PROFESSIONAL SUMMARY

Full Stack Developer specialising in production-grade MERN stack applications. Proven in delivering scalable REST APIs, JWT/RBAC authentication, and payment integrations (Stripe, Razorpay) across cloud environments (AWS, Firebase, VPS). Adept at owning end-to-end product cycles and collaborating in async, distributed teams.

PROFESSIONAL EXPERIENCE

Software Engineer

Jan 2025 – Present

Abstriq • Noida, India

- Built and maintained full-stack MERN applications for business-critical workflows; reduced average API response time by **~30%** through query optimization and indexing.
- Designed and shipped **100+** RESTful API endpoints with versioning, error handling, and Postman-tested documentation for web and mobile clients.
- Implemented JWT authentication with Role-Based Access Control (RBAC) across 3+ user roles, eliminating unauthorized access vulnerabilities in production.
- Applied on-page SEO best practices (semantic HTML5, meta tags, structured data), contributing to a 15–20% improvement in organic discoverability.
- Maintained async collaboration via GitHub PRs, Notion, and Slack with clear documentation for all feature releases.

Application Engineer

Feb 2024 – Dec 2024

SoftSages Technology. • Noida, India

- Built reusable React.js + Tailwind CSS component libraries, improving UI consistency and reducing front-end development time by **~20%**.
- Integrate RESTful APIs and handle data rendering dynamically using JSON.
- Contributed to Java and MySQL backend development, supporting server-side logic and relational data management.
- Supported the deployment and maintenance of web applications in development and production environments.

PROJECTS

Collexa — The Career Ecosystem

React · Redux Toolkit · Node.js · Express.js · MongoDB · JWT · Nodemailer · Cloudinary

- Multi-role recruitment platform connecting students, employers, and admins; architected JWT + RBAC for 3 user roles with protected routes and middleware-enforced access control.
- Built end-to-end CRUD for jobs, internships, and courses with search, filter, and pagination across **100+** live listings.
- Integrated Cloudinary for resume uploads, Nodemailer for automated email notifications, and a responsive mobile-first UI.

WellnessFuel — Health E-commerce & Telehealth Platform

React · Next.js · Node.js · Tailwind CSS · Razorpay · Shiprocket

- Full-stack health-tech platform combining supplement e-commerce with doctor consultations, digital prescriptions, and automated billing.

- Integrated Razorpay for secure payments and Shiprocket for automated shipping and real-time order tracking; built RBAC admin dashboard with full CRUD.

ERP Portal — School Management System

React · Redux Toolkit · CSS Modules · Tailwind CSS

- Led Django-to-React.js migration; reduced page load time by **~40%** via SPA architecture and code-split lazy loading.
- Built a modular component library across 15+ views; coordinated with backend and QA for zero-regression delivery.

B2B / B2C Platform DreamStartUp Ecommerce

React · Nextjs · Nodejs · MongoDB

- Multi-role architecture with separate User, Partner, and Admin panels.
- Secure authentication, authorization, and session management
- Dynamic administrative dashboard for catalog and partner oversight
- Optimized product discovery, cart management, and checkout flows
