Step 8. Attach doors (parts F & G) by placing bottom pin hinge (pre-installed in door) in the pre-drilled hole of bottom panel (part D). Then depress the top spring-loaded pin hinge so it can be placed in the pre-drilled hole of top panel (part A).

Note: Be sure top and bottom pin hinges are fully extended to secure doors in place.

Note: It is important to adjust levelers once fully assembled and upright. Extend adjustable leveler until it's firmly in contact with the floor. If relocating, adjust leveler as needed until it's firmly in contact with the floor in new location.

Important: Safety strap kit (part #10) must be installed to prevent tipping, damage and/or injury.
