

Insurtech startup: internship – financial reports

Work start: as soon as possible, 40 - 60%

About the company

TONI is an insurtech startup, that offers a fully digital insurance offering as a white-label solution. Our slogan “Make insurance simple” underlines our approach to focus on today’s customer requirements by offering a fully digitized and automated insurance solution. Our white-label approach allows us to leverage the brand of large established institutions and to quickly gain access to a large amount of private clients as well as to be able to offer insurance solutions inside unique eco-systems. TONI is based at Bellevue in Zurich.

About the role

We are looking for an intern that can help us out with certain tasks related to financial reporting, which is mainly based on Excel. Your tasks involves checks on data consistency in reports, and doing a lot of number crunching.

You will be working directly in our finance department and you will gain valuable understanding of how financial processes work in an innovative insurance start-up.

The role will allow you to make active suggestions to how we can optimise certain processes. Your work is essential for the success of our company and you hence have a direct impact on helping TONI on our mission to redefine the Swiss insurance market.

The following experience is valued:

- Are excited to work in a leading Swiss insurtech and want to have a real impact in changing the way the insurance market works
- Have an analytic mindset
- Feel comfortable working with Excel
- You have high attention to detail and won’t compromise on precision
- Comfortable in a fast moving, fluid environment
- Ability to work within tight deadlines and under high pressure, adjust to changes in priorities
- Lanugage: German / English
