

Mohamed Ashraf

Frontend Developer

📍 Cairo, Egypt 📞 +201064136500 ✉️ [Gmail](#) [LinkedIn](#) [Portfolio](#)

Summary

Frontend developer with expertise in crafting responsive and user-centric websites. Possesses strong proficiency in HTML, CSS, JavaScript, and React.js, along with a passion for leveraging modern libraries and frameworks to build innovative web experiences. Eager to contribute to a challenging and collaborative environment where I can continuously learn and excel

Experience

Aqwas Jul 2023 – Present
Frontend Developer – Full-time Riyadh, KSA

- Collaborated with designers to translate designs and user stories into functional and responsive web pages for **Absher**, a prominent government platform.
- Ensured cross-browser compatibility and responsiveness across various devices for an optimal user experience.
- Utilized Storybook to showcase component variations, interactions, and usage examples, facilitating collaboration and maintainability.

MotorsCity Jun 2022 – Jul 2023
Frontend Developer – Freelance Dammam, KSA

- Built a responsive and pixel-perfect multilingual website for **MotorsCity**, ensuring flawless visuals and seamless user experience across languages and devices.
- Collaborated using Figma to contribute to the design of various website pages, potentially including layouts, elements, and overall user interface.
- Optimized the website for cross-browser compatibility and responsiveness, ensuring users have a smooth and consistent experience regardless of their device or browser.

YourMedia Inc. Mar 2020 – Jul 2023
Frontend Developer – Freelance Toronto, Canada

- Transformed a new design into functional, visually engaging web pages for **StickerYou**.
- Refactored and improved the quality of legacy code, ensuring maintainability and performance.
- Delivered a fully responsive website that adapts seamlessly across various devices

Projects

Focal | *Next.js, Strapi, Stripe, Tailwind CSS, Shadcn UI, TypeScript, Zustand, SWR, Clerk*
Full-Stack eCommerce Platform

- Feature-rich store with product search, filtering, and category browsing
