

Style 001RT coupling

Installation instruction

**A new quick connection coupling,
Part of the QUIKCOUP family of products**

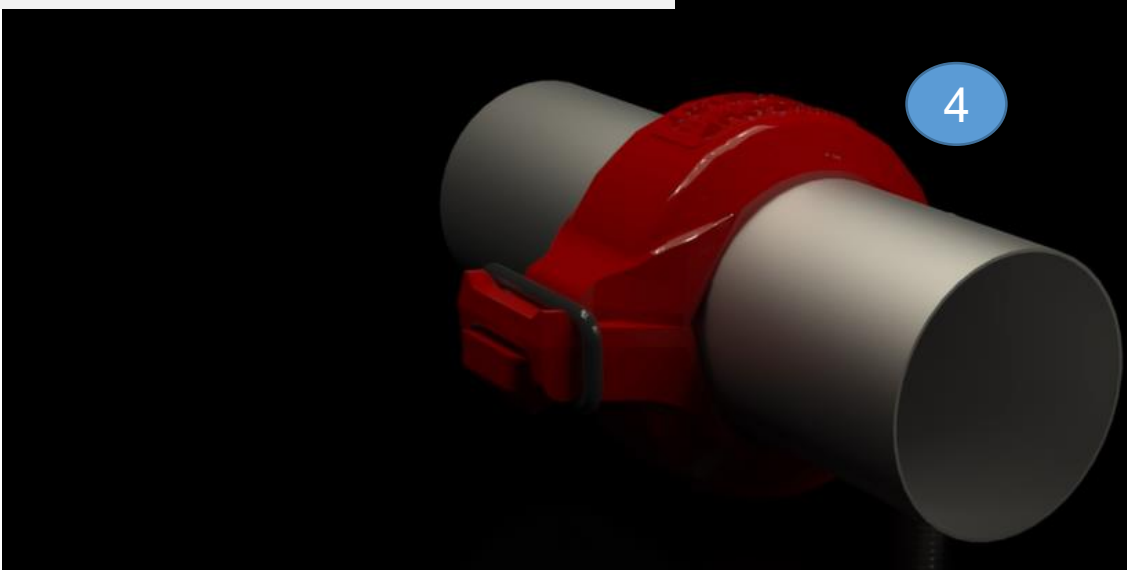

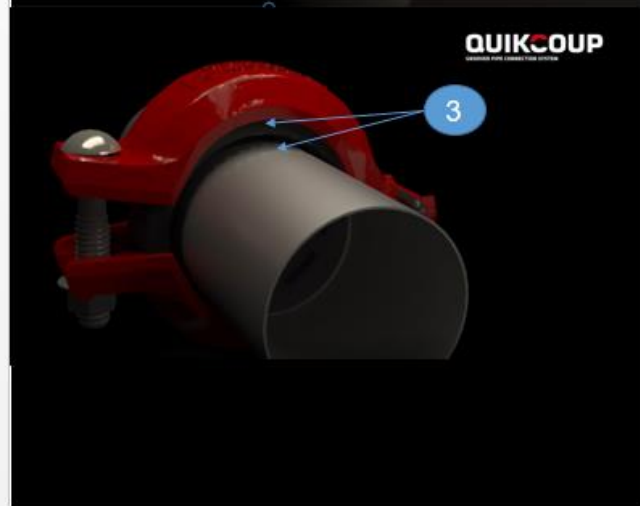

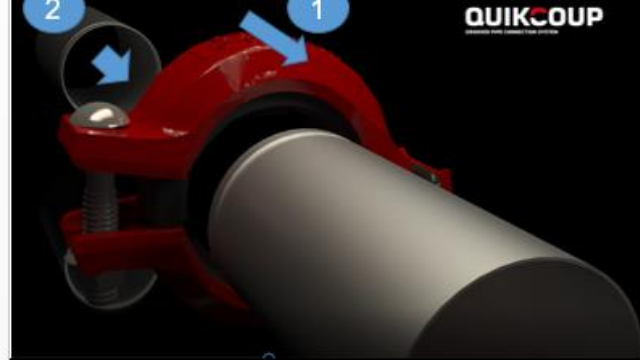

QUIKCOUP

GROOVED PIPES CONNECTION SYSTEM

Assembly instructions :

1. Slip the coupling on the first pipe end until gasket internal wall meets the pipe face and stops the initial installation movement.
2. Slip the second pipe into the opposite side of the coupling, until the secondary installation movement it stopped by the gasket internal wall.
3. Inspect that the coupling's external grooved channels are engaged into the pipe's grooved channels on both sides of the coupling installation.

QUIKCOUP

GROOVED PIPES CONNECTION SYSTEM

Assembly instructions :

4. Torque the bolt while watching the external grooved channels are completely aligned into the pipe's grooved channels, until achieving the required torque [*]

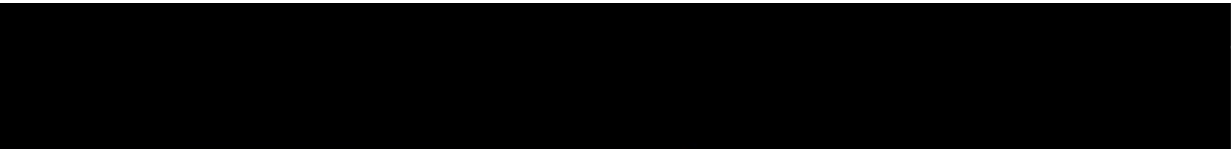

<< Assembly completed >>

Remark- After torqueing, make sure that the coupling meets visual inspection, by ensuring the coupling is pad to pad /metal to metal

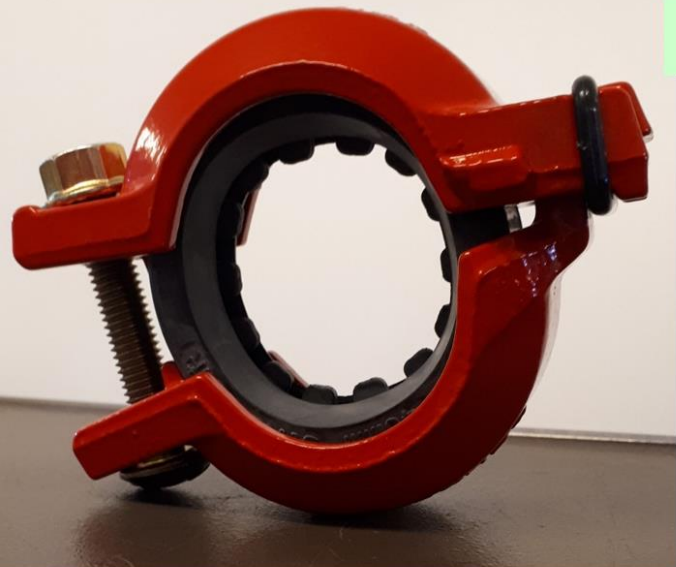

[*]-See Style 001RT torque table last page

Bolts Torqueing Table

Product style	Product size [mm / Inch]	Bolt size [mm\inch]	Bolts Torque	
			Nm [Min. – Max]	Lb-In [Min. – Max]
001RT	33.7 / 1"	M10\3/8	100-110	885-974
001RT	42.4 / 1-1/4"	M10\3/8	100-110	885-974
001RT	48.3 / 1- ½"	M10\3/8	100-110	885-974
001RT	60.3 / 2"	M10\3/8	100-110	885-974
001RT	73.1 / 2-1/2"	M10\3/8	100-110	885-974
001RT	76.1	M10\3/8	100-110	885-974
001RT	88.9 / 3"	M10\3/8	100-110	885-974
001RT	114.3 / 4"	M10\3/8	100-110	885-974
