BICYCLE RACK INSTALLATION ORDER FORM

Residents are invited to install a bicycle rack on the wall in front of their parking space or the ceiling above their car parking space. Bicycle racks can only be installed on concrete walls or on the perforated metal walls if there is a steel vertical support post central to your parking space.

Outlined below are the specifications for approved rack systems together with the cost of purchasing and installation by an approved contractor. As the walls and ceiling comprise Owners Corporation Common Property, installation must be performed in a safe and workmanlike manner by the approved contractor.

Ceiling Mount

Suitable for residents with parking spaces that do not have an adjoining wall.

One or two racks can be mounted over the front of the parking space.

Each ceiling mount provided with an eye bolt to allow bike to be chained whilst hanging.

Wall Mount

Suitable for residents with parking spaces with an adjoining wall.

One rack per space.

Eye Bolt

Allows bikes to be chained.

Please arrange for the following bicycle racks to be installed in my parking space:
