Safety Instructions

Read and understand this entire manual before using this product. Keep these instructions for future reference.

1. Do not use this product near water.
2. This product should be operated only by the type of power source indicated on the marking label or in this instruction manual.
3. Do not defeat the safety purpose of the polarized plug. A polarized plug has two blades with one blade wider than the other. This plug will fit into the power outlet only one way. If you are unable to insert the plug fully into the outlet try reversing the plug. If the plug should still fail to fit, contact your electrician.
4. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the product.
5. Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
6. Never push objects of any kind into this product through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind on the product.
7. Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.
8. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
9. Do not use attachments not recommended by the product manufacturer as they may cause hazards.
10. A product and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the product and cart combination to overturn.
11. Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the product and to protect it from overheating. Do not block or cover these openings.
12. Unplug the product during lightning storm or when unused for long periods of time.

Items in this package

Before throwing away any packaging materials, please check thoroughly and make sure you find the following items that come along with this package:

- Turntable
- Turntable Lid
- Turntable Platter
- Turntable Slip Mat
- 45 RPM Adapter
- Power Adaptor
- RCA Cable

Please contact Crosley Customer Service if there is any accessory missing from the package. **Retain the original packaging materials for exchange or return purposes.**

Specifications

Power	AC power adaptor, DC output 12V 0.6A
Power consumption	2.6 W
Turntable speed	33 ¹ / ₃ , 45 RPM
Replacement needle	Crosley NP5

Note:

- *Design and specifications are subject to change without notice.*

Product Description

|-------------------------|--------------------------|
| 1. Hinges | 11. Start Button |
| 2. Turntable Spindle | 12. Headshell |
| 3. Turntable Platter | 13. Forward Skip Button |
| 4. Tonearm | 14. Lift Button |
| 5. Size Selector | 15. Backward Skip Button |
| 6. Hold Down Clip | 16. Output Jacks |
| 7. Bluetooth Indicator | 17. Phono/Line Switch |
| 8. Power/Speed Selector | 18. Ground Connector |
| 9. Bluetooth Button | 19. Power Jack |
| 10. Stop Button | |

Initial Setup

Essential Setup

1. Place the unit on a flat and level surface. The selected location should be stable and free from vibration.
2. Install the turntable lid to the hinges.
3. Remove the tie-wrap that is holding the tonearm.
4. Install the turntable platter and drive belt accordingly.
5. Place the slip mat on top of the turntable platter.
6. Connect AC adaptor to the Power Jack of the unit.

Note: Do not plug the AC power adaptor to power outlet before all the assembly is completed. Before turning the power on, make sure again all the connection settings are correct. Always turn off the power when connecting or disconnecting.

Turntable Platter and Belt Setup

1. Install the drive belt over the inner ring under the platter and make sure it won't fall off during the setup.
2. Place the platter through the turntable spindle, then rotate the platter until you see the drive motor pulley through the window at the top right corner.
3. Carefully grab the drive belt and put it around the slot of motor pulley.

Phono/Line Switch

For increased flexibility of use, this unit has a built-in stereo phono pre-amplifier. If you prefer to use the phono input of your stereo system or your standalone phono pre-amplifier, set the Phono/Line switch to the PHONO position. Otherwise, please set it to LINE position and make connection to the AUX input or other high-level input on your stereo system.

Stereo System Connection

Output Jacks

- The output jacks of this unit can be used as either Phono output jacks or Line output jacks. This is determined by using the Phone/Line Switch.

- To connect to active speakers, set Phono/Line switch to Line setting. To connect to a phono pre-amp or the phono input of a stereo system, set Phono/Line switch to Phono setting.
- The Red plug connects with the Right channel and the White plug connects with the Left channel.

Note:

- If the Phono/Line switch is set at LINE position but the output jack is connected to the stereo system's phono input, the sound might be distorted due to input overload and could damage your stereo system.
- If the Phono/Line switch is set at PHONO position but the output jack is connected to the stereo system's line input, the volume will be very low due to lacking signal pre-amplification.
- The output jacks are not designed to be connected directly to the passive/unpowered speakers and if they are, the volume will be very low.

Turntable Operation

1. Set the Size Selector and the Power/Speed Selector to the appropriate record size.

Note: 33¹/₃ RPM is size 12" and 45 RPM is 7".

2. Place the record on the turntable. Use the 45 RPM Adapter if necessary.
3. Remove the stylus protector from the stylus assembly.

Note: To avoid stylus damage, make certain the included stylus guard is in place whenever the turntable is being moved or cleaned.

4. Release the tonearm Hold Down Clip.

Note: when the turntable is not in use, remember to lock back hold down clip.

5. Push the START Button. The turntable will start and the tone arm automatically will move to the record. When the record has finished playing, the tone arm will automatically return to the tone arm rest and the turntable will shut off.
6. To stop playing the record before it reaches the end, press the STOP Button. The tone arm will lift and return to the tone arm rest, and the turntable will shut off.
7. To pause the record before it has completed playing, press the Lift Button. Press the Lift button again to continue playing the record.
8. To skip to the next or previous track, press the Forward Skip or Backward Skip button correspondingly.
9. After playing is finished, lock the Hold Down Clip to secure the tonearm.
Caution: When the tone arm reaches the end of the record, it will lift and return to the tone arm rest automatically. When this happens, do not interfere with the tone arm's motion, or damage to the mechanism may occur.

Bluetooth Output Operation

This turntable features Bluetooth output which is a device that transmits audio from this turntable to another Bluetooth device such as wireless Bluetooth headphones, Bluetooth speakers, or other Bluetooth receiving devices.

1. Place the audio device that supports Bluetooth technology as close to your turntable as possible.
2. Set the Size Selector and the Power/Speed Selector to the appropriate record size.
3. Set Phono/Line switch to LINE position.
4. Press the Bluetooth button to enter Bluetooth mode.
Note: The function indicator will slowly flash blue.
5. Set the device that you would like to connect to pairing mode.
6. Your turntable will connect automatically to your audio device once they are both in pairing mode.
7. When the pairing is complete, the function indicator will be solid blue.
8. Long press the Bluetooth button to disconnect the Bluetooth connection.

Note: If pairing is unsuccessful, make sure your audio device is not paired/connected to another Bluetooth device.

Needle Replacement

Removing Needle

1. Gently pull down the front edge of the needle.
2. Pull needle forward.
3. Pull out and remove.

Installing Needle

1. Position the needle with its tip facing down.
2. Line up the back of the needle with the cartridge.
3. Insert the needle with its front end at a downward angle and gently lift the front of the needle upward until it snaps into place.

Turntable Maintenance

1. Do not touch the stylus tip with your fingers. Avoid bumping the stylus on the turntable mat or a record's edge.
2. Clean the stylus frequently with a soft brush with a back-to-front motion only.
3. Clean the records to get rid of dust or grease with a record cleaning brush and record cleaning solution.
4. Clean the turntable lid and turntable cabinet with a slightly damped microfiber cloth.

Note: Do not use cleanser that contains alcohol, benzene, or any other harsh chemicals which might damage the paint and finish of the turntable.

**** Crosley offers a product line of different cleaning accessories. Please ask your retailer or check out our website www.crosleyradio.com for more cleaning product information.**

Troubleshooting

There is no power

- Power adaptor is not connected correctly.
- No power at the power outlet.
- To help save power consumption, some models will comply with ERP energy saving standard. When there is no audio input for 20 minutes, their powers will automatically cut-off. To turn power back on and resume playing, turn off the power and turn it on again.

Power is on, but the platter does not turn

- Turntable mode is not selected.
- Turntable's drive belt has slipped off.

Turntable is spinning, but there is no sound, or sound not loud enough

- Stylus protector is still on.

FCC Statements

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement.

To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).

SIMPLIFIED EU DECLARATION OF CONFORMITY

Hereby, Modern Marketing Concepts Inc. dba Crosley Brands, declares that the radio equipment type is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:
