## WELCOME TO NAPLES

Monday, 20 August 2018

*The Italian proverb says "See Naples and die" but I say, see Naples and live; for there seems a great deal worth living for.*

Arthur John Strutt

### Nautical information

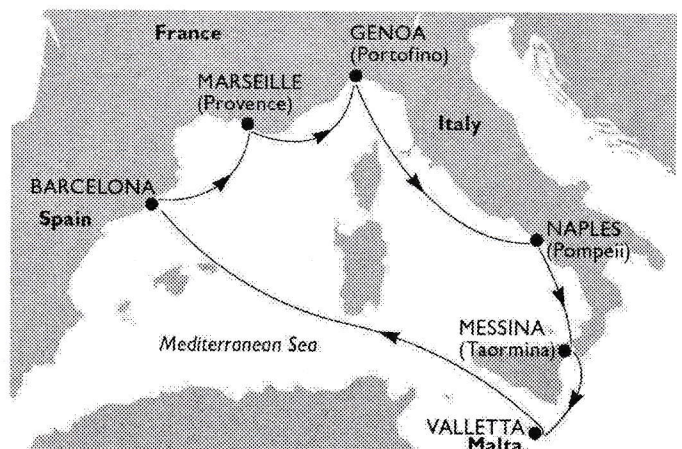

At approximately 00:45 on the port side(left) and at a distance of 6 miles Giglio island (l'Isola Del Giglio) will be visible, around the 1:15 always on the port side and at a distance of 8 miles will be visible the island of Giannutri. We will keep sailing toward Naples, about 7:00 we will sail through the archipelago of pontine islands, the island of Ponza which is the biggest (7.5 Km<sup>2</sup>) is the first one to be visible on starboard side. About 9:30 on the left side, we will see the island of Procida and the Neapolitan shore Nisida toward the Castel of the Ovo passing from Posillipo, Marechiaro, Mergellina and the long shore of Caracciolo. In entering the port of Naples it will be visible, on the hilly zone of the Vomero, the Castel Sant' Elmo, that

dominates the Chartreuse of St. Martin, and down, behind the port, the great castle of the "Maschio Angioino" (new Castel), at the starboard side will be visible the Volcano "Vesuvius". At about 19:45 the moorings will be released and once we are out of the port the lights of the whole Gulf of Naples will be visible. Around 21:00 on the port side it will be visible the Famous island of Capri. Once we move away from the island of Capri we will assume a South-Easterly route towards Messina.

### Getting off the ship

Please remember to show your Cruise Card at the gangway exit. If you have booked an excursion, be on time at your meeting point for a smooth disembarkation.

Distance from Naples to Messina: 170 nautical miles.

# DISCOVER NAPLES!

The Bustling City of Naples

History, culture, art, cuisine: Naples is one of the most important Italian cities overlooking the Mediterranean Sea. No trip to Naples is complete without a visit to the historical center, the most lively and intriguing part, which consists of two main streets - Via dei Tribunali and Via San Biagio dei Librai - which follow the path of the ancient Roman roads.

- Visit Naples Cathedral, a Gothic building built in the early 13th century, named after the city's patron saint, San Gennaro.
- Pompeii is a must-see: unique in the world, the city was covered by the eruption of Mt. Vesuvius in AD 79 and has "frozen" the way of life of the city at that time.
- Discover beautiful Capri, home of the mythological sirens, with its crystal-clear sea and famous square, along with half of Hollywood's stars, writers and personalities from around the world.

## Interesting fact about Naples

Pizza was created in Naples in honour of Queen Margherita of Savoy. The white, red and green of its tomato sauce, mozzarella cheese and basil leaves evoking the Italian flag. Do you want to experience the chance to make it on your own? Find out more details at our Excursion desks on deck 6 and 8.
