I. Introduction

This dataset provides an empirical understanding of the changes in the mandates of UN Peace Missions between January 1, 1991 to December 31, 2020 (i.e., the period marking the end of the Cold War, to present day). The term "UN Peace Missions" entails UN Peacekeeping Operations (PKO), Special Political Missions (SPM), as well as Special Envoy/Adviser (SE/SA) appointments.

The dataset codes the provisions in UN peace mission mandates according to the classification of *minimalist*, *moderate*, and *maximalist*. Mandate provisions or tasks within the *minimalist* approach content themselves with the absence of renewed armed conflict and focus on containing the violence, thus aiming at bringing about negative peace. Mandate tasks within the *maximalist* approach see peacebuilding as addressing root causes and transforming conflicts, thus aiming at positive (and often a liberal) peace. Lastly, *moderate* mandate tasks aim at no renewed armed conflict and decent governance without specifying the precise governance model.

The peace missions in this dataset have also been assigned an overall mission classification and score that follows this same logic. Missions can be classified as *Minimalist*, *Maximalist*, or *Moderate*. To derive this overall classification, we rely on a formula detailed in Section IV below. For the sake of distinction, we use *minimalist*, *moderate*, and *maximalist* beginning in lower case when speaking of mandate tasks, and *Minimalist*, *Moderate*, and *Maximalist* beginning in upper case when referring to overall mission classifications.

II. Codebook

Variable Name	Description	
mission_id	Unique ID number for each mission.	
mission_abbrev	Official abbreviated name for each mission, as given in the UN	
	documentation.	
mission_fullname	Full name given to mission (in English).	
mission_type	PKO = Peacekeeping Operation	
	SPM = Special Political Mission	
	SE/SA = Special Envoy or Special Adviser appointments	
mission_location	The name(s) of the country or region where the mission takes	
	place.	
gw_country	This field lists up to 5 countries with which the mission is	
	concerned in alphabetical order by their Gleditsch/Ward (GW)	
	ID as listed at: http://ksgleditsch.com/data/iisystem.dat . This	
	field is limited to reflecting entities that are recognised as	
	countries by the GW list.	
gwno_1	This cell codes the first country by its GW number.	

¹ This categorisation is based on Call, C. T. and E. M. Cousens (2007). *Ending Wars and Building Peace*. Coping with Crisis - Working Paper Series. New York: International Peace Academy.

gwno_2	Where applicable, this cell codes the second country by its GW	
gwno_2	number.	
gwno_3	Where applicable, this cell codes the third country by its GW	
S****IO_D	number.	
gwno_4	Where applicable, this cell codes the fourth country by its GW

gwno_5	Where applicable, this cell codes the fifth country by its GW	
8	number.	
ucdp_link	This field indicates if the mission has been linked to a conflict	
-	or conflicts in the UCDP/PRIO Armed Conflict Dataset	
	(Version 20.1).	
	1 = Yes	
	0 = No	
ucdpconflict_id1	The ID numbers are listed in ascending order. This field codes

	mission is concerned with addressing.	
ucdpconflict_id4	Where applicable, this field codes the fourth conflict the	
	mission is concerned with addressing.	
mission_regionclass	UN regional geographic classification of the mission. This field	
	has been recoded from the UNPMM-UI data accordingly:	
	1 = Europe (GW No.: 200-399)	
	2 = Middle East (GW No.: 630-699)	
	3 = Asia (GW No.: 700-999)	
	4= Africa (GW No.: 400-626)	
	5 = Americas (GW No.: 2-199)	
mission_yearest	The year the mission was established.	
mission_yearend	The year the mission was closed or terminated its mandate.	
	If the mission was still active as of December 31, 2020, this	
	field is indicated as ACTIVE.	
mission_orgs	International or regional organisations involved in the mission.

	establishment of <i>minimalist</i> , <i>moderate</i> , or <i>maximalist</i> tasks.	
	1991 refers to the period January 1 to December 31, 1991; while	
	2020 refers to the period January 1 to December 31, 2020.	
Minimalist Tasks	Sub-category, not a variable: tasks in this minimalist sub-	
	category reflect an approach that contents itself with absence of	
	armed conflict and focuses on bringing about the conditions for	
	negative peace.	
min01: co-ordination of	Co-ordinating the efforts of international, national, local, or	
donors, partners, and	regional partners, funds, organisations etc., or co-ordinating the	
UN agencies	activities of UN agencies on the ground. This task includes the	
	mobilisation of resources for the mission. It also includes	
	facilitating information-sharing for the delivery of aid.	
	1 = Yes	
	0 = No	
min02: demilitarization	This task includes the monitoring of troop withdrawal and the	
mmo2. demintal ization	flow of arms, ensuring that specific zones are free from military	
	persons, equipment, or activities, or the disarming of armed	
	groups or the civilian population.	
	1 = Yes	
	0 = No	
min03: demining	Leading mine action, which can include implementing	
	demining programmes and running mine awareness workshops.	
	1 = Yes

² Good offices and mediation often go beyond attempts to stop conflict violence by assisting the parties to find a mutual acceptable agreement on other issues, including a political transition, reconstruction, and ways of dealing with the past. Yet, we log it as a minimalist task because the overarching objective and most pressing issue remains to stop the violence.

min07: OMR military	Observing, monitoring, or reporting on ceasefire arrangements,
mmo. Owik mintary	
	withdrawals, or demilitarisation. This category includes
	supporting verification arrangements, border control, the
	investigation of ceasefire violations, the containment of armed
	violence, and liaison efforts between all sides of the conflict.
	1 = Yes
	0 = No
min08: OMR police	Observing, monitoring, or reporting on the activities of the local

IV. Mission classification formula

A formula is used to determine the classification of a mission as *Minimalist*, *Moderate*, or *Maximalist*. Each *minimalist*, *moderate*, and *maximalist* task is assigned a weight of 1, 2, and 3 respectively. The weighted sum total is then divided by the total number of tasks assigned for the mission, resulting in a score between 1.0 and 3.0.

 $Overall\ Mission\ Classification\ Score = \\ (No.\ of\ minimalist\ tasks\ *\ 1) + (No.\ of\ moderate\ tasks\ *\ 2) + (No.\ of\ maximalist\ tasks\ *\ 3)$

Total no. of mission tasks

The classification criteria is as follows:

Score	Overall Classification	Mission
$0 > \text{score} \le 1.0$	Minimalist	
$1.0 > \text{score} \le 2.0$	Moderate	
$2.0 < \text{score} \le 3.0$	Maximalist
