A. TRUTHFUL COST OR PRICING DATA

At the conclusion of negotiations, and regardless of any prior certification, Seller must certify as to the accuracy, currency and completeness of its information in accordance with the FAR required Certificate of Current Cost or Pricing Data.

1. Indemnification

If any price (including profit or fee) negotiated in connection with the prime contract between the Government and the Buyer or any cost that is reimbursable under said contract is reduced because cost or pricing data furnished by the Seller in connection with any proposal submitted by the Buyer relating to said contract or in connection with this Purchase Order was not accurate, complete, or current, the Seller shall indemnify the Buyer in the amount of said reduction.

The phrase "cost or pricing data" as used herein shall be deemed to include any such data which related to a lower-tier prospective or actual subcontract, at any level, which was submitted by the Seller or which it procured by submission of, in connection with the aforesaid proposal or this Purchase Order in support of its cost estimate.

If any reduction in the contract price under this clause reduces the price of items for which payment was made prior to the date of the modification reflecting the price reduction, the Seller shall be liable and shall pay the Buyer at the time such overpayment is repaid:

- a. Simple interest on the amount of such overpayment to be computed from the date(s) of overpayment to the Seller to the date the Buyer is repaid by the Seller at the applicable underpayment rate effective for each quarter prescribed by the Secretary of the Treasury under 26 U.S.C. 6621(a)(2); and
- b. For Department of Defense contracts only, a penalty equal to the amount of the overpayment, if the Seller knowingly submitted cost or pricing data which were incomplete, inaccurate, or non-current.

2. Cost or Pricing Data for Changes

Prior to the pricing of any change or other modification to this Purchase Order which involves increases and/or decreases in costs plus applicable profit expected to exceed the threshold for submission of cost or pricing data, subcontractors shall submit cost or pricing data and shall certify that the data, as defined in Federal Acquisition Regulation 15.406-2, submitted either actually or by specific identification in writing are accurate, complete, and current as of the date of completion of negotiations.

When required to obtain cost or pricing data from its subcontractors, pursuant to the provisions of this Purchase Order, Seller shall obtain such data.
