

# Disc Valves

Disc- and block valves

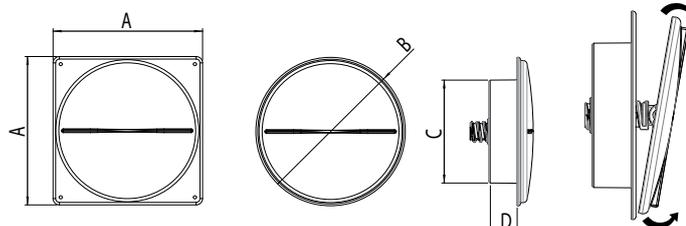

## Features & Benefits

- Extensive range
- Easy installation
- Tilting cover for air flow direction and screw setting for adjustable air flow\*

## Disc valves

We have an extensive range of disc and block valves to suit most areas.

## Specification

Product	Description	Dimension A mm	Dimension B mm	Dimension C mm	Dimension D mm	Art. no.
Disc valve Ø80 mm, round frame*	White, plastic		117	81.5	23	459026
Disc valve Ø100 mm, round frame*	White, plastic		134	98	23	459028
Disc valve Ø125 mm, round frame*	White, plastic		154	118	26	459030
Disc valve Ø150 mm, round frame*	White, plastic		186	150	30	459032
Disc valve Ø160 mm, round frame*	White, plastic		186	159	30	459042
Disc valve Ø80 mm, square frame*	White, plastic, round adapter	117		81.5	23	459034
Disc valve Ø100 mm, square frame*	White, plastic, round adapter	134		98	23	459036
Disc valve Ø125 mm, square frame*	White, plastic, round adapter	154		118	26	459038
Disc valve Ø160 mm, square frame*	White, plastic, round adapter	201		159	30	459044
Fresh 150 disc valve, square frame	White, ABS plastic	150				249855
Fresh 180 disc valve, square frame	Designed for old fittings, white, ABS plastic	180				249860
Disc valve Ø80 mm, round	White-lacquered metal		120	74	18	459016*
Disc valve Ø100 mm, round	White-lacquered metal		120	93	20	459018
Disc valve Ø125 mm, round	White-lacquered metal		150	119	20	459020
Disc valve Ø160 mm, round	White-lacquered metal		190	154	23	459022
Fresh 70 block valve, square frame	Complete valve Ø86 wall max. 155 mm wide	150		85		628020
Block valve Ø85, round frame	Complete valve Ø85 wall max. 315 mm wide		117	81.5	23	484017
Extraction FTL 100, round frame	Wood for saunas		123	93	20	459010
Extraction FTL 125, round frame	Wood for saunas		154	118	23	459012
Extraction FTL 160, round frame	Wood for saunas		194	154	23	459014*

\* These are the only products which have a tilting cover and screw setting function

## Disc valve, white, plastic

Disc valve made from white plastic with screw fixing. Available with circular connection, as well as with both round and square frame. Suitable for use in storerooms, warehouses, etc.

## Fresh 150 disc valve

Square disc valve with frame #150. Suitable for use in storerooms, warehouses, etc.

## Fresh 180 disc valve

Square disc valve with frame #180. Excellent for use on old fittings, etc.

## Fresh 70 block valve Ø85

Complete block valve with Ø85 mm inlet pipe which in its standard version can accommodate wall thicknesses up to 160 mm. Suitable for use in storerooms, warehouses, etc.

## Block valve Ø85

Complete block valve Ø85 mm which can accommodate wall thicknesses up to 160 mm. Suitable for use in storerooms, warehouses, etc.

## Disc valve, white, plastic

Round disc valve for round duct made from white-lacquered metal with screw fixing. Suitable for use in storerooms, warehouses, etc.

## Extraction FTL

Round disc valve for round duct made from white-lacquered metal with screw fixing. The disc is finished in wood. Suitable for use in saunas, for instance.
