Indian Public School provides a safe, affirmative and compassionate school experience so that all students feel valued and confident to achieve their own best and hence has been consistently ranked among the top performing CBSE Affiliated schools. We continue to support a wide array of exemplary academic, athletic, social opening for all students and remain dedicated for our school wide loyalty that the multiparty instructional strategy in our educational trust has been marking an accolade to our school members and ever perfect path to enrich pace setting achievements to maximize our students' success.

The state-of-the-art school is backed by dedicated and experienced staff members and a highly committed and experienced management team–making it the ideal place for an educational experience par excellence.

The school endeavors to equip its students to excel in academics, and to be savvy in the use of technology. But equally, knowledge is to become a liberating experience as the child is encouraged to discover his interests, his talents and aptitudes, and learn to form his opinions and role in society.

I take this opportunity to congratulate the Principal, Staff, Students; every effort of the team is highly appreciated who has contributed towards making learning so meaningful and I am also pleased about our Parents who are ever supportive in our endeavours to develop this institution into a centre of knowledge.

Mrs. Suman Dalmia

Indian Public School

FROM THE DESK OF DIRECTOR

The state-of-the-art school is backed by dedicated and experienced staff members and a highly committed and experienced management team–making it the ideal place for an educational experience par excellence. Our students work independently as well as cooperatively, learning to respect the needs of others as well as their own. A love of nature and a deep sense of responsibility for others and their environment are fostered. Also, the child should have fun and develop new friendships. Most importantly self - esteem is nurtured so that each child is proud of their ability and is confident in what they can achieve.

A child's school should be an extension of their family, providing a safe environment in which they can explore ideas and feelings. Parents who enroll their children at IPS are required to attend and participate in all information meetings arranged by the school to foster open communication channels for the benefit of the children. It is our aim to direct each child to achieve their personal best by allowing them to develop at their own pace. It offers a wide variety of challenging, enjoyable and successful curricular opportunities, athletic programmes, performing arts and musical programmes with various clubs and activities.

It is our belief that school should be the experience of a life time. Our school experience sets the stage for success later in life and provides a lifetime of positive memories for our students.

Mr. Keshab Kumar Dalmia

Indian Public School

FROM THE DESK OF PRINCIPAL

"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations."

We at Indian Public School work continuously on building a culture conducive for the learning environment of students. A culture which has a place for every factor. I strongly believe "One can be a winner without a medal and a loser with a medal, if winning is not kept in perspective. I urge our parents to love your kids, but not at the cost of moral values or with undue support with what may not be desirable at the age group in which your kids are.

In our school, we try to build an atmosphere of camaraderie amongst all the students by focussing on values like sharing, caring and above all empathising with others.

You deserve a genuine appreciation for the recognition and support of the job we are trying to do in continuing to educate, support and care for your children, our students!

I would like to end this note with an enormous Thank you!!!'

Have a great school year!!!
