WORK EXPERIENCE

Sterling wells.Pvt.Ltd

Full Stack Developer — May-2026 - Present

- **Developed a multi-tenant CMS platform from scratch** using Next.js with a monorepo architecture, featuring a dynamic page builder, reusable components, customizable layouts, and independent content management for multiple organizations.
- **Implemented advanced SEO features** including server-side rendering, dynamic metadata, automated sitemaps, robots.txt, and dynamic JSON-LD structured schema generation to improve search visibility and website performance.

RPA Nepal.Ltd.Pvt

Full Stack Developer — Apr 2024 - May 2026

- Developed the **Kumeji Map PWA** using React, Tailwind CSS, and Leaflet.js with interactive 3D/VR map experiences, and built a real-time chat application using Next.js, TypeScript, NestJS, and Socket.io.
- Designed and developed a **multi-tenant HRM system** using React, Next.js, NestJS, PostgreSQL, and React Query, implementing scalable backend APIs and efficient data management.
- Enhanced the **Mobile Khaata application** using Redux and Tailwind CSS, migrated React projects to Next.js for improved SEO and maintainability, and integrated REST APIs with Express.js, NestJS, and PostgreSQL.

Jobaxle.Pvt.Ltd

Full Stack Developer — Sep 2023 - Apr 2024

- Developed responsive, SEO-optimized **job portal** interfaces using Next.js, Mantine UI, and PostgreSQL.
- Implemented advanced job search, filtering, resume builder features, and secure authentication using Google/GitHub OAuth and cookie-based sessions.
- Optimized API integration and application performance using TanStack Query and caching strategies for efficient data fetching.
