Installation

Terms and Conditions of Installation: Installation service is awarded at 10% - 29% of Net product price for standard installation. The exact percentage is quoted at the task order level depending upon standard installation variables. Rates in excess of 29% may be permitted under contract when the Contracting Officer finds that "extraordinary circumstances" are present. See Appendix A (follows) for examples of standard installation variables and extraordinary circumstances.

Additional terms:

The end-user, or their contractors, may not change the awarded terms of the installation task (e.g. stop the in-stall, change the location). If an unforeseen installation issue arises that would change the scope or add cost, Inscope reserves the right to stop work and immediately consult the Contracting Officer.

At the sole determination of the Contracting Office, for emergency product storage at the rate of 3% of product Net stored per month. Emergency product storage is defined as after the product is manufactured but is not able to be installed due to unforeseen end-user or building delay.

When required by the Scope of Work, but incidental to the overall furniture order, existing furniture reconfiguration and minor outside trade-work (e.g. small area carpet repair) is allowable as installation

Connection of the furniture to the building power is the responsibility of the client.

Appendix A

Installation Variables

Standard Variable Examples

Examples of installation variables that are considered standard but may necessitate a task quote at the higher end of the awarded rate range:

- Loading dock restrictions (limited dock access, size restrictions, no dock / street unload)
- Overly phased or piecemealed installation timeline or, conversely, overly compressed install timeline requiring multiple crews
- Requirement to work around other trades
- Restrictions on elevator use
- Lack of staging area
- Overly restrictive security requirements (extensive badging, line of sight supervision, mandatory escorting)
- Urban work in the business district of a major city (e.g. NY, LA, Chicago)
- Rural work more than 100 miles from an Authorized Inscape dealer
- Requirement of Prevailing Wage
- Exact delivery time for less than full tractor-trailer load
- Storage of product off-site for less than 30 days

Extraordinary Circumstances Examples

Extraordinary circumstances may necessitate a task quote at higher than the awarded rate. Any proposed work under extraordinary circumstances and must be reviewed and approved by the Contracting Officer. Examples include:

- Requirement of Union installers or the inclusion of other required tradesmen not part of Inscape's installer's personnel or subcontractors
- Requirement of installation during non-standard business hours. Standard installation hours are defined as 7:00am to 7:00pm on days of standard government operation.
- Requirement of installation above the ground floor without the use of an elevator
- Installation in facilities located Outside of the Continental United States
