# Conditions of sale

Refer to the [Conditions of Sale](#) document on [myinscape.com](http://myinscape.com).

## General information

The following information provides general guidelines for cleaning and maintaining all Office Specialty products including: Tackboards and Accessories.

## Painted metal filing and storage

- Clean painted metal surfaces with a soft damp cloth and warm soapy water.
- Paint touch up kits are available to repair minor scratches.
- Gently rub tougher grime away with a mild, non-abrasive household product such as “Vim” or “Windex”.
- Mechanical parts require no lubrication or maintenance.
- All parts are factory lubricated for a lifetime of superior performance.

## Worksurfaces and lateral tops

Nuform Solid and Nuform Woodgrain Surfaces: Nuform surfaces are manufactured by thermoforming a polymer sheet around an MDF substrate. The polymer sheet is surface-coated with a scratch resistant film.

- For general cleaning, use warm soapy water or a mild, non-abrasive household cleanser such as “Vim” or “Windex”.
- Tougher stains, such as ink, may be removed with methylhydrate.
- Do not use abrasive cleaners or highly solvent based chemicals such as gasoline, acetone or toluene.
- Do not place hot appliances directly on Nuform worksurfaces.
- Light scratches may be buffed from the foil surface by using a 400-600 grit wet sandpaper under light hand pressure in circular motions or by using a 3M Scotch Brite Pad (green color only) under light hand pressure in circular motions. **Note: Under no circumstances should power buffing tools be used.**
- Chips and deep scratches may be repaired by a professional touch-up service. Minor imperfections should be addressed immediately as neglect can result in more serious problems that could void the warranty.

## Plastic laminate surfaces

- High pressure plastic laminate is laminated to 1¼” thick particle board. Laminate surfaces include a color coordinated 2mm edge banding.
- For general cleaning, use warm soapy water or a mild, non-abrasive household cleanser such as “Vim” or “Windex”.
- An eraser may assist in removing ink marks.
- Do not use abrasive cleaners or bleaching cleaners.
- Although high pressure plastic laminates are resistant to scratching, avoid dragging sharp objects across the worksurface.
- Although laminates are heat resistant, a hot pad should be placed under appliances.

## Wood veneer surfaces

- Wood veneer surfaces are sealed and top coated with an open pore, catalyzed lacquer and are edged in ¼” thick, same species solid hardwood. Like all natural products, wood veneer worksurfaces may vary slightly in grain texture and color. For this reason, minor variations between pieces can be expected.
- Use a coaster for beverages.
- Dust worksurfaces with a dry cloth in the direction of the grain.
- For heavily soiled surfaces, use warm soapy water and a soft cloth.
- Do not use abrasive cleaning products.
- Although waxing and polishing is not necessary, waxing and polishing products may be applied if care is taken to avoid wax build-up which may cloud the finish.
- Blot spills up immediately.
- Exposure to strong sunlight should be avoided since fading may occur.
- Avoid dragging sharp objects across the surface.
- Avoid exposure to extreme heat, cold or humidity.
- Chips and scratches may be repaired by a professional touch-up service.

## Upholstered tackboards and cushions

- Vacuum or lightly brush fabrics to remove dirt build-up.
- Promptly remove stains by blotting, not rubbing the fabric to retain pile texture.
- Fabric may be cleaned with mild water-free solvents or water-based cleaning agents or foam.
- Always follow the manufacturer’s instructions and test clean a non-visible area first.

## Accessories

### Whiteboards

- Use only dry erase markers with whiteboards.
- Whiteboards are not intended for use with PERMANENT markers. Only Expo Markers are to be used on any Office Specialty Whiteboard.
- Whiteboards should be cleaned with Expo Eraser or a Microfiber cleaning cloth along with Expo Cleaning Solution which is formulated to remove residue from Expo Dry Erase Markers.

### Bin/shelf-mounted task light fixtures

- Include a 120v/60hz magnetic ballast. Replacements can be purchased from any electrical supply store.

## Proper loading of lateral cabinets

### To prevent tipping and possible injury...

1. Load cabinet starting at the bottom opening and work up. Reverse this procedure for unloading.
2. Wherever possible place heavier materials in the lower drawers.
3. Level the cabinet using the adjustable glides. Failure to level the cabinet correctly may result in cabinet malfunction.
4. Each cabinet is equipped with a patented Safelock™ interlock mechanism which prevents more than one drawer from being opened at a time. The interlock system must be kept in proper working order to ensure user safety.
5. Cabinets may be bolted together for additional stability. Counterweights may be required for cabinets that cannot be bolted together.

### Verticals

Letter & legal width			
Vertical towers			

### Towers & lockers

Modular towers			
Workplace towers & lockers			

### Standard colors

All cabinets are finished with a two-coat electrostatic enamel that provides a high-quality, fade and chip resistant surface with a gloss level of 37.5%. Refer to our current Paint Card or Fans for standard color selection.

All interior drawer bodies, shelves, accessories and exposed hardware (excluding European style hinges and locks on the Storage with Handles and 9900 Series). Standard colors include a selection of mica/metallic colors available at no upcharge which is call the Neutral Collection. In addition Inscape offers the Accent Collection; a line of bright colors at an upcharge.

### Custom (non-standard) colors

Office Specialty offers colors matched to a customer's specification when possible. This matching is done through a database of over 3,000 existing color formulas or the development of a new custom color. A minimum order value of \$3,000 net per custom color applies to each order. A \$250 net fee applies for each custom color below this minimum. In addition, Custom Premium colors (bright whites and bright colors; textured paints; and reflection paints that use mica, aluminum or special chemical to create their reflective properties) will be subject to a 10% upcharge to the net value of the product.

### Multi-color cabinets

For multi-color cabinets where the case is one color and the drawer fronts are a second color, the following upcharge applies: Quantities of 15 or more units, add \$250 list per color. Quantities less than 15 units add \$500 list per color. (Tie bars and reference shelves will be painted the same color as the case.). If one of the colors is an accent paint, the standard accent paint upcharge per unit will need to be applied.

**Note: Multi-color cabinets are not available on Storage with Handles.**

### Paint finish availability matrix

### Custom profile

Custom Profile lateral, pedestal and hinged door cabinets are complete assembled units without fronts. Specifiers may design their own cabinet fronts using a variety of materials.

Refer to the Custom Profile section for a selection of basic cabinets and preconfigured cabinets. Detailed shop drawings depicting drawer and door fabrication specifications are included in the Custom Profile section.

**Office Specialty reserves the right to approve all requests for special finishes.**

# General info

## Finishes

### Surfaces & storage fronts

#### Nuform fronts & tops

Nuform is a thermo-formable polymer based sheet continuously bonded to a MDF substrate. The polymer sheet is surface coated with a scratch resistant film. Colors are homogenous throughout the film thickness. Top and edge are one continuous surface with no edge seams. The underside of the top is finished in a low pressure melamine.

#### Nuform Solid

Colorways	Product code
Warm White	F121
Mist	F122
Sandstone	F123
Frosty White	F127
Designer White	F129

#### Nuform Woodgrain

Colorways	Product code
Walnut	F06
Tannery Maple	F08
Honey Brown	F09

Nova White	OCC46
Storm	OCC47
White Lace	OCC48
Chill	OCC49
Haze	OCC51
Dover White	OCC52
Graphite	OCC53

**OCC-18 is available but is reserved for existing customers due to its different edge banding.**

#### Grade 1 Laminate

Colorways	Product code
White Ash	O1C005
Weathered Ash	O1C006
Finnish Oak	O1C007
Fawn Cypress	O1C008

In addition, all Wilson Art with a "Matte - 60" finish, all Formica with a "Matte - 58" finish, all Nevamar with "Textured (T)" finish and all Pionite with "Suede (N)" finish are available as specials.

#### Composite veneer

Veneer thickness is 0.025". Overall thickness of the top is 1¼". The stain color is impregnated throughout the veneer for color consistency. The open pore veneer is clear coated with a catalyzed lacquer utilizing a multi-step process and has a gloss value of 45° when dry. Tops are constructed utilizing 45 lbs density particle board with an engineered balanced backer for structural integrity. Tops are edged in 3mm thick same species Veneer and do not have a pencil groove.

#### Composite Veneer

Colorways	Product code
Cherry	VC001
Maple	VC002
Wenge	VC003

#### Natural Veneer\*

Colorways	Product code
Natural Cherry	VN001
Standard Cherry	VN002
Natural Maple	VN003
Cape Coast Walnut	VN004
Natural Walnut	VN005

\*Natural Veneer finishes are not available on storage fronts.

**Note: Custom stains on veneers are available at an additional 20% upcharge and extra lead time. Due to the natural variations of wood products, Inscape can not guarantee the exact matching of color or grain patterns.**

### Paint Finishes

How to calculate COM yardage refer to 'COM fabric calculator'

**Input**

1. Select cushion width and depth appropriate to your specification
2. Select cushion thickness
3. Select fabric orientation (refer to 'Cushion Layup' sketches)
4. Find the corresponding fabric quantity in 'running inches' from the table

**Calculation**

1. Multiply the number of cushions required by the fabric quantity in 'running inches' off of the table
2. Divide the number of running inches by 36 to convert to yardage required. Round up to the nearest half yard.
3. If a pattern repeat is required, ordering a sample cushion is advised to determine fabric yardage and any applicable upcharges. A layup instruction will also be required for review.

**Example:**

- Storage with Handles Pedestal

- Quantity – 31 cushions

- 15" wide x 22" deep x 1.25" thick

- COM fabric is a solid colour and has no directional weave; best fabric usage is 'off the bolt' orientation.

**Note: Highlighted areas on the COM Calculator indicates 2 cushion yield per piece.**

**Calculation:**

32 running inches x 16 cushions = 512" of fabric required

512" divided by 36 = 14yds, 8"

**Total fabric required = 14 ½ yards (rounded up)**

**Additional Specification Information:**

1. Pedestal Cushion Depth options vary by product profile and application. Ensure you are referencing the correct dimensions
2. Lateral Cushion Depth options vary by application Ensure you are referencing the correct dimensions
3. Fabric Quantity is based on a 54" wide roll
4. Highlighted rows yield 2 cushions per fabric quantity listed
5. All directional/patterned fabrics (Graded or COM) require cushion layup instructions with order placement. Depending on layup additional fabric may be required and upcharges may apply. If layup instructions are not provided the layup that maximizes the production yield will be chosen. (Refer to the layup diagrams)
6. For any cushion sizes not listed on the COM Calculator or for further information please contact your Client Service Representative for assistance

### **Cushion COM Fabric Process Instructions and Information:**

1. Complete all fields above and send via email to [fabrictest@inscapesolutions.com](mailto:fabrictest@inscapesolutions.com) or fax to 877-870-0034.
2. Cushion Application testing requires 3 Memo Samples of the fabric described shipped prepaid to:  
**Inscape, 67 Toll Road, Holland Landing, ON, L9N 1H2. Attention: Fabric Testing.**
3. A list of previously approved Cushion fabrics can be viewed by clicking this link: <http://www.inscapeimages.com/pages>, or navigate to [www.inscapeimages.com](http://www.inscapeimages.com) and select "**COM Fabrics**" located along the top header.
4. Following test completion, a Cushion Application Test Results form will be issued indicating the test results.
5. For fabrics which have passed testing, a COM # will be assigned and provided on the results form. Use this COM # to identify subsequent deliveries of the tested fabric. Other colors of the same fabric line require separate COM #'s which can be obtained from your Client Services Representative.
6. In the event of a failure, remaining fabric greater than 5 yards will be returned at the customer's cost. Less than 5 yards will be disposed of without notification. We strongly discourage sending more than the required 1 yard until notification of a pass is received.
7. Application Testing provides assurance of upholsterability only, provided that the fabric is identical to the sample supplied for application testing. There are no other expressed or implied warranties.
8. INSCAPE assumes no responsibility for the physical characteristics of COM fabric such as color, colorfastness, fabric defects, durability or performance.

Office Specialty lateral files are manufactured in 1½” increments and available in 42 case heights ranging in size from 18” to 80”, making it possible to match virtually any panel height. The Panel Height Compatibility Matrix shows Office Specialty’s case heights against the most commonly used panel heights.

All non-standard (special) laterals, pedestals, etc.	To be advised by Engineering Specials Department		

\*Notes:

Innviromass™ counterweight plates are be field installed into lateral file cabinets by inserting a 30", 36" or 42" wide retaining wire into holes in the left and right hand rear strips. To accommodate these wires, the .141" diameter holes in rear strips have been changed to .148" diameter.

Innviromass™ counterweight plates are to be field installed into Mobile pedestals (except Storage with Handles) using one security bracket and two strips of double-coated tape for each counterweight plate. The security bracket and double-coated tape is supplied with the counterweight, but must be applied to the counterweight in the field per the Counterweight Installation Instruction sheet.

The Innviromass™ counterweights for field installation 'IMCW-30, IMCW-36 & IMCW-42' consist of one Innviromass plate and one retaining wire.

- The 'CW' counterweight for field installation consists of two 24LB steel plates
- The 'WS-CW' counterweight for field installation consists of one 16LB steel plate
- The 'PM-CW' counterweight for field installation consists of one 24LB Innviromass™ plate, one security bracket and two strips of double-coated tape.
- The 'PM-CW79' counterweight for field installation consists of one 24LB steel plate
- The 'PFCW' counterweight for field installation consists of two 16LB steel plates
- The 'PFCW3' counterweight for field installation consists of three 16LB steel plates

Any non-standard (special) lateral file cabinet, pedestals, vertical etc. for which there is a requirement for counterweights must be reviewed by the Engineering specials department before the order is released to Production. This applies to new product requests AND product that has been ordered in the past.

At this time, counterweights for Workplace lockers, Workplace towers and Modular Towers (except double-pedestal Modular Tower) are not available. Any requests for these products with a counterweight must be routed to the Engineering Specials Department.

# 9900 Series Pedestals

# 9900 Series Pedestals

## ANSI/BIFMA

With the addition of counterweights where appropriate, pedestals meet all ANSI/BIFMA specifications.

## Construction

Pedestals are welded, “wrap-around” construction. 9900 Series pedestals uses 18 and 20 gauge steel. All pedestals use high quality, tension level, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

## Construction features & benefits

1. “Wrap-around” construction with no visible vertical seams gives a clean appearance.
2. Completely enclosed case provides rigid construction and dust-free interiors.
3. Box drawer sides are slotted on 1” centers to allow for maximum flexibility for drawer division.
4. File (10½” and 12”) drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
5. Fully-progressive ball bearing suspensions on all drawers, including pencil and box drawers, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
6. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
7. Special “claw-like” device incorporated in the suspension “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
8. Casters and glides are both recessed “inboard” for a uniform exterior appearance with no visible hardware.
9. Modular interior allows for complete interchangeability of drawer types within the pedestal case. For example, two 6” box drawers may be replaced by one 12” file drawer.

## Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights come standard with ALL mobile pedestals and must be field installed.

## Casters

Four swivel, recessed 1½” black, double-wheel phenolic carpet casters are supplied with mobile pedestals and must be field installed. Recessed casters are not visible.

## Drawer Standard Equipment

15” letter width storage drawers: 3” pencil drawer, 6” box drawer, 10½” and 12” file drawer are standard.

Pedestals containing 3” or 6” drawers are provided with one pencil tray per pedestal. 6” drawers are additionally standard with one steel divider.

18” legal width storage drawers: 3” pencil drawer, 6” box drawer, 10½” and 12” file drawer are standard. 10½” and 12” file drawer will house suspended legal-size folders front-to-back.

10½” and 12” letter-width file drawers have one suspension bar (two in a 28” deep pedestal) for side-to-side filing of legal or letter-size folders.

## Bases

Optional base aprons are available in 2 standard heights and are screwed to the underside of the pedestal case. Bases may be easily added or changed on site. When ordered, shipped with bases installed.

## Glides

Overall heights are inclusive of metal glides. Heights may be increased up to ⅝” by extending standard glide. Glides are accessible from inside the pedestal when the bottom drawer is fully extended or removed and may be adjusted with a ¼” socket driver.

Optional 1½” stem glides are available. Specify separately and add \$26 list to the pedestal price. Requires field installation.

## Locks

Pedestals come standard with lock. If lock is not required add suffix ‘/NL’ after product number. Deduct \$50 list per lock. For lock location, see the guide at the beginning of this price list. Mobile pedestals must include locks.

Random keying is standard. Pedestals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Pedestals originally ordered as non-locking may be field installed with the addition of locking bars and a lock core.

Please contact Client Services for assistance.

Master keys are available at \$45 list.

## Finishes

Refer to Finishes section for color options. For lock finish options, refer to the front of this price list.

## Drawer Pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

# 9900 Series Pedestals

## Freestanding, Letter Width

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### 1522E-B7FM

<b>15</b>	pedestal width
<b>22</b>	pedestal depth
<b>E</b>	9900 Series
<b>B7</b>	7½" box drawer
<b>F</b>	12" file drawer
<b>M</b>	mobile

### General information

Pedestals are standard with either glides or casters. Exterior pedestal heights are nominal. Actual heights (with glides fully recessed) are ½" less. **Pedestal depths are nominal. Actual depth for 9900 Series are ¾" more than noted.** Casters must be field installed. Pedestals with 3" or 6" drawers are standard with one pencil tray per pedestal and one steel divider per 6" drawer. 10½" and 12" drawers have one suspension bar (two in a 28" deep pedestal) for side-to-side filing of letter or legal size folders.

Optional handle for mobile cushion pedestals, \$28 list.

### Accessories

See Pedestal Accessories section for counterweights and accessories.

### Lock option

Pedestals come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$50 list.

### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights are standard with all mobile pedestals and must be field installed. See Counterweight matrix on page 023.

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### 1522E-2FM

- 15** pedestal width
- 22** pedestal depth
- E** 9900 Series
- 2** number of drawers
- F** 12" file drawer
- M** mobile

### General information

Pedestals are standard with either glides or casters. Exterior pedestal heights are nominal. Actual heights (with glides fully recessed) are  $\frac{1}{8}$ " less. **Pedestal depths are nominal. Actual depth for 9900 Series are  $\frac{3}{4}$ " more than noted.** Casters must be field installed. Pedestals with 3" or 6" drawers are standard with one pencil tray per pedestal and one steel divider per 6" drawer. 10 $\frac{1}{2}$ " and 12" drawers have one suspension bar (two in a 28" deep pedestal) for side-to-side filing of letter or legal size folders.

Optional handle for mobile cushion pedestals, \$28 list.

27  $\frac{1}{2}$ "h mobile pedestals do NOT fit under a standard 28.5"h worksurface.

### Accessories

See Pedestal Accessories section for counterweights and accessories.

### Lock option

Pedestals come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$50 list.

### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights are standard with all mobile pedestals and must be field installed. See Counterweight matrix on page 023.

# 9900 Series Pedestals

## Cushion Pedestals

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### 1522E-BFMC

- 15** pedestal width
- 22** pedestal depth
- E** 9900 Series
- B** box drawer
- F** 12" file drawer
- M** mobile
- C** cushion

### General information

#### Pedestal depths are nominal. Actual depth 9900 Series are 3/4" more than noted.

Cushion Mobile pedestals are topped with a 1 1/4" thick CAL 117 fire-retardant polyurethane foam with a 2.2 lb/ft. density. This upholstered cushion is balanced with a 7/16" board and is attached to the pedestal top with Velcro. For application of ALL fabrics, both from our graded program as well as COM (customers own material), please specify layup orientation at time of order. If layup instructions are not provided we will choose the direction to maximize our production. Refer to page 15 for additional layout and COM details.

Casters must be field installed.

Optional handle for mobile cushion pedestals, \$28 list.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights are standard with all mobile pedestals and must be field installed. See Counterweight matrix on page 023.

### Accessories

See Pedestal Accessories section for counterweights and accessories.

### Lock option

Pedestals come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$50 list.

### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

# 9900 Series Laterals

# 9900 Series Laterals

## ANSI/BIFMA

With the addition of counterweights where appropriate, lateral files meet all ANSI/BIFMA specifications.

## Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality, durability and performance for all components.

## Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case fronts, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Full width pulls allow lift-up doors and drawers to be opened from any position.
4. Rigid construction allows lift-up doors to be picked up and retracted smoothly from any point, eliminates deformation, ensures flush fit within the cabinet and improves lock performance.
5. Lift-up door carrier mechanism has four nylon rollers, two on each side, for smooth receding action with no binding or snagging.
6. Front leading edge of pullout shelves is beaded and rolled to provide grip for pullout action and to strengthen shelf; front leading edge of fixed shelf is flat for easy removal of material.
7. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
8. Special Claw-like device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
9. Lock bars operate vertically on both sides of the cabinet for maximum security.
10. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
11. Plastic buttons in side gables of case where top sections of lift-up doors recede into the cabinet eliminate metal-to-metal contact.
12. Plastic buttons in the ends of each drawer and door front eliminates metal-to-metal contact between cabinet sides and closed drawers.
13. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

## Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the cabinet. Bases may be easily added or changed on site. Cabinets are shipped with bases installed when ordered.

## Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

## Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or single pullout shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3" and 4½" drawers, immediately become inoperable. Safelock is standard on all lateral files. The only exceptions are the 3" and 4½" drawers and the upper shelf in a two pullout shelf opening.

## Drawer Standard Equipment

Pullout drawers and shelves are standard with one pair hangfile bars for side-to-side suspended filing. Fixed shelves are standard with 3 plate dividers. Optional accessories are available.

## Glides

Overall heights are inclusive of metal glides. Heights may be increased up to ⅝" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a ¼" socket driver.

Optional 1½" stem glides are available.

Specify and add \$26 list to the cabinet price. Requires field installation.

## Locks

Cabinets come standard with lock. If lock is not required add suffix 'N/L' after product number. Deduct \$50 list per lock. For lock location, see diagrams at the front of this price list.

Note: 3" and 4½" drawers, when located immediately above a case bottom, tie bar shelf or reference shelves cannot be locked.

Random keying is standard. Files may be ordered keyed alike. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Inscape Client Services for required parts.

Master keys are available at \$45 list.

## Lateral file tops

Refer to Accessories section to order Laminate, Nuform and Veneer tops.

## Finishes

Refer to Finishes section for color options. For lock finish options, refer to the front of this price list.

## Drawer Pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

## How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

## Product code key example

### 36-21-2FFE

**36** cabinet width

## Product code key example

### 36-31.5-3FFE

**36** cabinet width  
**31.5** interior height  
**3** number of drawers  
**FF** fixed front  
**E** 9900 Series

## General information

All 13.5" and 15" openings for 14 7/8" x 11" EDP printouts include EDP kit for side-to-side filing of Accodata type 2 point suspension binders. Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less. Cabinets are priced inclusive 1 pair of hangfile bars in each pullout opening and fixed shelves are standard with 3 plate dividers.

**Cabinets are 18" in depth.**

## Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See Counterweight matrix on page 023.

## Accessories

See Lateral File Accessories section for counterweights and accessories.

## Lock option

Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$50 list.

## Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

# 9900 Series Laterals

## Pre-configured Multi-units

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### 36-48-HD2FE

- 36** cabinet width  
**48** interior height  
**HD** hinged door  
**2** number of drawers  
**F** 12" file drawer  
**E** 9900 Series

### General information

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less. Cabinets are priced inclusive 1 pair of hangfile bars in each pullout opening. Hinged doors are standard with self-closing European style hinges that open 110°. Shelves are slotted every 1 1/2" and are height adjustable in 1 1/2" increments. Shelf dividers are not included.

**Cabinets are 18" in depth.**

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See Counterweight matrix on page 023.

### Accessories

See Lateral File Accessories section for counterweights and accessories.

### Lock option

Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$50 list.

### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

# 9900 Series Laterals

## Build-ups

### ANSI/BIFMA

With the addition of counterweights where appropriate, lateral files meet all ANSI/BIFMA specifications.

### Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality, durability and performance for all components.

### Construction features & benefits

- All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
- Corners are strengthened with a reinforcing gusset and are welded at junction of top and case fronts, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
- Full width pulls allow lift-up doors and drawers to be opened from any position.
- Rigid construction allows lift-up doors to be picked up and retracted smoothly from any point, eliminates deformation, ensures flush fit within the cabinet and improves lock performance.
- Lift-up door carrier mechanism has four nylon rollers, two on each side, for smooth receding action with no binding or snagging.
- Front leading edge of pullout shelves is beaded and rolled to provide grip for pullout action and to strengthen shelf; front leading edge of fixed shelf is flat for easy removal of material.
- Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
- Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
- Lock bars operate vertically on both sides of the cabinet for maximum security.
- Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
- Plastic buttons in side gables of case where top sections of lift-up doors recede into the cabinet eliminate metal-to-metal contact.
- Plastic buttons in the ends of each drawer and door front eliminates metal-to-metal contact between cabinet sides and closed drawers.
- Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

### Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the cabinet. Bases may be easily added or changed on site. Cabinets are shipped with bases installed when ordered.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

### Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or single pullout shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3" and 4 1/2" drawers, immediately become inoperable. Safelock is standard on all lateral files. The only exceptions are the 3" and 4 1/2" drawers and the upper shelf in a two pullout shelf opening.

### Drawer standard equipment

Pullout drawers and shelves are standard with one pair hangfile bars for side-to-side suspended filing. Fixed shelves are standard with 3 plate dividers. Optional accessories are available.

### Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 5/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available.

Specify separately and add \$26 list to the cabinet price. Requires field installation.

### Locks

Cabinets come standard with lock. If lock is not required add suffix 'N/L' after product number. Deduct \$50 list per lock. For lock location, see diagrams at the front of this price list.

**Note: 3" and 4 1/2" drawers, when located immediately above a case bottom, tie bar shelf or reference shelves cannot be locked.**

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Inscape Client Services for required parts.

Master keys are available at \$45 list.

### Lateral File Tops

Refer to Accessories section to order Laminate, Nuform and Veneer tops.

### Finishes

Refer to Finishes section of this price list. For lock finish options, refer to the front of this price list.

### Drawer pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

### How to order

1. Specify basic cabinet product number.
2. Specify cabinet interiors from TOP to BOTTOM.
3. Specify accessories, refer to Accessories section.
4. Specify finish color.
5. Cabinets come standard with lock. If lock is not required add suffix '**NL**' after product number. Deduct \$50 list

### Product code key example

#### 30-15E

- 30** cabinet width  
**15** cabinet interior clear height including tie bar  
**E** 9900 Series

### General information

$\frac{5}{8}$ " glides are standard and can be used with or without base aprons. Total of interior components specified must equal interior case height.  $1\frac{1}{2}$ " for structural tie bar must be added to interior components that total  $61\frac{1}{2}$ " or more.

#### Cabinets are 18" in depth.

Tie bar is not required:

- For 9900 Series if build-up includes hinged door insert, fixed shelf or SuperStor™ insert in the top opening.

**Note: Exterior cabinet heights shown above are nominal. Actual heights, with glides fully recessed, are  $\frac{1}{8}$ " less. Cabinets are 18" deep.**

**A standard  $1\frac{1}{2}$ " structural tie bar will be provided by the factory in all cabinets with  $64\frac{3}{8}$ " or more exterior height. The tie bar is usually positioned  $\pm 36$ " from the bottom of the cabinet.**

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See Counterweight matrix on page 023.

# 9900 Series Laterals

## Build-Ups

Basic Lateral Cabinets with Security Lock Bar

### How to order

1. Specify basic cabinet product number.
2. Specify cabinet interiors from TOP to BOTTOM ensuring that the total height of the selected components equals the total interior clear height of the case.
3. Specify accessories, refer to Accessories section.
4. Specify finish color.
5. Cabinets come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$50 list.

### Product Code Key Example

#### 30-63ESB

<b>30</b>	cabinet width
<b>63</b>	cabinet interior clear height including sliding security bar
<b>E</b>	9900 Series
<b>SB</b>	sliding security bar

### Finishes

Refer to Finishes section for color options. Sliding security bar and hinges are the same finish as the case. Drawer bodies and accessories are finished in Eco Black.

### Important

These are available in Storage Centers and 9900 Series only. Security lock bars cannot be field installed. Tie bar, filler panel, hinged door inserts and SuperStor™ inserts cannot be specified as cabinet interiors. Reference shelf cannot be positioned above or below the security bar.

The security lock base 1 1/2" high.

**Note: Exterior cabinet heights shown are nominal. Actual heights, with glides fully recessed, are 1/8" less. Cabinets are 18" deep.**

**Cabinets come with piano style hinges, a 1 1/2" sliding security bar and a lock hook with double sided tape.**

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See Counterweight matrix on page 023.

## Build-Ups

Cabinet Interiors

Interior Drawers with Accessories

### How to order

- Specify basic cabinet product number followed by drawer and shelf interiors with their accessories (see Accessories section) in order from TOP to BOTTOM, indicating which interior is in the top position. Interiors may be specified in almost any combination to make up the TOTAL INTERIOR HEIGHT.
- Specify finish color

### Product code key example

**10.5FFE-36HF**

**10.5** module height  
**FF** fixed front drawer  
**LU/PS** lift-up w/pullout shelf  
**E** 9900 Series  
**36** width  
**HF** hangfile bar  
**HFSR** hangfile bars w/sliding rails

### General information

The following cabinet interiors contain all necessary accessories to accommodate the media shown.

### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

Description	Part number	Exterior height	Width	Weight (lbs)	9900 series/ Neutral paint	Accent paint

## Build-Ups

### Cabinet Interiors

#### Hinged Door Cabinet Inserts with Accessories

#### How to order

1. Specify basic cabinet product number followed by drawer and shelf interiors with their accessories (see Accessories section) in order from TOP to BOTTOM, indicating which interior is in the top position. Interiors may be specified in almost any combination to make up the TOTAL INTERIOR HEIGHT.
2. Specify finish color

#### Product code key example

##### 24HDE/SH-36DV

<b>24</b>	module height
<b>HD</b>	hinged door
<b>E</b>	9900 Series
<b>SH</b>	shelf
<b>36</b>	width
<b>DV</b>	plate dividers

#### Lock option

Hinged door inserts come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$50 list.

#### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

#### General information

The following cabinet interiors contain all necessary accessories to accommodate the media shown.

A hinged door insert includes a bottom shelf. This means that the insert door height and usable interior space is actually 1 1/2" less than the heights noted in the descriptions.

Description	Part number	Exterior height	Width	Weight (lbs)	9900 series/ Neutral paint	Accent paint
 <p>24" hinged door cupboard insert with 1 adjustable slotted shelf and 3 plate dividers. Bottom shelf is standard with slots. Must be specified in the top opening.</p>	<b>24HDE/SH-30DV</b>	24"	30"	36	\$581	+\$59
	<b>24HDE/SH-36DV</b>	24"	36"	50	\$617	+\$62
	<b>24HDE/SH-42DV</b>	24"	42"	64	\$703	+\$72
 <p>27" hinged door cupboard insert with 1 adjustable slotted shelf and 3 plate dividers. Bottom shelf is standard with slots. Must be specified in the top opening.</p>	<b>27HDE/SH-30DV</b>	27"	30"	38	\$581	+\$59

## Build-Ups

Cabinet Interiors

Drawer and Shelf Interiors

### How to order

- Specify basic cabinet product number followed by drawer and shelf interiors with their accessories (see Accessories section) in order from TOP to BOTTOM, indicating which interior is in the top position. Interiors may be specified in almost any combination to make up the TOTAL INTERIOR HEIGHT.
- Specify finish color

### Product code key example

**13.5FFE-30RB**

**13.5** module height  
**FF** fixed front  
**E** 9900 Series  
**36** width  
**RB** raised back

### General information

Drawers and shelf interiors on these pages do not include accessories. For drawers with accessories see complete media modules preceding this section. See Lateral File Accessories section for accessories.

### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

# Towers

# Towers

## Modular towers

### ANSI/BIFMA

With the addition of counterweights where appropriate, Modular Towers meet all ANSI/BIFMA specifications.

### Construction

Modular Towers and hinged door cabinets are constructed using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

### Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Case corners are strengthened with a reinforcing zinc die cast corner bracket.
3. Absence of scissor mechanism in doors and drawers eliminates the potential for scissors binding and facilitates reconfiguration of cabinet openings as needed.
4. Box drawer sides are slotted on 1" centers to allow for maximum flexibility for drawer division.
5. Box drawer side double-wall construction provides clean appearance and enclosed divider slots.
6. File drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
7. Front leading edge of shelf is flat for easy removal of material.
8. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
9. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
10. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

### Drawer pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

### Safelock™

The patented Safelock™ mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or single pullout shelf is extended, even fractionally, Safelock™ ensures that all other openings immediately become inoperable. Safelock™ is standard on all towers.

### Counterweights

See Counterweight matrix on page 023.

### Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 3/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available. Specify separately and add \$26 list to the cabinet price. Requires field installation.

### Locks

Modular Towers come standard with lock. If lock is not required add suffix '**NL**' after product number. Deduct \$50 list per lock. For lock location, see guide at the beginning of this price list.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Master keys are available at \$45 list. For lock finish options, refer to the front of this price list.

### Finishes

Refer to Finishes section for color options.

**Note: Modular Towers are chamfered at each corner and are approximately 3/8" higher than workplace towers.**

## How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

## Product code key example

### MR2424E-P2F10

**M** Modular Series  
**R** right-handed door  
**24** tower width  
**24** interior height  
**E** 9900 Series  
**P** pencil drawer  
**2** number of drawers  
**F10** 10 ½" file drawer

## General information

Exterior cabinet heights are actual heights with glides fully recessed. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10½" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders. Hinged doors are standard with self closing European style hinges and open 110°.

## Lock option

Modular towers come standard with lock. If lock is not required add suffix 'N/L' after product number. Deduct \$50 list per lock.

## Counterweights

See Counterweight matrix on page 023.

## Accessories

Refer to Accessories section for options.

## Finishes

Refer to Finishes section for color options. Interior drawer bodies and shelves are finished in Eco Black. Bookshelves in side access towers are the same finish as the case.

## Modular Towers Base Modules

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### MR3024E-P2F10

- M** Modular Series  
**R** right-handed door  
**24** tower width  
**24** interior height  
**E** 9900 Series  
**D** double pedestal  
**P** pencil drawer  
**2** number of drawers  
**F10** 10 ½" file drawer

Exterior cabinet heights are actual heights with glides fully recessed. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10½" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders. Hinged doors are standard with self closing European style hinges and open 110°. Specify.

### Lock option

Modular towers come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$50 list per lock.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See Counterweight matrix on page 023.

### Accessories

Refer to Accessories section for options.

### Finishes

Refer to Finishes section for color options. Interior drawer bodies and shelves are finished in Eco Black. Bookshelves in side access towers are the same finish as the case.

### General information

Description	Part number	Exterior height	Width	Depth	Weight (lbs)	Neutral paint/ base price	Accent paint
 <p>1-3" pencil and 2-10.5" file drawers on both sides. Comes with 2 locks and counterweights.</p>	<b>M3024E-DP2F10</b>	27 ¼"	30"	24"	180	\$2651	+\$266
 <p>2-6" box and 1-12" file drawer on both sides. Comes with 2 locks and counterweights.</p>	<b>M3024E-D2BF</b>	27 ¼"	30"	24"	180	\$2651	+\$266
 <p>2-12" file drawers on both sides. Comes with 2 locks and counterweights.</p>	<b>M3024E-D2F</b>	27 ¼"	30"	24"	180	\$2569	+\$258

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### MRM2424E-P2F10

- M** Modular Series
- R** right-handed door
- M** MoPed
- 24** tower width
- 24** interior height
- E** 9900 Series
- P** pencil drawer
- 2** number of drawers
- F10** 10 1/2" file drawer

### General information

Exterior cabinet heights are actual heights with glides fully recessed. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10 1/2" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders. Hinged doors are standard with self closing European style hinges and open 110°.

### Lock option

Modular towers come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$50 list per lock.

### Counterweights

See Counterweight matrix on page 023.

### Accessories

Refer to Accessories section for options.

### Finishes

Refer to Finishes section for color options. Interior drawer bodies and shelves are finished in Eco Black. Interior of MoPed is aluminum painted.

Description	Part number	Exterior height	Width	Depth	Weight (lbs)	Neutral paint/ base price	Accent paint
 <p>MoPed on one side, 1-3" pencil and 2-10.5" file drawers on the other side. Comes with 2 locks and counterweights. Accessories are not included in MoPed.</p>	<b>MLM2424EP2F10</b> left-handed 5" sliding drawer	27 1/4"	24"	24"	116	\$2048	+\$205

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

**MR2445E-PF10FK**

- M** Modular Series  
**R** right-handed door  
**24** tower width  
**45** interior height  
**E** 9900 Series  
**P** pencil drawer  
**F10** 10 ½" file drawer  
**F** 12" file drawer  
**K** bookcase

### General information

Exterior cabinet heights are actual heights with glides fully recessed. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10½" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders. Hinged doors are standard with self closing European style hinges and open 110°.

### Counterweights

See Counterweight matrix on page 023.

### Lock option

Modular towers come standard with lock. If lock is not required add suffix '**NL**' after product number. Deduct \$50 list per lock.

### Accessories

Refer to Accessories section for options.

### Finishes

Refer to Finishes section for color options. Interior drawer bodies and shelves are finished in Eco Black. Bookshelves in side access towers are the same finish as the case.

## Modular Towers Monolithic Units

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### MR2446E-F10F

<b>M</b>	Modular Series
<b>R</b>	right-handed door
<b>24</b>	tower width
<b>46</b>	interior height
<b>E</b>	9900 Series
<b>F10</b>	10 1/2" file drawer
<b>F</b>	12" file drawer

### General information

Exterior cabinet heights are actual heights with glides fully recessed. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10 1/2" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders. Hinged doors are standard with self closing European style hinges and open 110°.

A hinged door insert includes a bottom shelf. This means that the insert door height and usable interior space is actually 1 1/2" less than the heights noted in the descriptions.

### Counterweights

See Counterweight matrix on page 023.

### Lock option

Modular towers come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$50 list per lock.

### Accessories

Refer to Accessories section for options.

### Finishes

Refer to Finishes section for color options. Interior drawer bodies and shelves are finished in Eco Black. Bookshelves in side access towers are the same finish as the case.

## How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

## Product code key example

### MR2460E-3F

<b>M</b>	Modular Series
<b>R</b>	right-handed door
<b>24</b>	tower width
<b>60</b>	interior height
<b>E</b>	9900 Series
<b>3</b>	number of drawers
<b>F</b>	12" file drawer

## General information

Exterior cabinet heights are actual heights with glides fully recessed. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10½" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders. Hinged doors are standard with self closing European style hinges and open 110°.

A hinged door insert includes a bottom shelf. This means that the insert door height and usable interior space is actually 1 ½" less than the heights noted in the descriptions.

## Counterweights

See Counterweight matrix on page 023.

## Lock option

Modular towers come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$50 list per lock.

## Accessories

Refer to Accessories section for options.

## Finishes

Refer to Finishes section for color options. Interior drawer bodies and shelves are finished in Eco Black. Bookshelves in side access towers are the same finish as the case.

## Construction

Cabinets are of all-welded construction using high quality, tension leveled cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

## Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case fronts, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Absence of scissor mechanism in doors and drawers eliminates the potential for scissors binding and facilitates reconfiguration of cabinet openings as needed.
4. Units have sound-absorbing materials for quieter operation – a particular asset in open plan environments.
5. Box drawer sides are slotted on 1" centers to allow for maximum flexibility for drawer division.
6. Box drawer side double-wall construction provides clean appearance and enclosed divider slots.
7. File drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
8. Front leading edge of fixed shelf is flat for easy removal of material.
9. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
10. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
11. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
12. Shorter hinged door unit is equipped with one adjustable shelf, slotted on 1" centers for dividers.
13. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.
14. All Towers and Lockers, with the exception of the 26 7/8" high locker, have ventilation holes in the top of the cabinet to enhance air circulation within the full-height door and the shorter hinged door sections.
15. 30" and 36" wide Lockers and Towers have ventilation holes along the length of the full-height door. The liner or inside of the front is offset to eliminate sight-lines into the cabinet. 24" and 42" wide Lockers and Towers do not have ventilation holes in the full-height door.
16. Lock bars operate vertically on both sides of the cabinet for maximum security.

## Drawer construction

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

## Safelock™

The patented Safelock mechanism is standard on the 42" wide Locker and on Towers and Lockers that have more than one file (10 1/2" and 12") drawer. It provides complete security against accidental opening of two or more drawers simultaneously. When any drawer is extended, even fractionally, Safelock ensures that all other openings immediately become inoperable.

## Counterweights

See Counterweight matrix on page 023.

## Drawer standard equipment

Lockers and Towers containing 3" or 6" drawers are provided with one pencil tray per cabinet. 6" drawers are additionally standard with one steel divider. 10 1/2", 12" and 15" letter-width file drawers have one suspension bar for side-to-side filing of letter or legal-size folders.

Full-width pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Full-width fixed shelves are standard with 3 plate dividers. Optional accessories are available.

## Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 3/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available. Specify separately and add \$26 list to the cabinet price. Requires field installation.

## Locks

Workplace Towers and Lockers come standard with lock. If lock is not required add suffix '/NL' after product number.

Deduct \$50 list per lock. For lock location, see guide at the beginning of this price list. Locks are available in Chrome and Black finish. Specify.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Inscope Client Services for required parts. Specify lateral file height and width or model number.

Master keys are available at \$45 list.

## Finishes

Refer to the Finishes section of this price list.

## Workplace Towers and Lockers

### Wardrobes

#### How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

#### Product code key example

**VL121839□-HD**

- V** wardrobe  
**L** left handed  
**12** cabinet width  
**18** nominal cabinet depth  
**39** interior height  
**E** 9900 Series  
**HD** hinged door

**NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.**

#### General information

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less.

Adding rectangular glides increases exterior height.

Hinged doors are standard with self-closing European style hinges that open 110°. Shelves are slotted every 1 1/2" and are height adjustable in 1 1/2" increments. Shelf dividers are not included. See Accessories section.

#### Accessories

See Accessories section for counterweights and accessories.

#### Lock option

Wardrobes come standard with lock.

If lock is not required add suffix 'NL' after product number. Deduct \$50 list per lock.

#### Finishes

Refer to Finishes section for color options. Interior drawer bodies and shelves are finished in Eco Black.

**12** cabinet width  
**18** nominal cabinet depth  
**39** interior height  
**E** 9900 Series  
**HD** hinged door

**NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.**

### General information

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less.

Hinged doors are standard with self-closing European style hinges that open 110°.

Shelves are slotted every 1 1/2" and are height adjustable in 1 1/2" increments. Shelf dividers are not included. See Accessories section.

### Accessories

See Accessories section for counterweights and accessories.

### Lock option

Wardrobes come standard with lock.

If lock is not required add suffix 'NL' after product number. Deduct \$50 list per lock.

**Nuform Wardrobes are available with an eLock option. Add \$368 to list price for eLock.**

### Finishes

Refer to Finishes section for finish options for case, Nuform Woodgrain fronts. Drawer bodies and accessories are finished in Eco Black.

## Workplace Towers and Lockers

Towers

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### TR24405E-PF10

- T** Workplace Tower  
**R** right-handed door  
**24** tower width  
**405** interior height  
**E** 9900 Series  
**P** pencil drawer  
**F10** 10 ½" file drawer

### General information

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are ⅛" less. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10½" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders. Hinged doors are standard with self closing European style hinges and open 110°.

A hinged door insert includes a bottom shelf. This means that the insert door height and usable interior space is actually 1 ½" less than the heights noted in the descriptions.

### Counterweights

See Counterweight matrix on page 023.

### Lock option

Workplace towers come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$50 list per lock.

### Finishes

Refer to Finishes section for color options. Interior drawer bodies and shelves are finished in Eco Black. Bookshelves in side access towers are the same finish as the case.

Bookcases  
& display  
cabinets

**Bookcases**

**How to order**

1. Specify product number.
2. Specify finish color.
3. Specify options.

**General information**

Exterior cabinet heights are nominal.  
Actual heights (with glides fully recessed) are 1/8" less. Bookcases are standard with adjustable non-slotted shelves.

**Finishes**

Case interior and shelves match case interior paint color. Refer to Finishes section for color options.

**Product code key example**

**3021-1BK15**

- 30** cabinet width
- 21** interior height
- 1** number of shelves
- BK** bookcase
- 15** cabinet depth

# Bookcases & display cabinets

## Bookcases

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### General information

Exterior cabinet heights are nominal.  
Actual heights (with glides fully recessed) are 1/8" less. Bookcases are standard with adjustable non-slotted shelves.

### Finishes

Case interior and shelves match case interior paint color. Refer to Finishes section for color options.

## Verticals

### ANSI/BIFMA

With the addition of counterweights where appropriate, verticals meet all ANSI/BIFMA specifications.

### Construction

Vertical files are of all-welded construction using high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

### Construction features & benefits

1. “Wrap-around” construction with no visible vertical seams gives a clean appearance, providing rigid construction and dust-free interiors.
2. Verticals have sound-absorbing materials for quieter operation – a particular asset in open plan environments.
3. Drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
4. Drawer sides are slotted on  $\frac{3}{4}$ ” centers to allow for maximum flexibility for drawer division. Compressors are optional. Verticals may be ordered with or without compressors in each drawer.
5. Fully-progressive ball bearing suspensions, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
6. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
7. Special “claw-like” device incorporated in the suspension “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.

### Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer is extended, even fractionally, Safelock ensures that all other drawers immediately become inoperable. Safelock is standard on all vertical files.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

### Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the file case. Bases may be easily added or changed on site. Vertical files are shipped with bases installed when ordered.

### Glides

Overall heights are inclusive of metal glides. Heights may be increased up to  $\frac{5}{8}$ ” by extending standard glide. Glides are accessible from inside the vertical file when the bottom drawer is removed and may be adjusted with a  $\frac{1}{4}$ ” socket driver.

### Locks

Vertical files come standard with lock. If lock is not required add suffix ‘NL’ after product number. Deduct \$50 list per lock. For lock location, see the guide at the beginning of this price list.

Random keying is standard. Verticals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Inscope Client Services for required parts.

Master keys are available at \$45 list. For lock finish options, refer to the front of this price list.

### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

### Sizes

Vertical files are 28 $\frac{3}{4}$ ” deep and are available in the following sizes:

No. of Drawers	Letter Width	Legal Width	Exterior Height
2	15”	18”	26 $\frac{7}{8}$ ”
3	15”	18”	38 $\frac{7}{8}$ ”
4	15”	18”	50 $\frac{7}{8}$ ”
5	15”	18”	55 $\frac{3}{8}$ ”

### Drawer Pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

### How to order

1. Specify product number
2. Specify finish color
3. Specify options

### Product code key example

#### V1828□-4FCP

- V** vertical file
- 18** 18" (legal) width
- 28** 28" nominal depth
- E** 9900 Series
- 4F** number of file drawers
- CP** with compressors

### General information

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less. **Vertical depths are nominal. Actual depth for 9900 Series are 3/4" more than noted.** File drawers accept hanging file folders. Bottom tiling is accommodated in cabinets with compressors which are pre-installed in each drawer (suffix **CP**).

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See Counterweight matrix on 023.

### Accessories

See Vertical File Accessories section for counterweights and accessories.

### Lock option

Verticals come standard with lock. If lock is not required add suffix '**NL**' after product number. Deduct \$50 list.

### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

# Storage with Handles

# Storage with Handles

## Pedestals

### ANSI/BIFMA

With the addition of counterweights where appropriate, pedestal meet all ANSI/BIFMA specifications.

### Construction

Pedestals are welded, “wrap-around” construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

### Construction Features & Benefits

1. Completely enclosed case provides rigid construction and dust-free interiors.
2. Box drawer sides are slotted on 1” centers to allow for maximum flexibility for drawer division.
3. File (10½” and 12”) drawer bodies have full height sides to accommodate hanging file folders, eliminating the need for optional file frames.
4. Fully-progressive ball bearing suspensions on all drawers, including pencil and box drawers, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
5. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
6. Special “claw-like” device incorporated in the suspension “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
7. Casters and glides are both recessed “inboard” for a uniform exterior appearance with no visible hardware.
8. Modular interior allows for complete interchangeability of drawer types within the pedestal case. For example, two 6” box drawers may be replaced by one 12” file drawer.
9. 18” deep pedestals come standard with 18” deep drawers. 22” and 28” deep pedestals come standard with 22” deep drawers.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Counterweights come standard with ALL mobile pedestals and must be field installed.

### Drawer Standard Equipment

15” letter width storage drawers: 3” pencil drawer, 6” box drawer, 10½” and 12” file drawer are standard.

Pedestals containing 3” or 6” drawers are provided with one pencil tray per pedestal. 6” drawers are additionally standard with one steel divider.

**Hangfile bars are not included with Pedestals with Handles. Refer to accessories section for codes and pricing.**

### Bases

Optional base aprons are available in 2 standard heights and are screwed to the underside of the pedestal case. Bases may be easily added or changed on site. Pedestals are shipped with bases installed when ordered.

### Castors

Four swivel, recessed 1⅝” black, double-wheel phenolic carpet casters are supplied with mobile pedestals and must be field installed.

### Glides

Overall heights are inclusive of metal glides. Heights may be increased up to ⅝” by extending standard glide. Glides are accessible from inside the pedestal when the bottom drawer is fully extended or removed and may be adjusted with a ¼” socket driver.

Optional 1½” stem glides are available. Specify separately and add \$26 list to the pedestal price. Requires field installation.

### Locks

Pedestals come standard with lock. If lock is not required add suffix ‘/NL’ after product number. Deduct \$50 list per lock. For lock location, see the front of this price list. Mobile pedestals must include locks.

Random keying is standard. Pedestals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Inscape Client Services for required parts.

Master keys are available at \$45 list.

### Finishes

Refer to Finishes section for color options. For lock finish options, refer to the front of this price list.

### Drawer Pulls

Storage with Handles have 6 styles options. FP002 is the default pull.

Pull	Storage with Handles	Nuform	Veneer
 FP001 P290 Aluminum Leaf Finish			
 FP002 Matte Chrome Finish			
 FP004 Brushed Nickel Finish			
 FP005 Satin Nickel Finish			
 FP007 Brushed Nickel Finish	+\$73	+\$73	+\$73
 FP008 Matte Chrome Finish	+\$73	+\$73	+\$73
 FP009 Nickel Plated Matte Finish	+\$73	+\$73	+\$73

Available      Unavailable

Pulls FP004, FP005, FP007 and FP008 meet the guidelines for ADA compliance.

**Note: FP002 is not available on hinged door cabinets.**

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### 1518H-2BF10

- 15** -pedestal width
- 18** -pedestal depth
- H** -Storage with Handles
- 2** -number of drawers
- B** -6" box
- F10** -10 1/2" file drawer

### General information

Pedestals are standard with either glides or casters. Exterior pedestal heights are nominal. Pedestals with 3" or 6" drawers are standard with one pencil tray per pedestal and one steel divider per 6" drawer. Hang file bars for file drawers must be ordered separately.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights are standard with all mobile pedestals and must be field installed. See Counterweight matrix on 23.

### Accessories

See Pedestal Accessories section for accessories.

### Lock option

Pedestals come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$50 list.

### Finishes

Refer to finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

# Storage with Handles

## Pedestals

### Cushion Pedestals

#### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

#### Product code key example

**1518H-B7F10MCNH**

- 15** pedestal width  
**18** pedestal depth  
**H** Storage with Handles  
**B7** 7½" box  
**F10** 10 ½" file drawer  
**M** mobile  
**C** cushion  
**NH** no handle

#### General information

Cushion Mobile pedestals are topped with a 1¼" thick CAL 117 fire-retardant polyurethane foam with a 2.2 lb/ft. density. This upholstered cushion is balanced with a 7/16" board and is attached to the pedestal top with Velcro.

For application of ALL fabrics, both from our graded program as well as COM (customers own material), please specify layout orientation at time of order. If layout instructions are not provided we will choose the direction to maximize our production. Refer to page 15 for additional layout and COM details.

#### Counterweights

Counterweights are standard with all mobile pedestals and must be field installed. See Counterweight matrix on page 023.

#### Accessories

See Pedestal Accessories section for accessories.

#### Finishes

Refer to finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

Description	Part number	Height	Depth	Weight (lbs)	Neutral paint/ base price (grade A fabric)	Accent paint

#### Fabric upcharge for mobile cushion pedestals

**Note: To price fabric grade options add the upcharge (+\$) in the chart below to the base price of the List price (Grade A) column. This will be the total cost for that product.**

Grade B/COM	Grade C	Grade D	Grade E	Grade F
+\$50	+\$92	+\$130	+\$156	+\$223

### ANSI/BIFMA

With the addition of counterweights where appropriate, lateral files meet all ANSI/BIFMA specifications.

### Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

### Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Lift-up door carrier mechanism has four nylon rollers, two on each side, for smooth receding action with no binding or snagging.
3. Front leading edge of pullout shelves is beaded and rolled to provide grip for pullout action and to strengthen shelf; front leading edge of fixed shelf is flat for easy removal of material.
4. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
5. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
6. Lock bars operate vertically on both sides of the cabinet for maximum security.
7. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
8. Plastic buttons in side gables of case where top sections of lift-up doors recede into the cabinet eliminate metal-to-metal contact.
9. Plastic buttons in the ends of each drawer and door front eliminates metal-to-metal contact between cabinet sides and closed drawers.
10. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

### Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or single pullout shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3" and 4½" drawers, immediately become inoperable. Safelock is standard on all lateral files. The only exceptions are the 3" and 4½" drawers and the upper shelf in a two pullout shelf opening.

### Drawer standard equipment

Pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Optional accessories are available.

### Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the cabinet. Bases may be easily added or changed on site. Cabinets are shipped with bases installed when ordered.

### Glides

Overall heights are inclusive of metal glides. Heights may be increased up to ⅝" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a ¼" socket driver.

Optional 1½" stem glides are available. Specify separately and add \$26 list to the cabinet price. Requires field installation.

### Locks

Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$50 list per lock. For lock location, see the guide at the beginning of this price list.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Inscape Client Services for required parts.

Master keys are available at \$45 list.

### Lateral file tops

Refer to Accessories section to order Laminate, Nuform and Veneer tops.

### Finishes

Refer to Finishes section for color options. For lock finish options, refer to the front of this price list.

### Drawer Pulls

Storage with Handles have 6 styles options. FP002 is the default pull.

Pull	Storage with Handles	Nuform	Veneer

## Pedestals

**Specify Custom Profile pedestals without fronts and design your own using a variety of materials. The design ideas are limitless. For fabrication details, refer to the shop drawings at the end of this section.**

### ANSI/BIFMA

With the addition of counterweights where appropriate, Custom Profile pedestals meet all ANSI/BIFMA specifications.

### Construction

Pedestals are welded, “wrap-around” construction using 20 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

### Construction features & benefits

1. “Wrap-around” construction with no visible vertical seams gives a clean appearance.
2. Completely enclosed case provides rigid construction and dust-free interiors.
3. Box drawer sides are slotted on 1” centers to allow for maximum flexibility for drawer division.
4. Box drawer side double-wall construction provides clean appearance and enclosed divider slots.
5. File (12” drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
6. Fully-progressive ball bearing suspensions on all drawers, including pencil and box drawers, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
7. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
8. Special “claw-like” device incorporated in the suspension “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
9. Casters and glides are both recessed “inboard” for a uniform exterior appearance with no visible hardware.
10. Modular interior allows for complete interchangeability of drawer types within the pedestal case. For example, two 6” box drawers may be replaced by one 12” file drawer.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Counterweights come standard with ALL mobile pedestals and must be field installed.

### Drawer standard equipment

3” pencil drawer, 6” box drawer and 12” file drawer are standard.

Pedestals containing 3” or 6” drawers are provided with one pencil tray per pedestal. 6” drawers are additionally standard with one steel divider.

12” file drawers have one suspension bar (two in a 28” deep pedestal for side-to-side filing of legal and letter-size folders).

### Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the pedestal case. Bases may be easily added or changed on site. Pedestals are shipped with bases installed when ordered.

### Castors

4 swivel, recessed 1½” black, double-wheel phenolic carpet casters are supplied with mobile pedestals and must be field installed. Recessed casters are not visible.

### Glides

Overall heights are inclusive of metal glides or casters. Heights may be increased up to ⅝” by extending standard glide. Glides are accessible from inside the pedestal when the bottom drawer is fully extended or removed and may be adjusted with a ¼” socket driver.

Optional 1½” stem glides are available. Specify separately and add \$26 list to the pedestal price. Requires field installation.

### Locks

Pedestals come standard with lock. If lock is not required add suffix ‘NL’ after product number. Deduct \$63 list per lock. For lock location, see diagrams at the front of this price list. **Extended lock barrels are standard.** For flush, non-fascia type locks, specify separately. Mobile pedestals must include locks.

Random keying is standard. Pedestals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Inscape Client Services for required parts.

Master keys are available at \$45 list. Locks are available in Chrome and Black finish. Specify.

### Finishes

Refer to Finishes section for color options.

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

#### 1522C-2BFM

- 15** pedestal width
- 22** pedestal depth
- C** Custom Profile Series
- 2** number of drawers
- B** box drawer
- F** file drawer
- M** mobile

### General information

Pedestals are standard with either glides or casters. Exterior pedestal heights are nominal. Actual heights (with glides fully recessed) are 1/8" less. Casters must be field installed. Pedestals with 3" and 6" drawers are standard with one pencil tray per pedestal and one steel divider per 6" drawer. 12" drawers have one suspension bar (two in a 28" deep pedestal) for side-to-side filing of letter or legal size folders.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights are standard with all mobile pedestals and must be field installed. See Counterweight matrix on page 023.

### Accessories

See Pedestal Accessories section for counterweights and accessories.

### Lock option

Pedestals come standard with lock. If lock is not required add suffix 'N/L' after product number. Deduct \$63 list. **Extended lock barrels are standard.**

### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

### Cushions

Order mobile pedestal cushions as a 'part' through your Client Services Representative.

**Specify Custom Profile lateral or hinged door cabinets without fronts and design your own using a variety of materials. The design ideas are limitless. For fabrication details, refer to the shop drawings at the end of this section.**

### ANSI/BIFMA

With the addition of counterweights where appropriate, Custom Profile lateral files meet all ANSI/BIFMA specifications.

### Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

### Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
4. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
5. Lock bars operate vertically on both sides of the cabinet for maximum security.
6. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
7. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

### Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3" drawer, immediately become inoperable. Safelock is standard on all lateral files.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

### Drawer standard equipment

Pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Optional accessories are available.

### Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the cabinet. Bases may be easily added or changed on site. Cabinets are shipped with bases installed with ordered.

### Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 5/8" by extending standard glide. Standard glides may be used with or without base aprons. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available. Specify separately and add \$26 list to the cabinet price. Requires field installation.

### Locks

Cabinets come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$63 list per lock. For lock location, see the front of this price list. **Extended lock barrels are standard.** For flush, non-fascia type locks, specify separately.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which features a black neoprene plastic cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Inscope Client Services for required parts. Locks may not be field installed in hinged door cabinets.

Master keys are available at \$45 list. For lock finish options, refer to the front of this price list.

### Finishes

Refer to the Finishes section at the front of this price list.

#### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

#### Product code key example

##### 3624HDC-SH

- 36** cabinet width  
**24** interior height  
**HD** hinged doors  
**C** Custom Profile Series  
**SH** shelf

#### General information

These cabinets are complete assembled units without door fronts. Prices do not include door fronts. See the shop drawings at the end of this section for information about the fabrication and installation of custom fronts. Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are  $\frac{1}{8}$ " less. Standard hardware is self-closing European style hinges that open 110°. Shelves are slotted every  $1\frac{1}{2}$ " and are height adjustable in  $1\frac{1}{2}$ " increments. Shelf dividers are not included.

**Cabinets are 18" in depth.**

#### Lock option

Cabinets come standard with lock. If lock is not required add suffix '**NL**' after product number. Deduct \$63 list. **Extended lock barrels are standard.**

#### Finishes

Refer to Finishes section for color options. Drawer bodies and accessories are finished in Eco Black.

#### Accessories

See Lateral File Accessories section for counterweights and accessories.

### Product code key example 30-15C

- 30** cabinet width  
**15** cabinet interior clear height  
**C** Custom Profile Series

### General information

Cases in this section are basic empty units without doors, drawers or accessories. Specify cabinet components and accessories on the following pages ensuring the total height of the selected components equals the total interior clear height of the case. Cabinets are available in 42" case heights and 3" widths. Interior components are available in 3", 6", 10½", 12", 13½", 15" and 24" sizes. (Note: 3" drawers specified in a bottom opening, above a 1½" filler or above a reference shelf cannot be locked.) ⅝" glides are standard and can be used with or without base aprons. Counterweights are recommended.

**Cabinets are 18" in depth.**

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See Counterweight matrix on page 023.

### Finishes

Refer to Finishes section for color options.

**Note: Exterior cabinet heights shown below are nominal. Actual heights, with glides fully recessed, are ⅛" less.**

**Cabinets 64 ⅜" and over include a hidden tie bar in their construction.**

### How to order

- Specify basic cabinet product number followed by drawer and shelf interiors with their accessories (see Accessories section) in order from TOP to BOTTOM, indicating which interior is in the top position. Interiors may be specified in almost any combination to make up the TOTAL INTERIOR HEIGHT.
- Specify finish color

### Product Code Key Example

**6FFC-36**

- 6 -opening size
- FF -drawer, no front
- C -Custom Profile Series
- 30 -width

### Options

Refer to Accessories section.

### Finishes

Refer to Finishes section for color options. Accessories, drawer bodies and shelves are finished in Eco Black.

### General Information

Drawer and shelf interiors on these pages **do not include accessories.**

GRID

### ANSI/BIFMA

With the addition of counterweights where appropriate, Grid pedestals meet all ANSI/BIFMA specifications.

### Construction

Pedestals are welded, “wrap-around” construction using 20 gauge high quality, tension leveled, cold rolled steel.

The steel gauges selected for drawer bodies and accessories ensure the highest quality durability and performance for all components.

### Construction features & benefits

1. “Wrap-around” construction with no visible vertical seams gives a clean appearance.
2. Completely enclosed case provides rigid construction and dust-free interiors.
3. Box drawer sides are slotted on 1” centers to allow for maximum flexibility for drawer division.
4. File (12”) drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
5. Fully-progressive ball bearing suspensions on all drawers, including pencil and box drawers, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
6. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
7. Special “claw-like” device incorporated in the suspension “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
8. Casters and glides are both recessed “inboard” for a uniform exterior appearance with no visible hardware.
9. Modular interior allows for complete interchangeability of drawer types within the pedestal case. For example, two 6” box drawers may be replaced by one 12” file drawer.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Counterweights come standard with ALL mobile pedestals and must be field installed.

### Drawer standard equipment

Pedestals containing 6” drawers are provided with one pencil tray per pedestal and one steel divider per drawer. 12” drawers have one suspension bar for side-to-side filing of letter or legal folders.

### Casters

4 Swivel, recessed 1½” black, double-wheel phenolic carpet casters are supplied with mobile pedestals and must be field installed. Recessed casters are not visible.

### Glides

Overall heights are inclusive of metal glides. Heights may be increased up to ⅝” by extending standard glide. Glides are accessible from inside the pedestal when the bottom drawer is fully extended or removed and may be adjusted with a ¼” socket driver.

Optional 1½” stem glides are available. Specify separately and add \$26 list to the pedestal price. Requires field installation.

For optional Platform style glide, see the Accessories section of this price list.

### Locks

Pedestals come standard with lock. For lock location, see diagram at the front of this price list.

Random keying is standard. Pedestals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Master keys are available at \$45 list.

### Tops

Refer to Accessories Section to specify matching tops.

### Finishes

Refer to the Finish section at the front of this price list.

### Drawer Pulls

There are 5 pull options for Nuform™ and 6 for veneer fronts.

Pull	Nuform	Veneer
 <b>FP001</b> P290 Aluminum Leaf Finish		
 <b>FP002</b> Matte Chrome Finish		
 <b>FP004</b> Brushed Nickel Finish		
 <b>FP005</b> Satin Nickel Finish

**F** 12" file drawer

**NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.**

### General information

Pedestals are standard with glides. Exterior pedestal heights are nominal. Actual heights (with glides fully recessed) are 1/8" less. Pedestals containing 6" drawers are standard with one pencil tray per pedestal and one steel divider per drawer. 12" drawers have one suspension bar for side-to-side filing of letter or legal size folders.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights are standard with all mobile pedestals and must be field installed. See Counterweight matrix on page 023.

### Accessories

See Accessories section for counterweights and accessories.

### Lock option

Pedestals come standard with lock.

### Finishes

Refer to Finishes section for finish options for case, Nuform Solid and Woodgrain fronts and veneer fronts. Drawer bodies and accessories are finished in Eco Black.

Description	Part number	Height	Width	Weight (lbs)	Nuform/ Neutral paint	Veneer/ Neutral paint	Accent paint

### ANSI/BIFMA

With the addition of counterweights where appropriate, Grid lateral files meet all ANSI/BIFMA specifications.

### Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer bodies and accessories ensure the highest quality durability and performance for all components.

### Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
4. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
5. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

### Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously.

When any drawer or shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3" drawer, immediately become inoperable. Safelock is standard on all lateral files.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

### Drawer standard equipment

Pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Optional accessories are available.

### Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 5/8" by extending standard glide. Standard glides may be used with or without base aprons. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available. Specify separately and add \$26 list to the cabinet price. Requires field installation. For optional Platform glide, see Accessories section of this price list.

### Locks

Cabinets come standard with lock. For lock location, see the diagram at the front of this price list. Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which features a black neoprene plastic cover.

Master keys are available at \$45 list.

## Laterals

### How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

### Product code key example

**36-3FF**□

- 36** cabinet width  
**3** number of drawers  
**FF** fixed front drawers  
 **Q** - Nuform  
 **W** - veneer

**NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.**

### General information

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less. Cabinets are priced inclusive of 1 pair of hangfile bars in each pullout opening. Shelves are adjustable except the shelf above the file drawers. All shelves are slotted to accept dividers. Shelf dividers are not included. See Accessories section.

### Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See Counterweight matrix on page 023.

### Accessories

See Accessories section for counterweights and accessories.

### Lock option

Cabinets come standard with lock.

### Finishes

Refer to Finishes section for finish options for case, Nuform Solid and Woodgrain fronts and veneer fronts. Drawer bodies and accessories are finished in Eco Black.

## Storage Cabinets Glazed Doors

### How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

### Product code key example

**3624HD-SH**

**36** cabinet width  
**24** interior height  
**HD** hinged door  
**J** glazed  
**SH** shelf

**NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.**

### General information

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are  $\frac{1}{8}$ " less. Hinged doors are standard with self-closing European style hinges that open 110°. Shelves are slotted every 1  $\frac{1}{2}$ " and are height adjustable in 1  $\frac{1}{2}$ " increments. Shelf dividers are not included. See Accessories section.

**FP002 is not available on hinged door cabinets.**

### Accessories

See Accessories section for counterweights and accessories.

### Lock option

**Glazed doors do not lock.**

### Finishes

Refer to Finishes section for finish options for case. Drawer bodies and accessories are finished in Eco Black.

Glazed doors have a standard aluminum finish frame. This frame is not available in other colors. Glazing is sheer frosted acrylic that mounts in front of frame.

Slotted shelves are painted to match the case color.

### Construction

Cabinets are of all-welded construction using high quality, tension leveled cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

### Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case fronts, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Box drawer sides are slotted on 1" centers to allow for maximum flexibility for drawer division.
4. File drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
5. Front leading edge of fixed shelf is flat for easy removal of material.
6. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
7. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
8. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
9. Shorter hinged door unit is equipped with one adjustable shelf, slotted on 1" centers for dividers.
10. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.
11. All Towers and Lockers, with the exception of the 26 7/8" high locker, have ventilation holes in the top of the cabinet to enhance air circulation within the full height door and the shorter hinged door sections.

### Safelock™

The patented Safelock mechanism is standard on the 42" wide Locker and on Towers and Lockers that have more than one file (10 1/2" and 12") drawer. It provides complete security against accidental opening of two or more drawers simultaneously. When any drawer is extended, even fractionally,

Safelock ensures that all other openings immediately become inoperable.

### Drawer standard equipment

Lockers and Towers containing 3" or 6" drawers are provided with one pencil tray per cabinet. 6" drawers are additionally standard with one steel divider. 10 1/2", 12" and 15" letter-width file drawers have one suspension bar for side-to-side filing of letter or legal-size folders.

Full-width pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Full-width fixed shelves are standard with 3 plate dividers. Optional accessories are available.

### Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 5/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available. Specify separately and add \$26 list to the cabinet price. Requires field installation.

### Locks

Towers come standard with lock. For lock location, see the front of this price list.

Random keying is standard. Files may be ordered keyed alike. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Master keys are available at \$45 list.

### Finishes

Refer to the Finishes section at the front of this price list.

### Drawer Pulls

There are 5 pull options for Nuform™ and 6 for veneer fronts.

General information

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less.

Adding rectangular glides increases exterior height.

Hinged doors are standard with self-closing European style hinges that open 110°. Shelves are slotted every 1 1/2" and are height adjustable in 1 1/2" increments. Shelf dividers are not included. See Accessories section.

**FP002 is not available on hinged door cabinets.**

Accessories

See Accessories section for counterweights and accessories.

Lock option

Wardrobes come standard with lock.

If lock is not required add suffix 'NL' after product number. Deduct \$50 list per lock.

**Nuform Wardrobes are available with an eLock option. Add \$320 to list price for eLock.**

Finishes

Refer to Finishes section for finish options for case, Nuform Solid and Woodgrain fronts. Drawer bodies and accessories are finished in Eco Black.

### How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

### Product code key example

#### VL121852Q-HD

- V** wardrobe
- L** left handed
- 12** cabinet width
- 18** nominal cabinet depth
- 52** interior height
- Q** Nuform
- HD** hinged door

**NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.**

### General information

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less.

Adding rectangular glides increases exterior height.

Hinged doors are standard with self-closing European style hinges that open 110°. Shelves are slotted every 1 1/2" and are height adjustable in 1 1/2" increments. Shelf dividers are not included. See Accessories section.

**FP002 is not available on hinged door cabinets.**

### Accessories

See Accessories section for counterweights and accessories.

### Lock option

Wardrobes come standard with lock.

If lock is not required add suffix 'NL' after product number. Deduct \$50 list per lock.

**Nuform Wardrobes are available with an eLock option. Add \$320 to list price for eLock.**

### Finishes

Refer to Finishes section for finish options for case, Nuform Solid and Woodgrain fronts. Drawer bodies and accessories are finished in Eco Black.

## Lateral Tops

Nuform

### How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

### Product code key example

**N**□**1930**

- N** Nuform top  
 **W** - Woodgrain  
**S** - Solid  
**19** depth  
**30** width

### General information

Nuform Tops are available in single and double depths. **Note: Top will overhang lateral ½" front and back. If single-depth lateral is positioned flush against a wall, there will be a 1" overhang at the front.**

### Finishes

Available in solid and woodgrain finishes. Refer to Finishes section.

## Lateral Cushions

### How to order

1. Specify product number.
2. Specify upholstery name and number.

### General information

Cushion topper is a slimline 1 ¼" thick, 5-pce construction. All seams feature double row top stitching seen in fine upholstered pieces. The result provides crisp rectilinear styling. Interior is CAL 117 fire-retardant polyurethane foam with a 2.2 lb/ft density. This upholstered cushion is balanced with a 7/16" board and attaches to cabinet top with heavy duty Velcro.

### Upholstery

Select from our graded upholstery program of solid color fabrics and vinyls or choose COM option (Customers Own Material). To determine if a COM fabric has been pre-approved for use on our cushion topper, contact your Client Services Representative or go to [myinscape.com](http://myinscape.com). Refer to page 15 for additional layout and COM details. Due to the nature of the design and manufacture of our cushion, only approved fabrics will be accepted for application. For a description of the procedure required for COM fabric approval see sample 'Cushion COM Test Request' form found in the General Information section of this price list. This form can be downloaded from [Insite](#) or by contacting your Client Services Representative for assistance.

## Modular Towers

### How to order

1. Specify product number.

### Specification Guidelines

- A maximum of 6 CD compartments may be positioned inside MoPed, 3 on the top rail and 3 on the lower rail. Note: If CD compartments are positioned on top rail, top two slots in compartments are not accessible.
- Compartments and support brackets hook onto any one of three rails inside the drawer.
- Compartments may also be placed on lower level of drawer. 3 ¾" wide compartment may be placed into upper level of drawer.
- Although pencil tray is designed for use in upper compartment it will fit on lower level of drawer.

### Support Brackets

Adjustable posts on support brackets may be specified to hold objects from 1/16" to 3/4" thick in place.

or

Support brackets may be specified to suspend hanging files. Adjustable posts may be removed if brackets are specified for this application.

### How to order

1. Specify product number.

### General information

**Whiteboards** have raised edges at each end and include a separate 10 ½" wide marker tray. Whiteboards and marker trays are manufactured from steel and mount magnetically. Marker tray and side trim on whiteboards are field installed.

**Modular Towers Mobile Kit** comes with two locking swivel casters, two non-locking swivel casters and a counterweight. Mobile Kit can only be mounted on Office Specialty Modular Storage Towers with an exterior case height of 46 ½" or higher and having a pedestal drawer configuration that does not exceed 30" interior dimensional opening.

**Note: The mobile kit adds 3 ½" to the height.**

### Finishes

Whiteboards are powder coated in white paint specially formulated for dry erase markers. Marker tray and raised edges on whiteboard are finished in black.

**Note: Whiteboards are not intended for use with PERMANENT markers. Only Expo Markers are to be used on any Office Specialty Whiteboard. Whiteboards should be cleaned with Expo Eraser or a Microfiber cleaning cloth along with Expo Cleaning Solution which is formulated to remove residue from Expo Dry Erase Markers.**
