1. Stallion and mare

With this contract buyer commits to buy, and seller commits to provide, chilled / frozen sperm (delete the choice that you are not interested) of stallion

BOTERO, Sella Italiano, microchip: 977121001626717

for fertilization of the mare:

name
race
date of birth
father
mother
father of mother
father of maternal grandmother
mantle
serial number
during the breeding season

2. Price and Payment

The price of semen is 800 €: 400€ (+vat 10%) at booking, with bank transfert; 400 € (+vat 10%) when the mare is pregnant, the 31 september 2023.

The buyer can request sperm until the mare is not pregnant. For every mare is required a swab test with certification.

The price does not include transport costs and veterinary certification, that for each shipment are (transport) (veterinary certification), to pay with bank transfert before shipment.

The buyer has to return shipping containers at a collection point that will communicate.

3. Insemination

The insemination center/ the veterinary responsible for the fertilization is:

surname, name, business name
address (street, house number)
City
Vat number, tax code
Registration number
Phone number
Cel number
E-mail

The seller is never responsible of the successful of fertilizations.

The buyer has to send to seller copy of document of fertilization intervention, released by veterinary.

4. Shipment

The shipment request has to arrive within 09:30 A.M, from Monday to Friday, excluding holiday days (this only for chilled sperm). Sperm will be send only after payment confirmation. On customer request the seller will organize shipment by express courier, but costs and risks are only of buyer, because seller cannot guarantee the outcome of shipment.

The delivery address is:

surname, Name, business name

address (street, house number).....

City

Vat number, tax code

Breeding code

Phone number

Cell number

E-mail

5. Pregnancy

If after the first time the mare is not pregnant, you can repeat the insemination until she is pregnant, in the season indicated.

If the mare is not pregnant for the breeding season, the deposit is valid for the following breeding season.

7. For frozen sperm, sold at an insemination dose, the payment is anticipated. If the mare is not pregnant, the owner cannot request other dose, unless he decides to buy mount (the mount for the current season gives right to 3 frozen insemination doses of 3 straws for dose. The straws that will not be used will return to stallion owner.)

8. If the buyer buys the frozen mount and the mare will be not pregnant the 1° October 2023, he will have the mount half price for the next breeding season, or the replacement with another our stallion of equal value, or another stallion of different value making the difference.

9. In the event that the mare will miscarry the payment will be valid for the next breeding season.

10. Guarantee Foal born alive.
