EXPERIENCE

Digital Cuisine   10/2020 - 12/2023
Frontend Developer / Fullstack Developer   Jerez de la Frontera, Spain (Remote)

- Proposed and implemented testing strategy for multiple projects reducing issues and improving developers productivity
- Collaborated closely with design teams to transform Figma, Zeplin, and Adobe XD designs into pixel-perfect, responsive web applications. Collaborating as well with backend teams to design and implement efficient APIs.
- Led Progressive Web Application (PWA) development for a metallurgical company, improving workflow and operational speed
- Improved website speed, usability, and Search Engine Optimization (SEO) through performance optimizations, achieving perfect scores (100/100) in audit tools like Lighthouse.
- Successfully delivered projects for high-profile clients including the German Government, Vimcar, Bahlsen, iF Design, FriEnt, etc.
- Mentored new employees, facilitated team collaboration, and managed PR reviews in daily operations.
- Worked with agile methodologies (Scrum/Kanban), applying SOLID principles to ensure clean, modular, and scalable code
- Collaborated in the open-source Corona Warn App project for the German Government
- Stack: React, Typescript, Javascript, Tailwind, Sass, Cypress, Firebase, Git, Next.js, GraphQL, CI/CD, TanStack Query, Node.js, Express, React Native, ESLint, Contentful, GSAP, Gatsby, Gulp, Handlebars, jQuery

Lawyou   06/2019 - 06/2020
Frontend Developer   Donostia - San Sebastián, Spain

- Proposed and led the development of a Next.js-Firebase app, automating lawyer case assignments and improving efficiency by 100%
- Assisted in enhancing and implementing features for a React-based web application
- Managed CRM and ERP systems (HubSpot, Openbravo) to optimize business operations.
- Conducted web analytics with Google Analytics and Funnelytics to optimize user experience and guide data-driven decisions
- Stack: React, Javascript, Next.js, Firebase, Git, CSS, HTML, Bootstrap, jQuery

EDUCATION

Instituto Plaiaundi   09/2018 - 05/2020
Advanced Technical Diploma in Web Application   Irún, Spain
Development

UPV / EHU | Universidad Modelo de Mérida   09/2011 - 05/2015
Degree in Business Administration and Management   Donostia - San Sebastián, Spain | Mérida, México

SUMMARY

Web development enthusiast with great goals and objectives, and the same motivation and discipline to carry them out. Constant learning and improvement driven by great curiosity.

In my free time I love stargazing, walking with my dog in nature, travel with my van and read/listen podcast about ancient history

LANGUAGES

Spanish: Native

English: Advanced

Basque: Native

EXPERIENCE

Front-end / Full-stack Developer

Digital Cuisine | October 2020 - December 2023

- Proposed and implemented testing strategy for multiple projects reducing issues and improving developers productivity
- Transformed designs from Figma, Zeplin, Adobe XD, etc. into pixel-perfect, responsive web applications, collaborating closely with design teams
- Collaborated closely with the backend team to design and implement efficient APIs
- Led Progressive Web Application (PWA) development for a metallurgical company, improving workflow and operational speed
- Implemented Search Engine Optimization (SEO) and performance optimizations, improving websites speed and usability scores
- Successfully delivered projects for high-profile clients including the German Government (Corona Warn App), Vimcar, Bahlsen, iF Design, FriEnt, TeleData, etc.
- Primarily worked with React/Jamstack, but also contributed as a full-stack developer on projects using Node.js/Express. Additionally, I gained experience maitaining React Native apps and building Webflow sites
- Mentored new employees, facilitated team collaboration, and managed PR reviews in daily operations.
- Worked with agile methodologies (Scrum/Kanban), applying SOLID principles to ensure clean, modular, and scalable code
