

# *Transforming Competing Priorities to Mutually Beneficial Outcomes*

## Listening Session Questions

### **Environmental Sustainability Goals + Policies/ Town Resources**

- How can sustainability policies support and add value to the Town and all of the comprehensive long range plan priorities?
- What are specific examples of potential mutually beneficial solutions utilizing sustainability models?
- How do we think “outside the box” to ensure sustainability is infused throughout this plan’s recommendations and provides added value?
- What are potential Town resource implications to solutions – financial, land, and/or human resources?
