

FINISH LINE BOATS

MULTI-USE SPORTS RANGE — 7.25M PORTFOLIO SPECIFICATION

Welcome to the Finish Line Boats 7.25m Multi-Use Sports Range—engineered perfectly as an expansive, high-performance platform balancing intense coastal angling expeditions with luxurious day-cruising leisure. Built to absolute international standards, this sleek monohull configuration fuses a high-tech marine-grade aluminum structure with next-generation digital control arrays and robust, premium amenities for an effortless, confident experience on the water.

Layout Blueprints Notice: Complete structural deck plans and layout configurations are immediately available upon request. Direct your technical inquiries to our sales group at salesglobal@finishlineboats.com.

1. PRINCIPAL DIMENSIONS & ARCHITECTURAL DESIGN

Length Overall (LOA)	7.25 Meters
Beam Overall	2.25 Meters
Draft (Light Ship)	0.9 Meters
Headroom (Main Cabin / Half Cabin Voids)	1.7 Meters
Displacement (Light Ship)	Approximately 1,950 kg
Maximum Safe Capacity	Certified for up to 6 persons
Engineering Certification	Built strictly to ISO 9000 / Small Craft Recreational International Standards
Hull Construction Architecture	Sleek Monohull profile utilizing High-Tech 5083 Marine-Grade Plate Aluminum: • Lower Running Surface: Heavy-duty 6mm plate • Upper Topsides & Structure: Lightweight rigid 5mm plate
Vessel Exterior Finishes	Premium hull coatings available in Maroon, White/Black Combo, Deep Blue, or Aqua marine. Premium 2-tone paint configurations available.

2. PROPULSION, PERFORMANCE & INFRASTRUCTURE OPTIONS

- **Standard Outboard Propulsion:** Powered by a premium high-output single Mercury 250hp outboard motor package, backed by a comprehensive 5-year manufacturer warranty.
- **High-Performance Twin Outboard Upgrade (Optional):** Optional configuration for synchronized Twin Mercury 225hp engines for serious offshore redundancy and authority.
- **Luxury Heavy-Duty Inboard Propulsion Alternative (Optional):** Available premium Volvo Inboard Option boasting 450hp Crankshaft Power (331 kW) utilizing a highly advanced 7.7-liter displacement block. Features an

electronically controlled common-rail fuel injection system, electronic flight controls, easily accessible localized maintenance points, and a stellar power-to-weight ratio.

- **Long-Range Infrastructure:** Equipped with an enormous 700L underfloor fuel capacity (strictly engineered for gasoline variants only) paired with integrated fuel management systems.
- **Freshwater Infrastructure:** 1x 150L integrated freshwater tank feeding internal utilities.
- **Performance Thresholds:** Blistering top speeds of 35–40 knots, with a highly efficient general cruise speed of 25–27 knots at half load.

3. ANGLING SPECIALIZATION & AFT DECK HARDWARE

- **Aft Deck Workspace:** Extra-large, unencumbered aft fishing arena featuring a rugged painted gunwale rub rail, gunwale anti-slip pads, and dual rapid-drain bungs.
- **Catch & Bait Management:** 1x integrated live bait well alongside an insulated in-floor cooler box explicitly optimized for cold catch preservation.
- **Rigging & Security Array:** Heavy-duty 2-inch safety rails fitted with mid-rail safety rope clips. Incorporates a custom bait cutting table and 4 angled flush-mount rod holders per side (8 total).
- **Deck Wash & Bilge Maintenance:** Integrated high-pressure deck wash pump system alongside accessible under-floor storage/drainage tanks.
- **Aft Leisure Integration:** Rail-mounted marine-grade electric BBQ station coupled with a removable food preparation table. Includes an integrated transom boarding ladder for swimming access.

4. ADVANCED NAVIGATION, HELM & CONTROL SYSTEMS

- **Simrad Glass Cockpit Central Interface:** 1x SIMRAD NSX 15" Ultrawide multi-touch screen serving as a consolidated dashboard for the Fish Finder, Chart Plotter, and high-accuracy GPS tracking. Features a fully integrated Simrad digital engine management screen showing live engine diagnostics, telemetry, and digital gauges.
- **Sonar Transducer Array:** Active Imaging™ 3-in-1 Transom Mount Transducer system for ultra-high-definition side, down, and forward-looking sonar.
- **Radar Navigation:** 1x Simrad Halo 20 premium Radar unit mounted to a dedicated hardtop radar holder.
- **Comms System:** 1x Simrad RS20 VHF marine radio alongside an independent multi-channel UHF radio.
- **Autopilot Systems:** Built-in Simrad AP44 Autopilot array linked with a customizable hydraulic tilt-steering helm station and standard-profile steering wheel. *(Autopilot software/hardware premium upgrades available).*
- **Vessel Mobile Telematics:** Advanced Simrad smart-phone control connectivity allowing owners to remotely check security nodes, ignite/extinguish onboard lighting grids, and configure systems optimized for YouTube Live stream subscriptions or automated service prompts.

5. POWER, DIGITAL SWITCHING & CONCERT SOUND AUDIO

- **Off-Grid Energy Matrix:** 2x ultra-efficient 1100-Watt roof-integrated solar panels operating through robust DC-to-DC chargers and 130x 50-Amp intelligent solar charge controllers.
- **AC Power Delivery:** Heavy-duty 3000-Watt inverter matrix leveraging world-class Victron engineering. Features 2x wireless phone charging docks integrated flawlessly into the helm dashboard trim alongside embedded beverage holders.
- **Digital Switching Node:** Total yacht power managed through an automated digital switching interface, supported by an 8-bit rocker-type control switch array and master emergency battery isolator switches.

- **Concert-Grade Sound Package:** Premium Fusion Apollo Bluetooth marine audio head unit powering 4x 6.5" high-fidelity RGB-illuminated marine speakers, 1x massive 12" subwoofer, and a dedicated 2000W Fusion amplifier.
- **Atmospheric & Task Illumination:** Continuous safety walkway lighting standard across all ranges. Features internal ambient overhead RGB color-changing light strips, 2 independent downlights focused over the helm seats, a high-intensity front bow searchlight, and rear aft deck flood lighting.
- **Underwater Accent Lighting:** Equipped standard with 2x stern-allocated blue underwater LED lights.
(Upgradeable with up to 2 additional side-mounted underwater lights per side).

6. LUXURY CABIN APPOINTMENTS & AMENITIES

- **Cabin Comforts:** Forward beam wrap-around bedding configuration with massive under-cushion hidden storage voids. Features sliding windows on both driver and passenger cabin sides, complete with integrated dual electric windshield wipers.
- **Flexible Command Seating:** Dual premium captain and co-pilot seats capable of shifting to face forward while underway, or swiveling to face aft toward the entertainment deck. Includes 2x rear fold-down guest jump seats.
- **Galley & Head Utilities:** Fully enclosed functional Marine Toilet system alongside an integrated interior sink hob and dedicated electric induction hob cooking zone.
- **Flooring & Hardware Trim:** Adorned with high-quality SeaDek options for rapid cleanup. Premium Synthetic Teak floors come standard across all external deck zones. *(Full interior deck synthetic teak flooring packages available at extra cost).*
- **Custom Stitching Package:** Bespoke modern contemporary interior upholstery highlighting the personalized name of your vessel permanently embroidered directly into the trim of every single seat.

7. COVER PACKAGES, SAFETY & INCLUDED TRAILER MATRIX

- **Weather & Sun Awning:** Hardtop-mounted standard manual rear awning/Bimini deploying on heavy-duty 50mm structural support poles for premium stability. *(Premium ultra-light space-age Carbon Fiber support pole upgrade available for \$900 USD).*
- **Storage & Mooring Covers:** Full weather protection lockers integrated under all accessible voids. Includes a tailored front waterproof storage cover built to client requirements. *(Optional custom-molded full-vessel protection cover kits available at extra cost for front seats, exterior tables, and rear cockpit zones to mitigate heavy UV exposure).*
- **Emergency Safety Package:** Complete with 1x handheld fire extinguisher and a comprehensive coastal safety package matching the boat's passenger capacity (including life jackets) to get you out safely on day one.
- **Satellite TV Architecture:** Factory-ready premium Satellite TV receiver upgrades available across all propulsion variants.
- **Premium Road Trailer (Included):** Comes standard with a heavy-duty, commercial-grade Galvanized Trailer fully engineered for immediate road registration. Includes an integrated high-capacity recovery winch system, custom boat skids, and smooth-loading protective hull rollers.
