- Radiator cap test connectors checks for leaks with the original radiator cap
- 1-Year warranty for added confidence and reliability

575000

AIRLIFT® PROFESSIONAL-GRADE COOLING SYSTEM DIAGNOSTICS IN ONE KIT.

**26-piece universal kit is compatible with
AIRLIFT® 550000 and VACUFILL™ 570000.**

The CPS AIRLIFT® Universal Radiator Cooling System Pressure Test Kit (P/N 575000) is engineered for performance, precision, and efficiency.

Designed to meet the needs of automotive professionals, this all-in-one 26-piece kit includes everything required for accurate radiator pressure testing and coolant diagnostics across domestic and import vehicles.

Saves Time

Universal adapters mean less time spent matching tools to vehicles

Prevents Costly Mistakes

Quickly identifies leaks and air pockets before engine damage occurs

Boosts Shop Efficiency

Complete, portable kit ensures everything needed is on hand

Reduces Comebacks

More accurate pressure testing reduces customer complaints

Increases Profitability

Affordable alternative to premium brands without sacrificing core functionality

Trusted Backing

One-year warranty supports long-term shop use

AIRLIFT® UNIVERSAL RADIATOR COOLING SYSTEM PRESSURE TEST KIT

The 26-piece AIRLIFT® Universal Radiator Cooling System Pressure Test Kit exposes both external and internal leaks—whether due to failed gaskets, cracked blocks, or faulty radiator caps. This universal kit fits most modern vehicle platforms, helping you detect problems before they escalate. **Instruction manual includes vehicle compatibility chart.**
