A VISION AND GOALS FOR KITTERY’S FUTURE
Kittery Comprehensive Plan Update Committee

A vision confirms a community's commitment to a set of values to be used as a lens through which to view information and make future decisions. Having a vision helps to frame subsequent discussions regarding how to achieve a desired future and helps to keep these discussions focused.

The Vision and Goals presented here are based on the input from Kittery residents who participated in public forums as well as input given on-line.

A VISION AND GOALS FOR KITTERY’S FUTURE
Kittery Comprehensive Plan Update Committee

**IMAGINE**... a Kittery whose character is protected by the preservation and adaptive reuse of its historic buildings, the control of the scale of redevelopment so that it is in keeping with the historic charm of the Town and a promotion of the Town's history.

**IMAGINE**... a Foreside district that is a thriving, historic neighborhood that includes one of Maine's earliest working waterfront. A Foreside that maintains the historic, working -class character and scale and preserves its building stock by adopting a preference for creative or adaptive reuse of existing buildings. **Workforce housing** is integrated in the district. Walking and biking is safe and pleasant and there are more green spaces to enjoy as well as the working waterfront.

**IMAGINE**... a Kittery where its beautiful and treasured natural features are preserved and protected and where enjoyment is enhanced through increased access to these for both passive and active recreation. Recreational activities are managed so as to prevent negative impacts on the environment, the season at Fort Foster is extended and programming at the Kittery Community Center is even more developed. Enjoyment of the water is enhanced by increasing **public access to the water**, cleaning up Spruce Creek, and providing shuttle service to Portsmouth from the Town Pier at Foreside.

**IMAGINE**... a Kittery that prepares for the expected rise in sea level due to climate change, including preparing for more frequent and extreme storms and flooding. As part of the forward looking attitude the town develops a plan to transition to low and zero impact energy methods and leads by example so that all town-owned buildings use renewable sources of energy, and the Town provides incentives for residents and business owners to do the same.

**IMAGINE**... a Kittery that preserves its sense of community, the sense of peace and quiet, but also the diversity of places that make up the Town. It feels more unified and less separated as multiple ways of getting around Town are more available. Traffic congestion is lessened and walking and biking is made safe and pleasant. A town shuttle helps to better connect people as do the additional places to gather and run into one another.

**IMAGINE**... a Kittery that while improving and growing is able to retain a diverse socio-economic mix of residents by providing affordable, workforce housing and by creating jobs with adequate wages and salaries, resulting in a sustainable community.

**IMAGINE**... the economy of Kittery more diversified as it retains existing and supports additional local businesses, where the existing businesses are redeveloped into more pedestrian-oriented mixed-use developments that incorporate more natural features and that are able to be more economically viable, sustainable, and in keeping with evolving expectations of shoppers.

**IMAGINE**... a Kittery that has a continuing relationship with the Portsmouth Naval Shipyard, and traffic, noise and light impacts created by activity in the shipyard are reduced as a result of working together to mitigate these.

**IMAGINE**... a re-imagined, twenty-first century library and a school system where students are consistently recognized for their success in the community and nationwide because these institutions provide top quality education, opportunities for life long learning, and enrichment programs.

**IMAGINE**... that all these improvements are made in a systematic way with significant community engagement in the decision-making process led by a town government that is respectful, transparent and civil in its discourse. A shared vision and ordinances that support the goals embodied in the vision are clear and easy to enforce.
