Technology Sector**.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.

 - We qualify under the Information Technology Sector, as we provide hardware, software, and information technology systems and services needed for the security, safety, and basic operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge,

New York (Statewide)

([order text](#)) ([top](#))

Control4);

- **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
- **Security and Surveillance** (Luma, Pakedge, Visualint);
- **Videoconferencing and telecommunications** (Nearus, Sense);
- **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
- **Power and Lighting:** Wattbox, Pakedge, and Control4;
- **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

- SnapAV, MRI, and many dealers also qualify under the “Essential Services necessary to maintain the safety [and] essential operations of residences and other essential businesses” exception because they provide systems for security, safety, and essential operation of businesses. Such systems include:

- **Networking** (Araknis, Pakedge, Wattbox);
- **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
- **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
- **Security and Surveillance** (Luma, Pakedge, Visualint);
- **Videoconferencing and telecommunications** (Nearus, Sense);
- **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
- **Power and Lighting:** Wattbox, Pakedge, and Control4;
- **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

<p>North Carolina (Statewide) Page 1 of 2 <i>Executive Order No. 121</i> (order text) (top)</p>	<p>We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including “2. *Revised Joint
Proclamation of the
Chairman of the
Mecklenburg County
Board of Commissioners,
the Mayor of the City of
Charlotte... Restricting
all businesses and
government agencies to
cease non-essential
operations*

[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors meet the several exceptions of the Order including:

- “Essential Infrastructure ... distribution centers ... internet, video, and telecommunications systems (including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services).”
- “8. Critical trades ... necessary to maintain the safety, sanitation, and essential operations of residences”
- “13. Supplies to work from home”
- “14. Supplies for essential businesses and operations”
- “20. Manufacture, distribution, and supply chain for critical products and industries ... technology ... communications ... products used by other Essential Businesses and Operations”

Commentary

- SnapAV and many dealers and vendors qualify under the definition of “Essential Infrastructure ... distribution centers ... internet, video, and telecommunications systems (including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services.” Because we provide qualifying products in these categories including the following:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV and many dealers and vendors also qualify under the definition of essential infrastructure because they meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19> including the **Communications Sector** and the **Information Technology Sector**.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);

- **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.
- We qualify under the Information Technology Sector, as we provide hardware, software, and IT systems and services needed for the security, safety, and operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV and many dealers and vendors qualify under the definitions of “8. Critical trades ... necessary to maintain the safety, sanitation, and essential operations of residences,” “13. Supplies to work from home,” “14. Supplies for essential businesses and operations,” and “20. Manufacture, distribution, and supply chain for critical products and industries ... technology ... communications ... products used by other Essential Businesses and Operations” because our products and services meet these categories including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

Rhode Island

Executive Order 20-13

[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors meet the requirements to remain open under the order, as it only requires the closure of “non-critical retail businesses.” See Section 4. SnapAV and many of its dealers are not non-critical retail businesses.

Tennessee

Page 1 of 2

Executive Order by the Governor No. 22[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including “10. Critical Infrastructure,” Attachment A to the Order: “2. Personnel identified on pages 5-15 of the Memorandum on Identification of Essential Critical Infrastructure Workers During COVID-19 Response issued by the Cybersecurity and Infrastructure Security Agency (CISA),” “4. Essential Infrastructure ... distribution centers ... internet, video, and telecommunications systems and services including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services,” “14. ... service providers who provide services that are necessary to maintaining the safety... and essential operation of residences and Essential Services,” “19. ... businesses that sell, manufacture, or supply products necessary for persons to work from home” and “20. ... businesses that sell, manufacture, or supply other Essential Businesses [with] computers, audio and video electronics ... IT and telecommunication equipment.”

Commentary

- SnapAV and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and essential operations of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV and many dealers also qualify under “essential” or “critical” infrastructure exceptions because they may meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including within the ***Communications Sector*** and the ***Information Technology Sector***. They also meet similar exceptions for providing various “telecommunications” or “information technology” products and services.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:

Texas (Dallas County)

AMENDED ORDER OF
COUNTY JUDGE CLAY
JENKINS: Stay Home
Stay Safe

([order text](#)) ([top](#))

Note: nearly 40 counties and cities in Texas have implemented orders. Several major metropolitan areas are listed in this document. For a full list of orders, please visit this [link](#).

We believe SnapAV, Allnet, and some of its dealers and vendors are not prohibited from continuing operations, as we meet the criteria as “Essential Businesses: Essential Critical Infrastructure” of the order Section 2(b)(iii): “Work necessary to the operations and maintenance of the 16 critical infrastructure sectors as identified by the National Cybersecurity and Infrastructure Agency (CISA).” The 16 Critical Infrastructure Sectors are listed at: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>.

Commentary

- SnapAV, Allnet, and many dealers and vendors qualify under the Communications Sector CISA exception, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.

- SnapAV, Allnet, and many dealers and vendors qualify under the Information Technology Sector CISA exception, as we provide hardware, software, and information technology systems and services needed for the security, safety, and basic operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

Texas (El Paso/El Paso County)

Page 1 of 2

Order No. 7 by the County Judge of El Paso County, Texas

[\(order text\)](#) [\(top\)](#)

Note: nearly 40 counties and cities in Texas have implemented orders. Several major metropolitan areas are listed in this document. For a full list of orders, please visit this [link](#).

We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including: “5.c. Essential Critical Infrastructure ... the 16 critical infrastructure sectors [of] CISA including internet, and telecommunications systems (including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services),” “5.f.ii. ... businesses that supply products needed for people to work from home,” “5.f.iv. ... service providers who provide services that are necessary to maintaining the safety... and essential operation of residences and Essential Businesses,” “5.f.ix. “Businesses that supply other Essential Businesses, Critical Infrastructure [with] computers, audio and video electronics,” and “5.f.xiv. Information Technology Services. IT and IT services and their essential services vendors, including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, web-based services, and critical manufacturing.”

Commentary

- SnapAV and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and essential operations of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV and many dealers also qualify under “essential” or “critical” infrastructure exceptions because they may meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including within the ***Communications Sector*** and the ***Information Technology Sector***. They also meet similar exceptions for providing various “telecommunications” or “information technology” products and services.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:

 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

Texas (Houston/Harris County)

Page 1 of 2

*Order of County Judge
Lina Hidalgo*[\(order text\)](#) [\(top\)](#)

Note: nearly 40 counties and cities in Texas have implemented orders. Several major metropolitan areas are listed below. For a full list of orders, please visit this link.

We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including “Essential Critical Infrastructure,” “6.e.i. ... service providers only to the extent that services are necessary to maintaining the safety... and essential operation of residences and Essential Businesses,” “6.e.xiii. Businesses that supply office products needed for people to work from home,” “6.e.xx. Information Technology Services/Telecommunications Services, IT and IT services and their essential services vendors, including the provision of essential global, national, and local infrastructure for computing services, business infrastructure, communications, web-based services, and critical manufacturing, as well as telecommunications services, internet access and broadband/communications services.”

Commentary

- SnapAV and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and essential operations of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV and many dealers also qualify under “essential” or “critical” infrastructure exceptions because they may meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including within the ***Communications Sector*** and the ***Information Technology Sector***. They also meet similar exceptions for providing various “telecommunications” or “information technology” products and services.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);

Page 1 of 2

Addendum 6 to
Executive Order 01-20[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors meet several of the exceptions outlined in the order including “6.c. critical infrastructure including utilities, telecommunication,” and “6.m. services for the safety ... and operations of residences and other businesses.”

Commentary

- SnapAV and many dealers also qualify under the exception for providing services that are necessary to maintain the safety and essential operations of residences and essential businesses because they provide systems for security, safety, and essential operation of businesses. Such products and services include:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

- SnapAV and many dealers also qualify under “essential” or “critical” infrastructure exceptions because they may meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including within the **Communications Sector** and the **Information Technology Sector**. They also meet similar exceptions for providing various “telecommunications” or “information technology” products and services.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:

WIREPATH CONFIDENTIAL

Published April 3, 2020

Virginia (Statewide)

*Executive Order Number
Fifty-five (2020)*

[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors may continue to operate in Virginia, as they do not meet any of the categories of businesses required to close under Executive Orders 53 and 55 (non-essential retail businesses).

Washington (Statewide)

Page 1 of 2

Proclamation by the Governor Amending Proclamation 20-05, 20-25 Stay Healthy

([order text](#)) ([top](#))

Essential Critical Infrastructure Workers List ([order text](#))

We believe SnapAV, CPD, and some of its dealers and vendors are not prohibited from continuing operations, as we meet the exception for “Employment in essential business services” as defined by the *Essential Critical Infrastructure List* of the state. Our workers perform critical roles in the defined essential workforce including:

Communications:

- “Maintenance of communications infrastructure- including privately owned and maintained communication systems- supported by technicians, operators, call-centers, wireline and wireless providers, cable service providers, satellite operations, undersea cable landing stations, Internet Exchange Points, and manufacturers and distributors of communications equipment”
- “Installation, maintenance and repair technicians that establish, support or repair service as needed”
- “Customer service and support staff [for communications products and services”
- “Dispatchers involved with service repair and restoration”

Information Technology:

- “HVAC & electrical engineers, IT managers, data transfer solutions engineers, software and hardware engineers, and database administrators”
- “Client service centers, field engineers, and other technicians supporting critical infrastructure, as well as manufacturers and supply chain vendors that provide hardware and software, and information technology equipment”
- “Other critical infrastructure categories and personnel”
- “Workers supporting the provision of essential global, national and local infrastructure for computing services (incl. cloud computing services), business infrastructure, web-based services, and critical manufacturing”
- “Workers supporting communications systems and information technology used by law enforcement, public safety, medical, energy and other critical industries”
- “Support required for continuity of services”

Commentary

- SnapAV, CPD, and many dealers and vendors qualify under the *Essential Critical Infrastructure Workers List* above. In addition to specific types of workers listed above, we also qualify under the Washington State and Federal CISA Communications and Information Technology Sectors generally.
 - We qualify under the Communications Sectors for Washington and CISA, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:

Washington (Statewide)

*Director's Stay at Home
Order*[\(order text\)](#) [\(top\)](#)

We believe SnapAV and some of its dealers and vendors meet the several exceptions of the Order including:

- “3. [T]hose industries and workers described in the U.D. Department of Homeland Security’s Cybersecurity and Infrastructure Security Agency’s ...COVID-19 Response [Guidance].”
- “3(f). Essential infrastructure [including] internet, video, and telecommunications systems (including the provision of global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services) and telecommunications workers.”

Commentary

- SnapAV and many dealers and vendors qualify under the definition of “3(f). Essential infrastructure [including] internet, video, and telecommunications systems (including the provision of global, national, and local infrastructure for computing services, business infrastructure, communications, and web-based services) and telecommunications workers.” Because we provide qualifying products in these categories including the following:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.
- SnapAV and many dealers and vendors qualify under the definition of “3. [T]hose industries and workers described in the U.D. Department of Homeland Security’s Cybersecurity and Infrastructure Security Agency’s ...COVID-19 Response [Guidance].” because they meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19>” including the ***Communications Sector*** and the ***Information Technology Sector***.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment**

EMERGENCY ORDER
#12: SAFER AT HOME
ORDER[\(order text\)](#) [\(top\)](#)

We believe SnapAV, including through its Allnet locations, and some of its dealers and vendors meet the several exceptions of the Order including:

- “13.a. CISA List.”
- “13.n ... [S]ervices necessary to maintaining the safety [and] essential operation of residences.”
- “13.q. Supplies to Work from Home.”
- “13.r. Supplies for Essential Businesses and Operations [including] computers; audio and video electronics ... IT and telecommunication equipment ... electrical [equipment]”
- “13.v. Manufacture, Distribution, and Supply Chain for Critical Products and Industries”

Commentary

- SnapAV and many dealers and vendors qualify under the definition of “13.a. CISA List” because they meet the Federal Cybersecurity and Infrastructure COVID-19 qualifications as critical infrastructure: <https://www.cisa.gov/identifying-critical-infrastructure-during-covid-19> including the **Communications Sector** and the **Information Technology Sector**.
 - We qualify under the Communications Sector, as we provide internet, audiovisual, and telecommunications products and services needed for continued communications of businesses and the public including:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly.
 - We qualify under the Information Technology Sector, as we provide hardware, software, and IT systems and services needed for the security, safety, and operation of businesses and homes:
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
 - **Power and Lighting:** Wattbox, Pakedge, and Control4;
 - **Residential and Business Control and Operations:** Control4, OvrC, Visualint.

Wisconsin (Statewide)

Page 2 of 2

*EMERGENCY ORDER
#12: SAFER AT HOME
ORDER*[\(order text\)](#) [\(top\)](#)

- SnapAV and many dealers and vendors qualify under the definitions of “13.n ... [S]ervices necessary to maintaining the safety [and] essential operation of residences,” “13.q. Supplies to Work from Home,” and “13.r. Supplies for Essential Businesses and Operations [including] computers; audio and video electronics ... IT and telecommunication equipment ... electrical [equipment].” The following products and services each qualify under one or more of the categories above.
 - **Networking** (Araknis, Pakedge, Wattbox);
 - **Remote management of networking and computer systems; web-based services** (OvrC, Pakedge, Control4);
 - **Data, video, and audiovisual distribution equipment** (Autonomic, Binary, Episode, Triad, Control4);
 - **Security and Surveillance** (Luma, Pakedge, Visualint);
 - **Videoconferencing and telecommunications** (Nearus, Sense);
 - **Network, telecommunications, computing, video, power, and lighting infrastructure and building materials:** Wirepath, Strong, Wattbox, Dragonfly;
