

FINISH LINE BOATS

OFFSHORE RANGE — 7.8M ENCLOSED CABIN SPECIFICATION

Welcome to the high-performance segment of the Finish Line Boats Offshore Range. The 7.8-meter Hardtop Enclosed Cabin model delivers massive offshore capability in a more streamlined, agile footprint. Engineered with a premium 5083 plate aluminum hull, an extraordinary 1,000L long-range fuel capacity, and an advanced off-grid solar matrix, this vessel is built to ISO 9000 International Standards. It strikes the ultimate balance between a hardcore, high-tech fishing weapon and a contemporary luxury weekender.

Layout Blueprints Notice: Complete structural deck plans and layout configurations are immediately available upon request. Direct your technical inquiries to our sales group at salesglobal@finishlineboats.com.

1. PRINCIPAL DIMENSIONS & ARCHITECTURAL DESIGN

Length Overall (LOA)	7.8 Meters
Beam Overall	2.5 Meters
Draft (Light Ship)	0.8 Meters
Headroom (Main Areas / Half Cabins)	1.6 Meters
Displacement (Light Ship)	Approximately 2,250 kg
Maximum Safe Capacity	Certified for up to 8 persons
Hull Construction Architecture	Sleek Monohull utilizing High-Tech 5083 Marine-Grade Plate Aluminum: • Lower Running Surface: Heavy-duty 6mm plate • Upper Topsides & Structure: Lightweight rigid 5mm plate
Vessel Exterior Finishes	Premium semi-gloss Jotun finish. Available in Maroon, White/Black combination, Deep Blue, or Aqua. <i>*Custom 2-tone paint available upon request.</i>

2. PROPULSION, PERFORMANCE & INFRASTRUCTURE

- **Standard Outboard Propulsion:** Powered by a high-torque single Mercury 250hp outboard motor, offering exceptional efficiency and reliability backed by a 5-year warranty.
- **Multi-Engine Upgrades (Optional):** Optional upgrades to a Twin Mercury 225hp configuration or Twin Mercury 300hp outboard engines for ultimate power (available at extra cost).
- **Expedition Fuel Infrastructure:** Massive 1,000L underfloor fuel capacity (gasoline variants only), fully integrated with digital fuel management systems.
- **Freshwater Infrastructure:** 1x 140L integrated freshwater tank feeding internal utilities.

- **Performance Thresholds:** Clocking top speeds of 35 knots, with a highly efficient and stable cruise speed of 23–25 knots at half load.

3. OFFSHORE ANGLING SPECIALIZATION & DECK HARDWARE

- **Hardtop Enclosed Cabin:** Fully enclosed cabin design featuring sliding windows on both driver and passenger sides, integrated electric windshield wipers, and powder-coated roof grab rails for safe traversal on the wide gunnels.
- **Aft Fishing Deck:** Expansive rear fishing area protected by a polished gunwale rub rail and gunwale anti-slip pads. Features dual rapid hull-drain bungs and a high-pressure deck washer pump.
- **Catch & Bait Management:** 1x integrated live fish well, 1x live bait tank, and a dedicated in-floor cool box optimized for large offshore catch preservation.
- **Rigging & Security:** Heavy-duty 2-inch stainless steel rear safety rails with mid-rail safety rope clips. Incorporates a custom bait cutting table and 4 angled rod holders per side (8 total). Hardtop includes integrated rocket launchers for overhead rod storage.
- **Deck Utility:** Integrated anchor well housing a 100m anchor chain/warp setup with an electric winch, and a dedicated battery/oil shelf compartment.
- **Aft Leisure:** Port-side marine-grade electric BBQ (rail-mountable), removable food preparation table, and a heavy-duty transom boarding ladder.

4. ADVANCED NAVIGATION, HELM & CONTROL SYSTEMS

- **Simrad Glass Cockpit:** 1x SIMRAD NSX 15" Ultrawide multi-touch screen serving as a consolidated dashboard for the Fish Finder, Chart Plotter, and GPS tracking. Includes a live Simrad digital engine management screen to monitor all motor gauges simultaneously.
- **Sonar Transducer:** Active Imaging™ 3-in-1 Transom Mount Transducer system.
- **Radar & Autopilot:** 1x Simrad Halo 20 premium Radar unit (Garmin option available upon request) and a built-in Simrad AP44 Autopilot array linked with a precision hydraulic tilt-steering helm.
- **Comms System:** 1x Simrad RS20 VHF marine radio alongside an independent UHF radio.
- **Vessel Mobile Telematics:** Advanced Simrad smartphone control allowing owners to remotely toggle lighting grids, engage security features, manage YouTube Live stream subscriptions, and track automated service prompts.

5. POWER, DIGITAL SWITCHING & CONCERT SOUND AUDIO

- **Off-Grid Energy Matrix:** 2x 1100-Watt roof-integrated solar panels operating through robust DC-to-DC chargers and 130x 50-Amp intelligent solar charge controllers.
- **AC Power Delivery:** Heavy-duty 3000-Watt inverter matrix leveraging Victron engineering. Features 4x wireless phone charging stations integrated flawlessly into the cabin trim alongside 4x dedicated drink holders.
- **Digital Switching Node:** Total yacht power managed through an automated digital switching interface, supported by an 8-bit rocker-type control switch array and master main switch battery isolators.
- **Concert-Grade Sound Package:** Premium Fusion Apollo Bluetooth marine audio head unit powering 4x 6.5" high-fidelity RGB-illuminated marine speakers, 1x massive 12" subwoofer, and a dedicated 2000W Fusion amplifier.
- **Atmospheric & Task Illumination:** Continuous safety walkway lighting. Features interior overhead RGB lighting, 2 focused helm downlights, a high-intensity front bow searchlight, rear aft deck flood lighting,**

and exterior waterline LEDs. Standard with 2x stern-allocated blue underwater LED lights (side-mounted upgrades available).

6. LUXURY CABIN APPOINTMENTS & AMENITIES

- **Enclosed Comforts:** Forward beam main bedding configuration with massive under-seat hidden storage lockers. Fully enclosed Marine Toilet system.
- **Flexible Command Seating:** Dual premium captain and passenger seats capable of shifting to face forward or rearward. Includes 2x rear fold-down guest jump seats.
- **Galley Utilities:** Removable timber-finish contemporary lowering dining table on the aft deck. Cabin features an integrated sink hob and an electric cooking hob.
- **Flooring Treatments:** High-quality SeaDek composite flooring available throughout the vessel for rapid post-trip cleaning. (Full deck synthetic teak flooring upgrades available at extra cost).
- **Custom Stitching Package:** Bespoke modern contemporary interior upholstery highlighting the personalized name of your vessel permanently stitched into the trim of every single seat area.

7. SAFETY, COVERS & INCLUDED HEAVY-DUTY TRAILER

- **Awning Systems:** Fixed retractable rear awning folds away easily after use. Standard manual rear awning deploys on heavy-duty 50mm structural poles. *(Ultra-light Carbon Fiber support pole upgrade available for \$900 USD).*
- **Storage & Protection Covers:** Waterproof front covers tailored to client specifications. Optional custom removable full-cover kits available for front seats, tables, and rear zones.
- **Emergency Safety Package:** Includes 1x handheld fire extinguisher, complete coastal safety equipment, and life jackets matching the vessel's capacity to get you on the water safely.
- **Satellite TV Architecture:** Factory-ready premium Satellite TV receiver upgrades available.
- **Premium Road Trailer Package (Included Standard):** We know getting to the ramp seamlessly is just as important as the voyage itself. Every 7.8m offshore model includes a heavy-duty, commercial-grade Galvanized Road Trailer. Fully spec'd for immediate road registration, it features a heavy-duty recovery winch system, custom boat skids, and smooth-loading protective hull rollers to make launching and retrieving with your crew completely effortless.
