

Installation instructions for Merika® build-up ring

Merika no. 414

- Size: 150 × 100
- Weight/kg: 0,272
- HVAC no: 3318155
- For vinyl floor and tile installation
- For wooden and concrete floors
- The delivery includes 3 screws

- Note! The build-up ring must be cut straight.
- The build-up ring is lubricated with a lubricant and pressed to its place.
- Note in the installation that the screws of the build-up ring (3 pcs) are screwed to their places but **not tightened**. The screws do not need to be tightened as the sealing is in the over sheath of the build-up ring/floor drain. Tightening the screws will deform the floor drain/build-up ring.

Spare parts:

M-202_03 Lip seal for a floor drain, new 160

Practical screw fastening
to a floor drain
