gsx26

slow juicer with large opening

Create juices full of flavor
and vitamins with the GSX26
vertical juicer.

The GSX26 is designed to extract maximum juice while preserving essential nutrients, thanks to its gentle pressing technology at an extra-slow speed of 50 revolutions per minute.

Its blade-free auger ensures efficient extraction with minimal waste, delivering up to 30% more juice than a traditional juicer. With 250 watts of power, it combines performance and quiet operation for enjoyable everyday use.

Its wide 135 mm opening and generous 1.8 L capacity allow you to easily feed whole fruits and vegetables, reducing preparation time for large quantities of juice in a single batch. The GSX26 is also designed for easy cleaning, with parts that are easy to disassemble and rinse after each use.

Its sleek design, with a dark gray stainless steel body, fits perfectly into any kitchen. It comes with a cleaning brush, juice bowl, pulp bowl, and pusher.

The GSX26 juicer: for days full of energy and vitality!
