

ELGEF Plus Y-Tapping Saddle

# Shaping the future

Quick installation and  
optimized flow for your  
water and gas applications

# Introducing the new generation of hot tapping

Working with data from field tests and thanks to advanced engineering, we've reimagined and re-designed our ELGEF Plus tapping saddle. A new lever and belt design to assemble the saddle on the pipe bring ease of handling to a new level. Ready for the requirements of your toughest installation jobs.

## Pioneering design

The ELGEF Plus Y-tapping saddle is leading the pipe and fitting industry with a new patented design. Re-shaped to reduce pressure loss by up to 30%\*, it allows hot tapping without interrupting operations.

**1 Reduce risk during excavation**  
With the patented Y-design, the outlet is positioned below the pipe apex.

**2 Optimized flow**  
The new Y-design reduces pressure loss by up to 30%.\*

**3 Leak-free tapping**  
The multi-component gasket ensures leak-free tapping.

**4 Perfectly fused for extended lifetime**  
Eliminate peel-off effect with patented fusion design.

**5 Tool-free assembly**  
Fast and easy assembly on the pipe thanks to the new lever and belt, ready for welding in a few seconds.

**6 Expandable belt**  
The saddle can be clamped with the adaptable belt on expanded pipe up to 3%.

**7 Pressure testing**  
Ease your pressure testing with the accessory pressure test cap 799.199.290.

**8 Access safety**  
Tapping dome compatible to be fused with ELGEF Plus cap for additional access safety.
