CAMPER / MARINE

INDUCTION / DIESEL

3,8 kW DUAL POWER COOKTOP

INDUCTION

Power	1800 W
Voltage	230 V / 110 V

DIESEL

Power	2000 W
Voltage	12 V

INDUCTION SPEED — DIESEL FREEDOM

WHAT MAKES IT DIFFERENT

FAST

Fast induction cooking with battery or shore power.

FREEDOM

Use Diesel and keep cooking when electrical power is limited.

Built-in high altitude switch.

GAS-FREE

One clean ceramic surface.
No LPG bottles
No open flame in the living space.

wallas®

CAMPER / MARINE

INDUCTION / DIESEL

TWO ENERGY SOURCES — ONE CERAMIC SURFACE

INDUCTION

230 V And 110 V

Quick heat and easy adjustment.

- **FAST RESPONSE**
  Quick heat and easy adjustment.
- **BATTERY OR SHORE POWER**
  Fast induction cooking whenever sufficient power is available.
- **INVERTER FRIENDLY**
  Continuous low-power output and adjustable power limitation.

DIESEL

Reliable cooking off-grid.

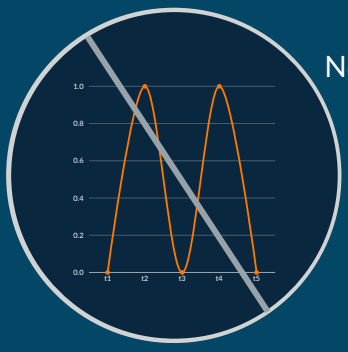

- **12 V OPERATION**
  0,37- 055 A power consumption
- **1000 TO 2000 W**
  Steady heat for everyday cooking.
- **LOW FUEL USE**
  Only 0,2 litres diesel per hour.

Made for moving kitchens

- **CONTINUOUS LOW POWER**

  Save your inverter!

  Stable low-power output without slow on-off cycling at lower settings.

No on-offing

- **POWER LIMITATION**

  Do not burn your fuses!

  Adjust the induction maximum input for smaller shore-power fuses and inverters.

- **COMPACT BY DESIGN**

  A shallow installation for space-conscious boats and campers.
