EDUCATION

OPEN UNIVERSITY

Online | 2022 – Now

Part-time BSc in Computing and IT

PROJECTS AND EXPERIENCE

WEB APP DEVELOPER AT STARK

We worked on a web app that allows the user to create plans to improve consumptions and the costs of energy. Developed with React, Typescript, SCSS, C# and Asp.Net.

May 2022 - August 2025

IT EXECUTIVE AT JMS

I have worked as Full stack developed in JMS, in which I have developed their eCommerce website using React and Magento, managing the hosting in their private server based on Linux and doing tool development. Worked using React, Magento, PHP, Linux and Python.

November 2021 - March 2022

UX DESIGNER INTERN AT THISDOTSOFTWARE

We worked on a phone app called Cheapskate, that allows users to find the best deals around them. Worked with React Native.

August 2021 - November 2021

PORTFOLIO

In here you can find the main projects I took part in the development with the possibility to see the code and the result.
