# Limited Editions

These radiant images reflect on one of the themes that is closest to Danielle's heart – namely, the understanding of her own inner world and the pursuit of art and beauty through dialogue. This beautiful new collection is a life-affirming tribute to her personal philosophy which is based on the importance of love, and the joy of sharing it with others.

Danielle employs an array of fascinating personal techniques and symbols which help her to forge a bond with the viewer. These are intensified by an uninhibited vigour and freedom of style, which combines with a luminous hand-finished glaze to give each piece a breathtaking impact, and they transform their setting into a haven of peace and tranquillity.
