Space for everything.

Why Office Specialty?

You spend a lot of time in the office, and we want to make sure you have the room to make it feel like your own space—comfortable and organized. Our approach to products is all about encouraging the well-being of everyone in a workplace environment, with solutions built to minimize clutter and foster beautiful collaborative workspaces.

Power of 1½

When office space is at a premium, every inch counts. Our case heights come in 1½ inch increments, letting you scale your storage to maximize capacity without sacrificing real estate. The 1½ inch increment is also a driving force in our workstation solutions.

Quality

Precisely crafted in North America, the exceptional quality of our products has been our focus for over 130 years. We are masters at metal work, dedicated to craftsmanship and sourcing only the finest materials to create long-lasting pieces with one simple purpose in mind—to help you create a space that you're most comfortable working in.

Adaptability

Companies grow, offices move, and workspaces are always transforming. We believe your storage solution should be able to keep up. With our modular interiors and inserts, you can retrofit cabinets with new accessories as you need them.

Customization

We want our clients to have the freedom to stay true to their design, especially if it's something completely out of the box. Along with thousands of finish options—including paint, laminate and Nuform—our team can work directly with you to build something entirely unique to fit your plan.

Crafted with care in North America.

Our Roots

Since 1888, we've been pioneers at building work space solutions to make our clients' lives easier. From our first wooden file cabinets to our latest selection of workbars and custom finishes, we've continued to proudly offer our top-quality office furniture with the highest standard of client care.

It's our specialty.

Our focus on quality doesn't stop at our products—it's built into how we care for our clients. Have a question or need help, please give us a call:

1-855-440-6446

Care & Maintenance

Care & Maintenance

The following information provides general guidelines for cleaning and maintaining all Office Specialty products.

Painted metal

- Clean painted metal surfaces with a soft damp cloth and warm soapy water
- Gently rub tougher grime away with a mild, non-abrasive household cleaning product
- Paint touch up kits are available for minor repairs
- **Note:** Most consumer cleaners may be used, always spot test products to ensure no hazing or softening the coated film takes place
- Mechanical parts require no lubrication or maintenance
- All parts are factory lubricated for a lifetime of superior performance

Nuform surfaces

Nuform Classic and Nuform Select surfaces are manufactured by thermoforming a polymer sheet around an MDF substrate. The polymer sheet is surface-coated with a scratch resistant film.

Nuform has a seamless edge that provides a clean aesthetic eliminating the need for an edge banding where bacteria, fungus and mold can penetrate and flourish.

- For general cleaning, use warm soapy water, a mild, non-abrasive household cleanser or a 10-20% bleach solution
- To remove stains like permanent marker use a cotton ball dampened with Acetone
- Tougher stains may be removed with methyl hydrate.
- Do not use abrasive cleaners or highly solvent based chemicals such as gasoline, acetone or toluene as they may scratch or affect the surface appearance
- Do not place hot appliances directly on Nuform surfaces
- Although Nuform is scratch resistant, avoid dragging sharp objects across the surface
- Light scratches may be buffed from the foil surface by using a 400-600 grit wet sandpaper under light hand pressure in circular motions or by using a 3M Scotch Brite Pad (green color only) under light hand pressure in circular motions.

Note: Under no circumstances should power buffing tools be used

- Chips and deep scratches may be repaired by a professional touch-up service. Minor imperfections should be addressed immediately as neglect can result in more serious problems that could void the warranty.
- Optimal storage temperature range for Nuform surfaces is 44°F to 86°F
- Avoid exposure to extreme heat, cold and humidity

Laminate surfaces

High pressure laminate is available for use on surfaces and accessories and is laminated to particleboard and includes a color coordinated edge banding.

- Dust off laminated surfaces prior to cleaning
- For general cleaning, use warm soapy water or a mild, non-abrasive household cleanser. Do not use a cleanser with acids or alkalis as this will damage the surface. Remember to wipe the surface with the grain using a dry soft cloth.
- An eraser may assist in removing ink marks
- Isopropyl alcohol or rubbing alcohol may be used to clean laminate surfaces
- Do not use abrasive cleaners or bleaching cleansers as they may scratch or affect the surface appearance
- Take note that any product with hydrochloric, sulfuric, or phosphoric acid may permanently damage the surface
- Although high pressure plastic laminates are resistant to scratching and wear, avoid dragging sharp objects across the surface
- Do not place hot appliances directly onto laminate surfaces
- Avoid exposure to extreme heat, cold or humidity

Wood

Wood is an option on the Angled Hip Leg Supports. Like all natural products, wood legs may vary slightly in grain, texture and color. For this reason, minor variations between pieces can be expected.

- Dust surface with a dry cloth in the direction of the grain
- For dirtier surfaces, use warm soapy water and a soft cloth
- Do not use abrasive cleaning products as they may scratch or affect the surface appearance.
- Although waxing and polishing is not necessary, waxing and polishing products may be applied if care is taken to avoid wax build-up which may cloud the finish
- Exposure to strong sunlight should be avoided since fading may result
- Avoid exposure to extreme heat, cold or humidity
- Avoid dragging sharp objects across the surface
- Chips and scratches may be repaired by a professional touch-up service

Fabric surfaces

- Vacuum or lightly brush fabrics to remove dirt build-up
- Promptly remove stains by blotting, not rubbing the fabric to retain pile texture
- Fabric may be cleaned with mild water-free solvents or water-based cleaning agents or foam
- Always follow the manufacturer's instructions and test clean a non-visible area first

Care & Maintenance

Glass surfaces

- Clean glass with a mild window cleaner

Acrylic surfaces

- Clean acrylic with a clean soft cloth and warm soapy water

Whiteboards/Dry Erase Boards

- Use only dry erase markers on boards
- Whiteboards are not intended for use with PERMANENT markers
- Clean boards with an eraser or microfiber cloth and cleaner that is formulated for whiteboards
- Office Specialty recommends using “Sanford Expo Dry Erase Markers” and “Sanford Whiteboard Cleaner”

Bin/shelf-mounted task light fixtures

- Include a 120v/60hz magnetic ballast. Replacements can be purchased from any electrical supply store.

PET surfaces

- PET products have been developed to be easily cleaned and maintained
- Simply remove dust and dirt with a stiff plastic bristle brush, or by vacuuming
- Distilled water can be used to remove any stains
- A 1:1 part bleach to warm water solution or a 3% hydrogen peroxide solution may be used to clean surface area
- Always use a soft, clean cloth and blot dry

Proper loading of lateral cabinets

To prevent tipping and possible injury...

1. Load cabinet starting at the bottom opening and work up. Reverse this procedure for unloading.
2. Wherever possible place heavier materials in the lower drawers.
3. Level the cabinet using the adjustable glides. Failure to level the cabinet correctly may result in cabinet malfunction.
4. Each cabinet is equipped with a patented Safelock™ interlock mechanism which prevents more than one drawer from being opened at a time. The interlock system must be kept in proper working order to ensure user safety.
5. Cabinets may be bolted together for additional stability. Counterweights may be required for cabinets that cannot be bolted together.

NL - St. Johns

*Date of departure may be any day in the acknowledged ship week ending.

Finishes

Finishes

Standard colors

We love color! At Office Specialty we are not afraid of color, we embrace it.

We offer a large variety of neutral and accent colors. Find the perfect color to match your personality.

All products are finished with a two-coat electrostatic enamel that provides a high-quality, fade and chip resistant surface with a gloss level of 37.5%. Refer to our current Paint Cards or Fans for standard color selection.

All interior drawer bodies, shelves, accessories and exposed hardware are finished in EcoBlack (excluding European style hinges and locks on the Storage with Handles and 9900 Series). Standard colors include a selection of mica/metallic colors available at no upcharge which is called the Neutral Collection. In addition, Office Specialty offers the Accent Collection; a line of beautiful, bright colors at an upcharge.

Custom (non-standard) colors

Office Specialty offers colors matched to a customer's specification when possible. This matching is done through a database of over 3,000 existing color formulas or the development of a new custom color. A \$324 net fee applies for each custom color per order. In addition, Custom Premium colors (bright whites and bright colors; textured paints; and reflection paints that use mica, aluminum or special chemical to create their reflective properties) will be subject to a 10% upcharge to the net value of the product per order.

Multi-color cabinets

For multi-color cabinets where the case is one color and the drawer fronts are a second color, a \$270 net fee applies per color per order. (Tie bars and reference shelves will be painted the same color as the case.). This charge is applicable for multi-color applications using Neutral, Accent or Custom paints. If using an Accent paint on a Multi-color cabinet, the standard Accent paint upcharge for the unit will also be applicable.

Note: Multi-color cabinets are not available on Storage with Handles.

Custom profile

Custom Profile lateral, pedestal and hinged door cabinets are complete assembled units without fronts. Specifiers may design their own cabinet fronts using a variety of materials.

Refer to the [Custom Profile section](#) for a selection of basic cabinets and preconfigured cabinets. Detailed shop drawings depicting drawer and door fabrication specifications are included in the Custom Profile section.

Office Specialty reserves the right to approve all requests for special finishes.

Nuform fronts & tops

Nuform is applied by heating the material and then bonded to MDF using a water-based adhesive.

The Nuform thermoforming technique bonds rigid thermofoil material to contoured surfaces, eliminating the seam lines associated with edge-banding and bull nosing that is characteristic of most laminates and veneers.

Its seamless edge provides a clean aesthetic with a continuous pattern and color repeat. The underside of the top is finished in a low pressure melamine.

Nuform Classic

Colorways	Product code
Sandstone	F123
Frosty White	F127
Designer White	F129

Pure Oak	F57
Holland Hickory	F58
Essential Oak	F59

Laminate common tops

Tops are self-edged, high pressure laminate with a backing sheet over a core of high density particle board. Tops are mounted onto cabinets using double sided tape which is included. Laminate is bonded to 1" thick particleboard. The underside of the worksurface is finished with a wood-fiber veneer backer. Worksurfaces specified with a laminate finish include a 2mm edge banding in a coordinating color. Plastic laminate tops do not have optional pencil groove.

Laminate worksurfaces

Laminate is bonded to 1.25" thick particleboard. The underside of the worksurface is finished with a wood-fiber veneer backer. Worksurfaces specified with a laminate finish include a 2mm edge banding in a coordinating color. Plastic laminate tops do not have optional pencil groove.

Code legend:

- LLC = HPL with matching edge band
- LIC = HPL with matching or plywood edge band
- OCC, OIC = HPL with self edge
- MCC = LPL with matching edge band

Note: The COM Calculator indicates:

1 cushion yeild per piece

Up to 2 cushion yeild per piece

Up to 3 cushion yeild per piece

How to calculate COM yardage refer to 'COM fabric calculator'

Input

1. Select cushion width and depth appropriate to your specification
2. Select cushion thickness
3. Select fabric orientation (refer to 'Cushion Layout' sketches)
4. Find the corresponding fabric quantity in 'running inches' from the table

Calculation

1. Multiply the number of cushions required by the fabric quantity in 'running inches' off of the table
2. Divide the number of running inches by 36 to convert to yardage required. Round up to the nearest half yard.
3. If a pattern repeat is required, ordering a sample cushion is advised to determine fabric yardage and any applicable upcharges. A layout instruction will also be required for review.

Example:

- Storage with Handles Pedestal
- Quantity - 31 cushions
- 15" wide x 22" deep x 1.25" thick
- COM fabric is a solid color and has no directional weave; best fabric usage is 'off the bolt' orientation.

Note: The COM Calculator indicates:

Up to 2 cushion yeild per piece

Calculation:

32 running inches x 16 cushions = 512" of fabric required

512" divided by 36 = 14yds, 8"

Total fabric required = 14 ½ yards (rounded up)

Additional Specification Information:

1. Pedestal Cushion Depth options vary by product profile and application. Ensure you are referencing the correct dimensions
2. Lateral Cushion Depth options vary by application Ensure you are referencing the correct dimensions
3. Fabric Quantity is based on a 54" wide roll
4. Highlighted rows yield 2 cushions per fabric quantity listed
5. All directional/patterned fabrics (Graded or COM) require cushion layout instructions with order placement. Depending on layout additional fabric may be required and upcharges may apply. If layout instructions are not provided the layout that maximizes the production yield will be chosen. (Refer to the layout diagrams)
6. For any cushion sizes not listed on the COM Calculator or for further information please contact your Client Service Representative for assistance

Fabric layout

Lateral cushion fabric layout

Pedestal cushion fabric layout

For COM fabric testing, please provide the following to your SRT – Customer Experience specialist:

- (4) memo samples of the fabric to be tested
- Product Code that the fabric is to be applied to

General testing turnaround times are 48 to 72 hours upon receipt of memos samples. Your Customer Experience specialist will provide the results of the application testing.

The Power of 1 1/2 inches

All Office Specialty laterals are manufactured in 1 1/2" increments allowing you to design storage that works for you.

With 42 different case heights ranging in size from 18" to 80", you can match virtually any panel, storage or worksurface height letting you create practically any design combination.

The Panel Height Compatibility Matrix shows Office Specialty's case heights against the most commonly used panel heights.

All non-standard (special) laterals, pedestals, etc.	To be advised by Engineering Specials Department		

*Notes:

Innviromass™ counterweight plates are be field installed into lateral file cabinets by inserting a 30", 36" or 42" wide retaining wire into holes in the left and right hand rear strips. To accommodate these wires, the .141" diameter holes in rear strips have been changed to .148" diameter.

Innviromass™ counterweight plates are to be field installed into Mobile pedestals (except Storage with Handles) using one security bracket and two strips of double-coated tape for each counterweight plate. The security bracket and double-coated tape is supplied with the counterweight, but must be applied to the counterweight in the field per the Counterweight Installation Instruction sheet.

The Innviromass™ counterweights for field installation 'IMCW-30, IMCW-36 & IMCW-42' consist of one Innviromass plate and one retaining wire.

- The 'CW' counterweight for field installation consists of two 24LB steel plates
- The 'WS-CW' counterweight for field installation consists of one 16LB steel plate
- The 'PM-CW' counterweight for field installation consists of one 24LB Innviromass™ plate, one security bracket and two strips of double-coated tape.
- The 'PM-CW79' counterweight for field installation consists of one 24LB steel plate
- The 'PFCW' counterweight for field installation consists of two 16LB steel plates
- The 'PFCW3' counterweight for field installation consists of three 16LB steel plates

Any non-standard (special) lateral file cabinet, pedestals, vertical etc. for which there is a requirement for counterweights must be reviewed by the Engineering specials department before the order is released to Production. This applies to new product requests AND product that has been ordered in the past.

At this time, counterweights for Lockers, Towers and Modular Towers (except double-pedestal Modular Tower) are not available. Any requests for these products with a counterweight must be routed to the Engineering Specials Department.

2Stor

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example
2SMC-1020

- 2S** 2Stor
- MC** mobile caddy
- 10** caddy width
- 20** caddy height

Caddy includes removable tray with soft landing in Pure Black PET01

Tray is magnetic and can be removed for safe storage

Casters move in a forward/backward motion for easy access to personal items. The 4 casters are field installed.

Finishes

Available in Office Specialty's standard finishes. Refer to [Finishes section](#) for finish options for caddy and tray.

	Description	Part number	Height	Width	Depth	Weight	Neutral point/ base price	Accent point	Tray Accent point
	2Stor Caddy	2SMC-1020	20.25"	10"	19.5"	20.1	\$249	+\$19	+\$7

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 2S1215-BOM

- 2S** 2Stor
12 pedestal width
15 pedestal depth
BOM box/open mobile

Pedestals are constructed of steel and can be optioned in any of Office Specialty's standard paint colors

Optional locking for box drawers only

Classic Cushion included

Optional PET Soft Landing available on select pedestals (black only)

Push to open slides – push circle to open and close (full extension)

For RK1215-BFM5, front three casters are fixed, rear two casters swivel

Lock option

Storage drawers come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$57 list

Finishes

Available in Office Specialty's standard finishes. Refer to [Finishes section](#) for finish options for case and fronts. Drawer bodies and accessories are finished in Eco Black. Case and drawers can be specified with two different neutral paint colors at no upcharge.

Description	Part number	Height	Width	Depth	Classic cushion grade A/ Neutral paint/ Base price	PET Soft Landing upcharge	Case accent paint upcharge	Drawer accent paint upcharge

9900 Series Pedestals

9900 Series Pedestals

ANSI/BIFMA

With the addition of counterweights where appropriate, pedestals meet all ANSI/BIFMA specifications.

Construction

Pedestals are welded, “wrap-around” construction. 9900 Series pedestals use 18 and 20 gauge steel. All pedestals use high quality, tension level, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. “Wrap-around” construction with no visible vertical seams gives a clean appearance.
2. Completely enclosed case provides rigid construction and dust-free interiors.
3. Box drawer sides are slotted on 1” centers to allow for maximum flexibility for drawer division.
4. File (10½” and 12”) drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
5. Fully-progressive ball bearing suspensions on all drawers, including pencil and box drawers, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
6. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
7. Special “claw-like” device incorporated in the suspension “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
8. Casters and glides are both recessed “inboard” for a uniform exterior appearance with no visible hardware.
9. Modular interior allows for complete interchangeability of drawer types within the pedestal case. For example, two 6” box drawers may be replaced by one 12” file drawer.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights come standard with ALL mobile pedestals and must be field installed.

Optional Handle

Mobile Pedestals have the option to select a face mounted contemporary style handle for the case. There is an upcharge of \$32 list if this handle is selected. This handle is available in two finish options: Brushed Nickel (default) or Polished Nickel.

Casters

Four swivel, recessed 1⅝” black, double-wheel phenolic carpet casters are supplied with mobile pedestals and must be field installed. Recessed casters are not visible.

Drawer Standard Equipment

15” letter width storage drawers: 3” pencil drawer, 6” box drawer, 10½” and 12” file drawer are standard.

Pedestals containing 3” or 6” drawers have the option to order one pencil tray per pedestal. 6” drawers have the additional option to order one steel divider.

10½” and 12” letter-width file drawers have the option to order suspension bar (two in a 28” deep pedestal) for side-to-side filing of legal or letter-size folders.

Bases

Optional base aprons are available in 2 standard heights and are screwed to the underside of the pedestal case. Bases may be easily added or changed on site. When ordered, shipped with bases installed.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to ⅝” by extending standard glide. Glides are accessible from inside the pedestal when the bottom drawer is fully extended or removed and may be adjusted with a ¼” socket driver.

Optional 1½” stem glides are available. Specify separately and add \$30 list to the pedestal price. Requires field installation.

Locks

Pedestals come standard with lock. If lock is not required add suffix ‘/NL’ after product number. Deduct \$57 list per lock. For lock location, see the guide at the beginning of this price list. Mobile pedestals must include locks.

Random keying is standard. Pedestals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Pedestals originally ordered as non-locking may be field installed with the addition of locking bars and a lock core.

Please contact Client Services for assistance.

Master keys are available at \$51 list.

Finishes

Refer to [Finishes section](#) for color options. For lock finish options, refer to the front of this price list.

Drawer Pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

9900 Series Pedestals

Freestanding, Letter Width

How to order

9900 Series Pedestals

Freestanding, Letter Width

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 1522E-4BM

- 15** pedestal width
22 pedestal depth
E 9900 Series
4B 4 box drawers
M mobile

Pedestals are standard with either glides or casters. Exterior pedestal heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. **Pedestal depths are nominal. Actual depth for 9900 Series are $\frac{3}{4}$ " more than noted.** Casters must be field installed.

Optional handle for mobile cushion pedestals, \$32 list.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Counterweights are standard with all mobile pedestals and must be field installed. See [Counterweight matrix](#).

See [Pedestal Accessories](#) section for counterweight codes and pricing.

Lock option

Pedestals come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

Optional Accessories

All pedestal accessories are optional. See chart below for information on accessories by drawer height.

Drawer Height	Product Code	Product Description	Price
3" & 4.5"	WS-PTxx	Pencil Tray	\$37
6" & 7.5"	WS-PTxx	Pencil Tray	\$37

9900 Series Pedestals

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 1522E-BFMC

- 15** pedestal width
- 22** pedestal depth
- E** 9900 Series
- B** box drawer
- F** 12" file drawer
- M** mobile
- C** cushion

Pedestal depths are nominal. Actual depth 9900 Series are 3/4" more than noted.

Mobile Cushion Pedestals have two cushion options; Classic or Lite.

The **Classic Cushion** is 1 1/4" thick CAL 117 compliant polyurethane foam with a 2.3 lb/ft. density. This upholstered cushion is balanced with a 7/16" board and is attached to the pedestal top with heavy duty Velcro. The 5-pc construction, features double row top stitching on all seams, seen in fine upholstered pieces. The result provides crisp rectilinear styling.

The **Lite Cushion** is 3/4" thick CAL 117 compliant polyurethane foam with a 2.3 lb/ft. density. This upholstered cushion is balanced with a 1/4" board and is attached to the pedestal top with Velcro. Our Lite Cushion has seamless features allowing it to highlight the fabric details. The result provides a modern and simple look. The Lite Cushion is available in the following Grade A fabrics only: Fedora, Glint, Pebble, Rancho & Script

For application of ALL fabrics, both from our graded program as well as COM (customers own material), please specify layup orientation at time of order. If layup instructions are not provided we will choose the direction to maximize our production. Refer to page 15 for additional layout and COM details.

Casters must be field installed.

Optional face-mounted contemporary style handle available for mobile cushion pedestals, \$32 list. Handle is available in two finish options: Brushed Nickel (default) or Polished Nickel.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Counterweights are standard with all mobile pedestals and must be field installed. See [Counterweight matrix](#).

See [Pedestal Accessories](#) section for counterweight codes and pricing.

Lock option

Pedestals come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$57 list.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

Optional Accessories

All pedestal accessories are optional. See chart below for information on accessories by drawer height.

Drawer Height	Product Code	Product Description	Price

9900 Series Laterals

9900 Series Laterals

ANSI/BIFMA

With the addition of counterweights where appropriate, lateral files meet all ANSI/BIFMA specifications.

Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality, durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case fronts, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Full width pulls allow lift-up doors and drawers to be opened from any position.
4. Rigid construction allows lift-up doors to be picked up and retracted smoothly from any point, eliminates deformation, ensures flush fit within the cabinet and improves lock performance.
5. Lift-up door carrier mechanism has four nylon rollers, two on each side, for smooth retracted action with no binding or snagging.
6. Front leading edge of pullout shelves is beaded and rolled to provide grip for pullout action and to strengthen shelf; front leading edge of fixed shelf is flat for easy removal of material.
7. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
8. Special Claw-like device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
9. Lock bars operate vertically on both sides of the cabinet for maximum security.
10. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
11. Plastic buttons in side gables of case where top sections of lift-up doors recede into the cabinet eliminate metal-to-metal contact.
12. Plastic buttons in the ends of each drawer and door front eliminates metal-to-metal contact between cabinet sides and closed drawers.
13. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

Bases

Optional base aprons are available in two heights and are screwed to the underside of the cabinet. Bases may be easily added or changed on site. Cabinets are shipped with bases installed when ordered.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or single pullout shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3" and 4½" drawers, immediately become inoperable. Safelock is standard on all lateral files. The only exceptions are the 3" and 4½" drawers and the upper shelf in a two pullout shelf opening.

Drawer Standard Equipment

Pullout drawers and shelves are standard with one pair hangfile bars for side-to-side suspended filing. Fixed shelves are standard with 3 plate dividers. Optional accessories are available.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 5/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1½" stem glides are available. Specify and add \$30 list to the cabinet price. Requires field installation.

Locks

Cabinets come standard with lock. If lock is not required add suffix 'NL' after product number. Deduct \$57 list per lock. For lock location, see diagrams at the front of this price list.

Note: 3" and 4½" drawers, when located immediately above a case bottom, tie bar shelf or reference shelves cannot be locked.

Random keying is standard. Files may be ordered keyed alike. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Office Specialty Client Services for required parts.

Master keys are available at \$51 list.

Lateral file tops

Refer to [Accessories section](#) to order Laminate and Nuform tops.

Finishes

Refer to [Finishes section](#) for color options. For lock finish options, refer to the front of this price list.

Drawer Pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

Pre-configured
8 high

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 36-60-8B7E

- 36** cabinet width
- 60** interior height
- 8** number of drawers
- B7** 7.5" box drawer
- E** 9900 Series

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. Cabinets are priced inclusive of 1 pair of hangfile bars in each pullout opening and fixed shelves are standard with 3 plate dividers. 7.5" box drawers come with 3 dividers in 30" wide drawers, 4 dividers in 36" wide drawers and 5 dividers in 42" wide drawers.

Cabinets are 18" in depth.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Accessories

See [Lateral File Accessories](#) section for counterweights and accessories.

Lock option

Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

9900 Series Laterals

Freestanding, Letter Width Mailroom Units with SuperStor™ Insert

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 36615-SS3FE

- 36** cabinet width
- 615** interior height
- SS** SuperStor™ insert
- 3** number of drawers
- F** 12" file drawer
- E** 9900 Series

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. 25 $\frac{1}{2}$ " and 51" SuperStor inserts have three vertical compartments with slots at 1" increments. Each compartment in the 25 $\frac{1}{2}$ " insert holds 22 trays. Each compartment in the 51" insert holds 48 trays. SuperStor trays, **which are sold separately** slide into the slots. Tray fronts angle downwards $\frac{1}{2}$ " to permit labeling. Cabinets are priced inclusive 1 pair of hangfile bars in each pullout opening.

Cabinets are 18" in depth.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Accessories

See [Lateral File Accessories](#) section for counterweights and accessories.

Lock option

Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

Verticals

Verticals

ANSI/BIFMA

With the addition of counterweights where appropriate, verticals meet all ANSI/BIFMA specifications.

Construction

Vertical files are of all-welded construction using high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. "Wrap-around" construction with no visible vertical seams gives a clean appearance, providing rigid construction and dust-free interiors.
2. Verticals have sound-absorbing materials for quieter operation – a particular asset in open plan environments.
3. Drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
4. Drawer sides are slotted on $\frac{3}{4}$ " centers to allow for maximum flexibility for drawer division. Compressors are optional. Verticals may be ordered with or without compressors in each drawer.
5. Fully-progressive ball bearing suspensions, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
6. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
7. Special "claw-like" device incorporated in the suspension "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.

Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer is extended, even fractionally, Safelock ensures that all other drawers immediately become inoperable. Safelock is standard on all vertical files.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the file case. Bases may be easily added or changed on site. Vertical files are shipped with bases installed when ordered.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to $\frac{5}{8}$ " by extending standard glide. Glides are accessible from inside the vertical file when the bottom drawer is removed and may be adjusted with a $\frac{1}{4}$ " socket driver.

Locks

Vertical files come standard with lock. If lock is not required add suffix '**NL**' after product number. Deduct \$57 list per lock. For lock location, see the guide at the beginning of this price list.

Random keying is standard. Verticals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Office Specialty Client Services for required parts.

Master keys are available at \$51 list. For lock finish options, refer to the front of this price list.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

Sizes

Vertical files are 28 $\frac{3}{4}$ " deep and are available in the following sizes:

No. of Drawers	Letter Width	Legal Width	Exterior Height
2	15"	18"	26 $\frac{7}{8}$ "
3	15"	18"	38 $\frac{7}{8}$ "
4	15"	18"	50 $\frac{7}{8}$ "
5	15"	18"	55 $\frac{3}{8}$ "

Drawer Pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

Verticals

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example V1828E-4FCP

V	vertical file
18	18" (legal) width
28	28" nominal depth
E	9900 Series
4F	number of file drawers
CP	with compressors™

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. **Vertical depths are nominal. Actual depth for 9900 Series are $\frac{3}{4}$ " more than noted.** File drawers accept hanging file folders. Bottom filing is accommodated in cabinets with compressors which are pre-installed in each drawer (suffix **CP**).

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Accessories

See [Vertical File Accessories](#) section for counterweights and accessories.

Lock option

Verticals come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list.

Build-Ups

Build-Ups

OS Build-Ups allow you to create a completely customized storage solution, from the ground up. Simply select your case size, choose your interior components and then add some accessories. Cases and interior components are available in a variety of color combinations to create any look you need.

ANSI/BIFMA

With the addition of counterweights where appropriate, lateral files meet all ANSI/BIFMA specifications.

Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality, durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case fronts, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Full width pulls allow lift-up doors and drawers to be opened from any position.
4. Rigid construction allows lift-up doors to be picked up and receded smoothly from any point, eliminates deformation, ensures flush fit within the cabinet and improves lock performance.
5. Lift-up door carrier mechanism has four nylon rollers, two on each side, for smooth receding action with no binding or snagging.
6. Front leading edge of pullout shelves is beaded and rolled to provide grip for pullout action and to strengthen shelf; front leading edge of fixed shelf is flat for easy removal of material.
7. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
8. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
9. Lock bars operate vertically on both sides of the cabinet for maximum security.
10. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
11. Plastic buttons in side gables of case where top sections of lift-up doors recede into the cabinet eliminate metal-to-metal contact.
12. Plastic buttons in the ends of each drawer and door front eliminates metal-to-metal contact between cabinet sides and closed drawers.
13. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the cabinet. Bases may be easily added or changed on site. Cabinets are shipped with bases installed when ordered.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or single pullout shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3" and 4 1/2" drawers, immediately become inoperable. Safelock is standard on all lateral files. The only exceptions are the 3" and 4 1/2" drawers and the upper shelf in a two pullout shelf opening.

Drawer standard equipment

Pullout drawers and shelves have optional hangfile bars for side-to-side suspended filing. Fixed shelves have optional plate dividers. Additional optional accessories are available.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 3/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available. Specify separately and add \$30 list to the cabinet price. Requires field installation.

Locks

Cabinets come standard with lock. If lock is not required add suffix 'N/L' after product number. Deduct \$57 list per lock. For lock location, see diagrams at the front of this price list.

Note: 3" and 4 1/2" drawers, when located immediately above a case bottom, tie bar shelf or reference shelves cannot be locked.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Office Specialty Client Services for required parts.

Master keys are available at \$51 list.

Lateral File Tops

Refer to [Accessories section](#) to order Laminate and Nuform tops.

Finishes

Refer to [Finishes section](#) of this price list. For lock finish options, refer to the front of this price list.

Drawer pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

Build-Ups

Basic Lateral Cabinets

How to order

1. Specify basic cabinet product number.
2. Specify cabinet interiors from TOP to BOTTOM.
3. Specify accessories, refer to [Accessories section](#).
4. Specify finish color.
5. Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list

Product code key example

30-15E

- 30 cabinet width
15 cabinet interior clear height including tie bar
E 9900 Series

$\frac{5}{8}$ " glides are standard and can be used with or without base aprons. Total of interior components specified must equal interior case height. $1\frac{1}{2}$ " for structural tie bar must be added to interior components that total $61\frac{1}{2}$ " or more.

Cabinets are 18" in depth.

Tie bar is not required:

- For 9900 Series if build-up includes hinged door insert, fixed shelf or SuperStor™ insert in the top opening.

Note: Exterior cabinet heights shown above are nominal. Actual heights, with glides fully recessed, are $\frac{1}{8}$ " less. Cabinets are 18" deep.

A standard $1\frac{1}{2}$ " structural tie bar will be provided by the factory in all cabinets with $64\frac{3}{8}$ " or more exterior height. The tie bar is usually positioned ± 36 " from the bottom of the cabinet.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

How to order

1. Specify basic cabinet product number.
2. Specify cabinet interiors from TOP to BOTTOM.
3. Specify accessories, refer to [Accessories section](#).
4. Specify finish color.
5. Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list

Product code key example

30-15E

- 30** cabinet width
15 cabinet interior clear height including tie bar
E 9900 Series

$\frac{5}{8}$ " glides are standard and can be used with or without base aprons. Total of interior components specified must equal interior case height. $1\frac{1}{2}$ " for structural tie bar must be added to interior components that total $61\frac{1}{2}$ " or more.

Cabinets are 18" in depth.

Tie bar is not required:

- For 9900 Series if build-up includes hinged door insert, fixed shelf or SuperStor™ insert in the top opening.

Note: Exterior cabinet heights shown above are nominal. Actual heights, with glides fully recessed, are $\frac{1}{8}$ " less. Cabinets are 18" deep.

A standard $1\frac{1}{2}$ " structural tie bar will be provided by the factory in all cabinets with $64\frac{3}{8}$ " or more exterior height. The tie bar is usually positioned ± 36 " from the bottom of the cabinet.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Product code key example

30-63ESB

- 30** cabinet width
63 cabinet interior clear height including sliding security bar
E 9900 Series
SB sliding security bar

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Finishes

Refer to [Finishes section](#) for color options. Sliding security bar and hinges are the same finish as the case. Drawer bodies and accessories are finished in Eco Black.

Important

These are available in Storage Centers and 9900 Series only. Security lock bars cannot be field installed. Tie bar, filler panel, hinged door inserts and SuperStor™ inserts cannot be specified as cabinet interiors. Reference shelf cannot be positioned above or below the security bar.

The security lock base 1 1/2" high.

Note: Exterior cabinet heights shown are nominal. Actual heights, with glides fully recessed, are 1/8" less. Cabinets are 18" deep.

Cabinets come with piano style hinges, a 1/2" sliding security bar and a lock hook with double sided tape.

How to order

1. Specify basic cabinet product number followed by drawer and shelf interiors with their accessories (see [Accessories section](#)) in order from TOP to BOTTOM, indicating which interior is in the top position. Interiors may be specified in almost any combination to make up the TOTAL INTERIOR HEIGHT.
2. Specify finish color

Product code key example

12LUE-36

- 12** module height
LU lift up front
E 9900 Series
36 width

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

Optional Accessories

Accessories are optional for all items on this page. Available accessories are outlined with each set of product codes.

Note: Sliding Rails must be used in conjunction with Hangfile Bars.

Visit the Lateral File [Accessories section](#) for full accessory details.

Interiors may be specified in almost any combination to make up the TOTAL INTERIOR HEIGHT.
2. Specify finish color

Product code key example 24SS-36

24 module height
SS SuperStor™ insert
36 width

A hinged door insert includes a bottom shelf. This means that the insert door height and usable interior space is actually 1 ½" less than the heights noted in the descriptions.

SuperStor™ inserts are designed exclusively to fit inside 36" wide cabinets. SuperStor™ inserts are built with a horizontal support at the base of the unit which functions as a tie bar. Depending on the components specified for the cabinet interior an additional tie bar need not be specified if the specified components fill the cabinet interior. SuperStor™ tray fronts angle downwards ½" to permit labeling. **SuperStor™ trays are sold separately.**

Lock option

SuperStor™ inserts with hinged doors come standard with lock. If lock is not required add suffix **'/NL'** after product number. Deduct \$57 list.

Note: Locks cannot be field installed on hinged door cabinets.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

Description	Part number	Exterior Height	Width	Weight (lbs)	9900 series/ Neutral paint	Accent paint

How to order

1. Specify basic cabinet product number followed by drawer and shelf interiors with their accessories (see [Accessories section](#)) in order from TOP to BOTTOM, indicating which interior is in the top position. Interiors may be specified in almost any combination to make up the TOTAL INTERIOR HEIGHT.
2. Specify finish color

Product code key example

51SS-36

- 51 module height
SS SuperStor™ insert
36 width

SuperStor™ inserts are designed exclusively to fit inside 36" wide cabinets. SuperStor™ inserts are built with a horizontal support at the base of the unit which functions as a tie bar. Depending on the components specified for the cabinet interior an additional tie bar need not be specified if the specified components fill the cabinet interior. SuperStor™ tray fronts angle downwards ½" to permit labeling. **SuperStor™ trays are sold separately.**

A hinged door insert includes a bottom shelf. This means that the insert door height and usable interior space is actually 1 ½" less than the heights noted in the descriptions.

Lock option

SuperStor™ inserts with hinged doors come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list.

Note: Locks cannot be field installed on hinged door cabinets.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black. SuperStore and trays are Onyx only.

Towers & Lockers

Our Modular Towers can be outfitted to hold anything—coats, shoes, tech, you name it. Choose from open storage, closed storage or both, find the right fit for you. All of the Office Specialty Modular Towers have a chamfered (beveled) corner detail. This biophilic design element offers a clean look to each corner of the tower.

ANSI/BIFMA

With the addition of counterweights where appropriate, Modular Towers meet all ANSI/BIFMA specifications.

Construction

Modular Towers and hinged door cabinets are constructed using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Case corners are strengthened with a reinforcing zinc die cast corner bracket.
3. Absence of scissor mechanism in doors and drawers eliminates the potential for scissors binding and facilitates reconfiguration of cabinet openings as needed.
4. Box drawer sides are slotted on 1" centers to allow for maximum flexibility for drawer division.
5. Box drawer side double-wall construction provides clean appearance and enclosed divider slots.
6. File drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
7. Front leading edge of shelf is flat for easy removal of material.
8. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
9. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
10. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

Drawer pulls

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

Safelock™

The patented Safelock™ mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or single pullout shelf is extended, even fractionally, Safelock™ ensures that all other openings immediately become inoperable. Safelock™ is standard on all towers.

Counterweights

See [Counterweight matrix](#).

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 3/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1/2" stem glides are available. Specify separately and add \$30 list to the cabinet price. Requires field installation.

Locks

Modular Towers come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list per lock. For lock location, see guide at the beginning of this price list.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Master keys are available at \$51 list. For lock finish options, refer to the front of this price list.

Finishes

Refer to [Finishes section](#) for color options.

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example MR2446E-F10F

M	Modular Series
R	right-handed door
24	tower width
46	interior height
E	9900 Series
F10	10 1/2" file drawer
F	12" file drawer

Exterior cabinet heights are actual heights with glides fully recessed. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10 1/2" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders. Hinged doors are standard with self closing European style hinges and open 110°.

A hinged door insert includes a bottom shelf. This means that the insert door height and usable interior space is actually 1 1/2" less than the heights noted in the descriptions.

Lock option

Modular towers come standard with lock. If lock is not required add suffix '**/NL**' after product number. Deduct \$57 list per lock.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Accessories

Refer to [Accessories section](#) for options.

Finishes

Refer to [Finishes section](#) for color options. Interior drawer bodies and shelves are finished in Eco Black. Bookshelves in side access towers are the same finish as the case.

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example

MR2460E-P10FK

M	Modular Series
R	right-handed door
24	tower width
60	interior height
E	9900 Series
P	pencil drawer
F10	10 ½" file drawer
F	12" file drawer
K	bookcase

Exterior cabinet heights are actual heights with glides fully recessed. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10½" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders. Hinged doors are standard with self closing European style hinges and open 110°.

Lock option

Modular towers come standard with lock. If lock is not required add suffix **'/NL'** after product number. Deduct \$57 list per lock.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Accessories

Refer to [Accessories section](#) for options.

Finishes

Refer to [Finishes section](#) for color options. Interior drawer bodies and shelves are finished in Eco Black. Bookshelves in side access towers are the same finish as the case.

Spruce up any space with personal storage options that are durable, secure and stylish. Our lockers and towers can be outfitted to hold anything—coats, shoes, tech, you name it. Design them to blend in or stand out with loads of color options.

Construction

Cabinets are of all-welded construction using high quality, tension leveled cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case fronts, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Absence of scissor mechanism in doors and drawers eliminates the potential for scissors binding and facilitates reconfiguration of cabinet openings as needed.
4. Units have sound-absorbing materials for quieter operation — a particular asset in open plan environments.
5. Box drawer sides are slotted on 1" centers to allow for maximum flexibility for drawer division.
6. Box drawer side double-wall construction provides clean appearance and enclosed divider slots.
7. File drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
8. Front leading edge of fixed shelf is flat for easy removal of material.
9. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
10. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
11. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
12. Shorter hinged door unit is equipped with one adjustable shelf, slotted on 1" centers for dividers.
13. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.
14. All Lockers, with the exception of the 26 7/8" high locker, have ventilation holes in the top of the cabinet to enhance air circulation within the full-height door and the shorter hinged door sections.
15. 30" and 36" wide Lockers have ventilation holes along the length of the full-height door. The liner or inside of the front is offset to eliminate sight-lines into the cabinet. 24" and 42" wide Lockers do not have ventilation holes in the full-height door.
16. Lock bars operate vertically on both sides of the cabinet for maximum security.

Drawer construction

9900 Series fronts have full width integral pulls with enamel finish to match case fronts.

Safelock™

The patented Safelock mechanism is standard on the 42" wide Locker and on Lockers that have more than one file (10 1/2" and 12") drawer. It provides complete security against accidental opening of two or more drawers simultaneously. When any drawer is extended, even fractionally, Safelock ensures that all other openings immediately become inoperable.

Counterweights

See [Counterweight matrix](#).

Drawer standard equipment

Lockers containing 3" or 6" drawers are provided with one pencil tray per cabinet. 6" drawers are additionally standard with one steel divider. 10 1/2", 12" and 15" letter-width file drawers have one suspension bar for side-to-side filing of letter or legal-size folders.

Full-width pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Full-width fixed shelves are standard with 3 plate dividers. Optional accessories are available.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 3/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available. Specify separately and add \$30 list to the cabinet price. Requires field installation.

Locks

Lockers come standard with lock. If lock is not required add suffix **'/NL'** after product number.

Deduct \$57 list per lock. For lock location, see guide at the beginning of this price list. Locks are available in Chrome and Black finish. Specify.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Office Specialty Client Services for required parts. Specify lateral file height and width or model number.

Master keys are available at \$51 list.

Finishes

Refer to the [Finishes section](#) of this price list.

How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

Product code key example

VL121839E-HD

V	locker
L	left handed
12	cabinet width
18	nominal cabinet depth
39	interior height
E	9900 Series
HD	hinged door

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less.

Adding rectangular glides increases exterior height.

Hinged doors are standard with self-closing European style hinges that open 110°.

Shelves are slotted every 1 $\frac{1}{2}$ " and are height adjustable in 1 $\frac{1}{2}$ " increments. Shelf dividers are not included. See [Accessories section](#).

Accessories

Refer to [Accessories section](#) for options.

Lock option

Modular towers come standard with lock. If lock is not required add suffix **'/NL'** after product number. Deduct \$57 list per lock.

Finishes

Refer to [Finishes section](#) for color options. Interior drawer bodies and shelves are finished in Eco Black.

Product code key example VL121839Q-HD

V	locker
L	left handed
12	cabinet width
18	nominal cabinet depth
39	interior height
Q	Nuform
HD	hinged door

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less.

Hinged doors are standard with self-closing European style hinges that open 110°.

Shelves are slotted every 1 $\frac{1}{2}$ " and are height adjustable in 1 $\frac{1}{2}$ " increments. Shelf dividers are not included. See [Accessories section](#).

Optional shelves or coat rod with shelf can be selected.

NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.

Accessories

See [Accessories section](#) for counterweights and accessories.

Lock option

Lockers come standard with lock.

If lock is not required add suffix '/NL' after product number. Deduct \$57 list per lock.

eLocks

Nuform Lockers are available with an eLock option. Add \$411 to list price for eLock.

eLocks are powerful and offer easy administration with Smartphone App. They have all metal construction with motorized locking bolt. The locker can be accessed with the keypad or the free app.

eLocks come in two types:

- Single-use (i.e. hotel safe)
- Multi-use (i.e. company employee)

eLocks come in two locking bolt styles:

- Deadbolt (check to lock)
- Slam (automatically locks after 3 seconds)

Note that the Slam style locking bolt is only available with the Multi-Use eLock type.

Finishes

Refer to [Finishes section](#) for finish options for case and Nuform fronts. Drawer bodies and accessories are finished in Eco Black.

L	left handed
12	cabinet width
18	nominal cabinet depth
39	interior height
Q	Nuform
HD	hinged door

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less.

Hinged doors are standard with self-closing European style hinges that open 110°.

Shelves are slotted every 1 $\frac{1}{2}$ " and are height adjustable in 1 $\frac{1}{2}$ " increments. Shelf dividers are not included. See [Accessories section](#).

Optional shelves or coat rod with shelf can be selected.

NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.

Accessories

See [Accessories section](#) for counterweights and accessories.

Lock option

Lockers come standard with lock.

If lock is not required add suffix '/NL' after product number. Deduct \$57 list per lock.

eLocks

Nuform Lockers are available with an eLock option. Add \$411 to list price for eLock.

eLocks are powerful and offer easy administration with Smartphone App. They have all metal construction with motorized locking bolt. The locker can be accessed with the keypad or the free app.

eLocks come in two types:

- Single-use (i.e. hotel safe)
- Multi-use (i.e. company employee)

eLocks come in two locking bolt styles:

- Deadbolt (check to lock)
- Slam (automatically locks after 3 seconds)

Note that the Slam style locking bolt is only available with the Multi-Use eLock type.

Finishes

Refer to [Finishes section](#) for finish options for case and Nuform fronts. Drawer bodies and accessories are finished in Eco Black.

3. Specify options.

Product code key example TR24405E-PF10

T	locker
R	right-handed door
24	tower width
405	interior height
E	9900 Series
P	pencil drawer
F10	10 1/2" file drawer

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less.

Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. 10 1/2" and 12" drawers have one sliding rail for side-to-side filing of letter size folders or printout binders.

Hinged doors are standard with self closing European style hinges and open 110°.

A hinged door insert includes a bottom shelf. This means that the insert door height and usable interior space is actually 1 1/2" less than the heights noted in the descriptions.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

See [Counterweight matrix](#).

Lock option

Multi-Use Lockers come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list per lock.

Finishes

Refer to [Finishes section](#) for color options. Interior drawer bodies and shelves are finished in Eco Black. Bookshelves in side access towers are the same finish as the case.

Bookcases & display cabinets

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 3034.5-2BK15

- 30** cabinet width
- 34.5** interior height
- 2** number of shelves
- BK** bookcase
- 15** cabinet depth

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less. Bookcases are standard with adjustable non-slotted shelves.

Finishes

Case interior and shelves match case interior paint color. Refer to [Finishes section](#) for color options.

Description	Part number	Exterior Height	Width	Depth	Weight (lbs)	Neutral paint/ base price	Accent paint

Bookcases & display cabinets

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 36-2MS

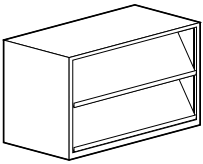

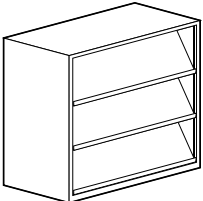

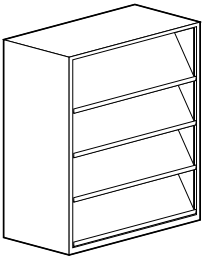

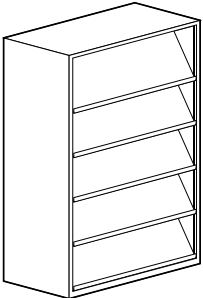

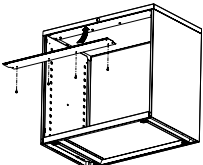

- 36** cabinet width
2 number of shelves
MS display shelf

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less.

Display Cabinets offer addition storage behind the lift-up display shelves.

Finishes

Case interior and shelves match case interior paint color. Refer to [Finishes section](#) for color options.

	Description	Part number	Exterior Height	Width	Depth	Weight (lbs)	Neutral paint/ base price	Accent paint
	2 high display cabinet with sloped display shelves	30-2MS	26 $\frac{7}{8}$ "	30"	18"	100	\$787	+\$83
		36-2MS	26 $\frac{7}{8}$ "	36"	18"	125	\$832	+\$87
		42-2MS	26 $\frac{7}{8}$ "	42"	18"	135	\$915	+\$94
	3 high display cabinet with sloped display shelves	36-3MS	38 $\frac{7}{8}$ "	36"	18"	100	\$1127	+\$115
	4 high display cabinet with sloped display shelves, no tie bar	36-4MS	52 $\frac{3}{8}$ "	36"	18"	130	\$1442	+\$145

Waste & Recycle Bins

Waste & Recycle Bins

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example V1518EM-F24R

V	vertical file
15	width
18	depth
EM	9900 series front
F	Fixed front
24	interior dimension
R	recycling unit

Our Waste + Recycle helps to create a cleaner, more attractive space while optimizing limited real estate in the workplace. It is designed for collaborative spaces, cafés, lunch rooms, or anywhere you would like to encourage recycling. Featuring a pull-out drawer, users can easily access the included 41 quart plastic bins, making emptying them easy.

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. **Vertical depths are nominal. Actual depth for 9900 Series are $\frac{3}{4}$ " more.**

Counterweights

Counterweights **MUST** be specified separately if the Waste & Recycling Bins are used in a freestanding application. See [Counterweight matrix](#). Add \$144 for a counterweight.

Accessories

See [Vertical File Accessories](#) section for counterweights and accessories. Clear plastic label holders are available at no charge.

Lock option

A lock is not included with these cabinets.

Finishes

Available in all standard paint colors. Refer to [Finishes section](#) for color options. A contrasting color may be selected for the drawer front liner at no additional upcharge. Drawer bodies and accessories are finished in Eco Black.

Storage with Handles

ANSI/BIFMA

With the addition of counterweights where appropriate, pedestal meet all ANSI/BIFMA specifications.

Construction

Pedestals are welded, “wrap-around” construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction Features & Benefits

1. Completely enclosed case provides rigid construction and dust-free interiors.
2. Box drawer sides are slotted on 1” centers to allow for maximum flexibility for drawer division.
3. File (10½” and 12”) drawer bodies have full height sides to accommodate hanging file folders, eliminating the need for optional file frames.
4. Fully-progressive ball bearing suspensions on all drawers, including pencil and box drawers, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
5. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
6. Special “claw-like” device incorporated in the suspension “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
7. Casters and glides are both recessed “inboard” for a uniform exterior appearance with no visible hardware.
8. Modular interior allows for complete interchangeability of drawer types within the pedestal case. For example, two 6” box drawers may be replaced by one 12” file drawer.
9. 18” deep pedestals come standard with 18” deep drawers. 22” and 28” deep pedestals come standard with 22” deep drawers.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Counterweights come standard with ALL mobile pedestals and must be field installed.

Drawer Standard Equipment

15” letter width storage drawers: 3” pencil drawer, 6” box drawer, 10½” and 12” file drawer are standard.

Pedestals containing 3” or 6” drawers have the option to order one pencil tray per pedestal. 6” drawers have the additional option to order one steel divider.

10½” and 12” letter-width file drawers have the option to order suspension bar (two in a 28” deep pedestal) for side-to-side filing of legal or letter-size folders.

Refer to [accessories section](#) for codes and pricing.

Bases

Optional base aprons are available in 2 standard heights and are screwed to the underside of the pedestal case. Bases may be easily added or changed on site. Pedestals are shipped with bases installed when ordered.

Casters

Four swivel, recessed 1½” black, double-wheel phenolic carpet casters are supplied with mobile pedestals and must be field installed.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to ¾” by extending standard glide. Glides are accessible from inside the pedestal when the bottom drawer is fully extended or removed and may be adjusted with a ¼” socket driver.

Optional 1½” stem glides are available. Specify separately and add \$30 list to the pedestal price. Requires field installation.

Locks

Pedestals come standard with lock. If lock is not required add suffix ‘/NL’ after product number. Deduct \$57 list per lock. For lock location, see the front of this price list. Mobile pedestals must include locks.

Random keying is standard. Pedestals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Office Specialty Client Services for required parts.

Master keys are available at \$51 list.

Finishes

Refer to [Finishes section](#) for color options. For lock finish options, refer to the front of this price list.

Drawer Pulls

Storage with Handles have the following style options. FP005 is the default pull.

Pull	Storage with Handles	Nuform
 <p>FP001 P290 Aluminum Leaf Finish</p>		
 <p>FP004 Brushed Nickel Finish</p>		
 <p>FP005 Brushed Nickel Finish</p>		

Available

Unavailable

Pulls FP004 and FP005 meet the guidelines for ADA compliance.

Storage with Handles

Pedestals
Freestanding, Letter Width

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 1518H-2BF10

- 15** -pedestal width
18 -pedestal depth
H -Storage with Handles
2 -number of drawers
B -6" box
F10 -10 1/2" file drawer

Pedestals are standard with either glides or casters. Exterior pedestal heights are nominal.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights are standard with all mobile pedestals and must be field installed. See [Counterweight matrix](#).

See [Pedestal Accessories](#) section for counterweight codes and pricing.

Lock option

Pedestals come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

B7	7½" box
F10	10 ½" file drawer
M	mobile
C	cushion
NH	no handle

The **Classic Cushion** is 1¼" thick CAL 117 compliant polyurethane foam with a 2.3 lb/ft. density. This upholstered cushion is balanced with a 7/16" board and is attached to the pedestal top with heavy duty Velcro. The 5-pc construction, features double row top stitching on all seams, seen in fine upholstered pieces. The result provides crisp rectilinear styling.

For application of ALL fabrics, both from our graded program as well as COM (customers own material), please specify layup orientation at time of order. If layup instructions are not provided we will choose the direction to maximize our production. Refer to [Additional layout and COM details](#).

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights are standard with all mobile pedestals and must be field installed. See [Counterweight matrix](#).

See [Pedestal Accessories](#) section for counterweight codes and pricing.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

Optional Accessories

All pedestal accessories are optional. See chart below for information on accessories by drawer height.

ANSI/BIFMA

With the addition of counterweights where appropriate, lateral files meet all ANSI/BIFMA specifications.

Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Lift-up door carrier mechanism has four nylon rollers, two on each side, for smooth receding action with no binding or snagging.
3. Front leading edge of pullout shelves is beaded and rolled to provide grip for pullout action and to strengthen shelf; front leading edge of fixed shelf is flat for easy removal of material.
4. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
5. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
6. Lock bars operate vertically on both sides of the cabinet for maximum security.
7. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
8. Plastic buttons in side gables of case where top sections of lift-up doors recede into the cabinet eliminate metal-to-metal contact.
9. Plastic buttons in the ends of each drawer and door front eliminates metal-to-metal contact between cabinet sides and closed drawers.
10. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or single pullout shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3" and 4½" drawers, immediately become inoperable. Safelock is standard on all lateral files. The only exceptions are the 3" and 4½" drawers and the upper shelf in a two pullout shelf opening.

Drawer standard equipment

Pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Optional accessories are available.

Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the cabinet. Bases may be easily added or changed on site. Cabinets are shipped with bases installed when ordered.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 5/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a ¼" socket driver.

Optional 1½" stem glides are available. Specify separately and add \$30 list to the cabinet price. Requires field installation.

Locks

Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list per lock. For lock location, see the guide at the beginning of this price list.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Office Specialty Client Services for required parts.

Master keys are available at \$51 list.

Lateral file tops

Refer to [Accessories section](#) to order Laminate and Nuform tops.

Finishes

Refer to [Finishes section](#) for color options. For lock finish options, refer to the front of this price list.

Drawer Pulls

Storage with Handles have the following style options. FP005 is the default pull.

Pull	Storage with Handles	Nuform
 <p>FP001 P290 Aluminum Leaf Finish</p>		
 <p>FP004 Brushed Nickel Finish</p>		
 <p>FP005 Brushed Nickel Finish</p>		

Available

Unavailable

Pulls FP004 and FP005, meet the guidelines for ADA compliance.

Note: Cabinets with hinged doors do not have pull options. The handle is integrated into the door front.

Storage with Handles

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 30-24-P2FFH

- 30** cabinet width
- 24** interior height
- P** pencil drawer
- 2** number of file drawers
- FF** fixed front
- H** Storage with Handles

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. Hinged doors are standard with self-closing European style hinges that open 110°. Shelves are slotted every 1½" and are height adjustable in ½" increments.

Cabinets are 18" in depth.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Accessories

See [Lateral File Accessories](#) section for counterweights and accessories.

Lock option

Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

Storage with Handles

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example 30-52.5-5FFH

- 30** cabinet width
- 52.5** interior height
- 5** number of drawers
- FF** fixed front
- H** Storage with Handles

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. Hinged doors are standard with self-closing European style hinges that open 110°. Shelves are slotted every 1½" and are height adjustable in 1½" increments.

Cabinets are 18" in depth.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Accessories

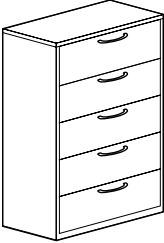

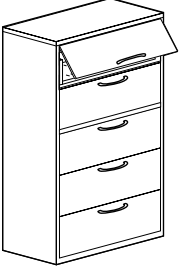

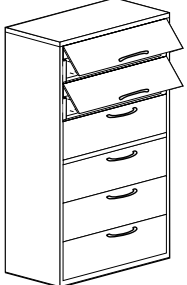

See [Lateral File Accessories](#) section for counterweights and accessories.

Lock option

Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

	Description	Part number	Height	Depth	Weight (lbs)	Neutral paint/ base price	Accent paint
	5 high cabinet	30-52.5-5FFH	55 $\frac{3}{8}$ "	30"	180	\$2129	+\$214

Construction

Lockers are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
3. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
4. 110° opening European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or single pullout shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3", 4½", 6" and 7½" drawers, immediately become inoperable. Safelock is standard on all lateral files. The only exceptions are the 3", 4½", 6" and 7½" drawers.

Drawer standard equipment

Lockers containing 3" or 6" drawers are provided with one pencil tray per cabinet. 6" drawers are additionally standard with one steel divider. 10 ½", 12" and 15" letter-width file drawers have one suspension bar for side-to-side filing of letter or legal-size folders. Optional accessories are available.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to ⅝" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a ¼" socket driver.

Optional 1½" stem glides are available. Specify separately and add \$30 list to the cabinet price. Requires field installation.

Locks

Cabinets come standard with lock. If lock is not required add suffix **'/NL'** after product number. Deduct \$57 list per lock. For lock location, see the guide at the beginning of this price list.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Office Specialty Client Services for required parts.

Master keys are available at \$51 list.

Finishes

Refer to [Finishes section](#) for color options. For lock finish options, refer to the front of this price list.

Drawer Pulls

Storage with Handles have the following style options. FP005 is the default pull.

Pull	Storage with Handles	Nuform
 <p>FP001 P290 Aluminum Leaf Finish</p>		
 <p>FP004 Brushed Nickel Finish</p>		
 <p>FP005 Brushed Nickel Finish</p>		

Available

Unavailable

Pulls FP004 and FP005 meet the guidelines for ADA compliance.

Storage with Handles

How to order

1. Specify product number.
2. Specify finish color.
3. Specify options.

Product code key example TR2460H-2F

- T** workplace tower
R right-handed door
24 24" wide
60 60" interior height
H Storage with Handles
2 number of drawers
F 12" file drawer

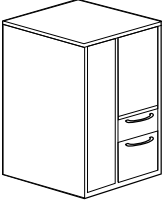

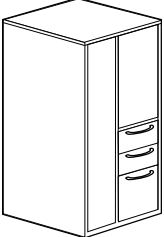

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. Units containing pencil and/or box drawers include one pencil tray per unit. Each box drawer contains one steel divider. Full length door contains 2-prong coat hook. Hinged door insert has two non-slotted shelves, adjustable in $1\frac{1}{2}$ " increments. Hinged doors are standard with self closing European style hinges and open 110° .

Lock Option

Lockers come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$57 list per lock.

Finishes

Refer to [Finishes section](#) for color options. Drawer bodies and accessories are finished in Eco Black.

Description	Part number	Height	Depth	Weight (lbs)	Neutral paint/ base price	Accent paint
 <p>Full-length door $8\frac{3}{16}$" wide on one side, 27" hinged door insert, 1-7.5" file and 1-12" drawers $13\frac{5}{16}$" wide on the other.</p>	TL2446H-B7F left-handed hinged door (illustrated)	49 $\frac{3}{8}$ "	24"	118	\$3093	+\$312

Custom Profile

Specify Custom Profile pedestals without fronts and design your own using a variety of materials. The design ideas are limitless. For fabrication details, refer to the [shop drawings](#) at the end of this section.

ANSI/BIFMA

With the addition of counterweights where appropriate, Custom Profile pedestals meet all ANSI/BIFMA specifications.

Construction

Pedestals are welded, “wrap-around” construction using 20 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. “Wrap-around” construction with no visible vertical seams gives a clean appearance.
2. Completely enclosed case provides rigid construction and dust-free interiors.
3. Box drawer sides are slotted on 1” centers to allow for maximum flexibility for drawer division.
4. Box drawer side double-wall construction provides clean appearance and enclosed divider slots.
5. File (12” drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
6. Fully-progressive ball bearing suspensions on all drawers, including pencil and box drawers, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
7. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
8. Special “claw-like” device incorporated in the suspension “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
9. Casters and glides are both recessed “inboard” for a uniform exterior appearance with no visible hardware.
10. Modular interior allows for complete interchangeability of drawer types within the pedestal case. For example, two 6” box drawers may be replaced by one 12” file drawer.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Counterweights come standard with ALL mobile pedestals and must be field installed.

Drawer standard equipment

3” pencil drawer, 6” box drawer and 12” file drawer are standard.

Pedestals containing 3” or 6” drawers have the option to order one pencil tray per pedestal. 6” drawers have the additional option to order one steel divider.

10½” and 12” letter-width file drawers have the option to order suspension bar (two in a 28” deep pedestal) for side-to-side filing of legal or letter-size folders.

Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the pedestal case. Bases may be easily added or changed on site. Pedestals are shipped with bases installed when ordered.

Casters

4 swivel, recessed 1⅝” black, double-wheel phenolic carpet casters are supplied with mobile pedestals and must be field installed. Recessed casters are not visible.

Glides

Overall heights are inclusive of metal glides or casters. Heights may be increased up to ⅝” by extending standard glide. Glides are accessible from inside the pedestal when the bottom drawer is fully extended or removed and may be adjusted with a ¼” socket driver.

Optional 1½” stem glides are available. Specify separately and add \$30 list to the pedestal price. Requires field installation.

Locks

Pedestals come standard with lock. If lock is not required add suffix ‘/NL’ after product number. Deduct \$71 list per lock. For lock location, see diagrams at the front of this price list. **Extended lock barrels are standard.** For flush, non-fascia type locks, specify separately. Mobile pedestals must include locks.

Random keying is standard. Pedestals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Office Specialty Client Services for required parts.

Master keys are available at \$51 list. Locks are available in Chrome and Black finish. Specify.

Finishes

Refer to [Finishes section](#) for color options.

Specify Custom Profile lateral or hinged door cabinets without fronts and design your own using a variety of materials. The design ideas are limitless. For fabrication details, refer to the [shop drawings](#) at the end of this section.

ANSI/BIFMA

With the addition of counterweights where appropriate, Custom Profile lateral files meet all ANSI/BIFMA specifications.

Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
4. Special "claw-like" device incorporated in suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
5. Lock bars operate vertically on both sides of the cabinet for maximum security.
6. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
7. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously. When any drawer or shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3" drawer, immediately become inoperable. Safelock is standard on all lateral files.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Drawer standard equipment

Pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Optional accessories are available.

Bases

Optional base aprons are available in 2 heights and are screwed to the underside of the cabinet. Bases may be easily added or changed on site. Cabinets are shipped with bases installed with ordered.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 5/8" by extending standard glide. Standard glides may be used with or without base aprons. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available. Specify separately and add \$30 list to the cabinet price. Requires field installation.

Locks

Cabinets come standard with lock. If lock is not required add suffix '/NL' after product number. Deduct \$71 list per lock. For lock location, see the front of this price list. **Extended lock barrels are standard.** For flush, non-fascia type locks, specify separately.

Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which features a black neoprene plastic cover.

Cabinets originally ordered as non-locking may be field installed with the addition of locking bars and a lock core. Please contact Office Specialty Client Services for required parts. Locks may not be field installed in hinged door cabinets.

Master keys are available at \$51 list. For lock finish options, refer to the front of this price list.

Finishes

Refer to [Finishes section](#) at the front of this price list.

5. If lock is not required add suffix '/NL' after product number. Deduct \$71 list.

Product code key example 30-15C

30 cabinet width
15 cabinet interior clear height
C Custom Profile Series

Cases in this section are basic empty units without doors, drawers or accessories. Specify cabinet components and accessories on the following pages ensuring the total height of the selected components equals the total interior clear height of the case. Cabinets are available in 42" case heights and 3" widths. Interior components are available in 3", 6", 10½", 12", 13½", 15" and 24" sizes. (Note: 3" drawers specified in a bottom opening, above a 1½" filler or above a reference shelf cannot be locked.) ¾" glides are standard and can be used with our without base aprons. Counterweights are recommended.

Cabinets are 18" in depth.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Finishes

Refer to [Finishes section](#) for color options.

Note: Exterior cabinet heights shown below are nominal. Actual heights, with glides fully recessed, are ⅛" less.

Cabinets 64 ⅜" and over include a hidden tie bar in their construction.

5. If lock is not required add suffix '/NL' after product number. Deduct \$71 list.

Product code key example 30-36C

- 30** cabinet width
36 cabinet interior clear height
C Custom Profile Series

Cases in this section are basic empty units without doors, drawers or accessories. Specify cabinet components and accessories on the following pages ensuring the total height of the selected components equals the total interior clear height of the case. Cabinets are available in 42" case heights and 3" widths. Interior components are available in 3", 6", 10½", 12", 13½", 15" and 24" sizes. (Note: 3" drawers specified in a bottom opening, above a 1½" filler or above a reference shelf cannot be locked.) ¾" glides are standard and can be used with our without base aprons. Counterweights are recommended.

Cabinets are 18" in depth.

Counterweights

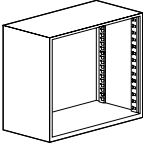

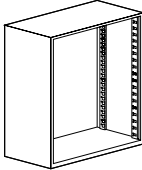

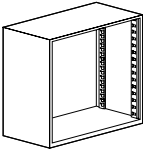

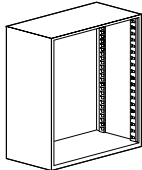

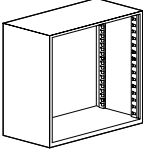

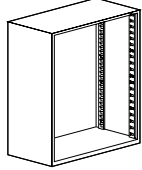

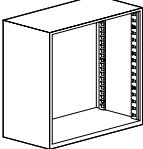

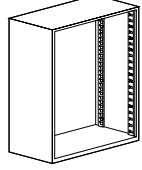

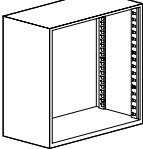

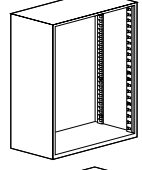

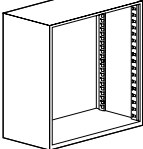

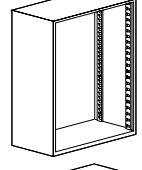

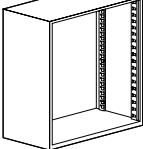

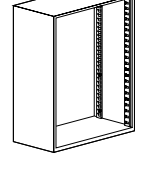

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. See [Counterweight matrix](#).

Finishes

Refer to [Finishes section](#) for color options.

Note: Exterior cabinet heights shown below are nominal. Actual heights, with glides fully recessed, are ½" less.

Cabinets 64 ¾" and over include a hidden tie bar in their construction.

The following page contains technical data that enable the specifier to communicate to local fabricators, critical measurements and other details. This will ensure that custom-fabricated fronts can easily be installed either on-site or elsewhere. Please contact Client Services if additional information is required.

Note: Choose your configuration from the available drawers shown below.

Typical clearances

2-6" Box & 1-12" File Drawers shown above.

Top View of Drawer Front Mounting Detail

Note to Millwork installers: if a standard extended lock is ordered, it will be shipped with a barrel around the lock cylinder. This should be discarded and the cylinder only fitted through the fascia. Fascia must be $\frac{3}{4}$ " (19.05mm) thick for use with extended lock barrel.

Drawer fronts must be $\frac{3}{4}$ " (19.05mm) thick.

Drawer Front Width

For 15" (381mm) wide pedestals, $14 \frac{7}{8}$ " (377.83mm)
 For 18" (457mm) wide pedestals, $17 \frac{7}{8}$ " (454.03mm)

Custom Profile

The following pages contain technical data that enable the specifier to communicate critical measurements and other details to local fabricators. This will ensure that custom-fabricated fronts can easily be installed. Please contact Office Specialty Customer Service if additional information is required.

Nuform Shapes

Nuform Shapes

Nuform Shapes offer a refreshing take on traditional storage. Nuform shapes can be used in a boardroom, private office or even a co-working space, wherever storage is needed. Closed storage is essential for the workplace for both personal items and office supplies.

ANSI/BIFMA

With the addition of counterweights where appropriate, Nuform Shapes meet all ANSI/BIFMA specifications.

Construction

Nuform Shapes hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interior
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet
3. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.
4. Inset handle, provides a comfortable and ergonomic choice
5. Nuform door fronts provide a seamless edge with a clean aesthetic eliminating the need for an edge banding where bacteria, fungus and mold can penetrate and flourish

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to $\frac{3}{8}$ " by extending standard glide. Standard glides may be used with or without base aprons. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a $\frac{1}{4}$ " socket driver.

Optional $\frac{1}{2}$ " stem glides are available. Specify separately and add \$30 list to the cabinet price. Requires field installation. For optional Platform glide, see [Accessories section](#) of this price list.

Locks

Nuform Shapes cabinets are not available with locks.

Tops

Refer to [Accessories section](#) to specify matching tops.

Finishes

Refer to the [Finishes section](#) at the front of this price list.

Front Styles

Available in 3 front styles:

Arrow

River

Bubble

Nuform Shapes

Bubble Shape

How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

Product code key example QSCHD3021-SH

- Q** Nuform
- S** Shapes
- C** Bubble shape
- HD** hinged door fronts
- 30** cabinet width
- 21** cabinet interior height
- SH** shelf

Shapes refer to the opening cut in the hinged doors. Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. Shelves are adjustable. All shelves are slotted to accept dividers. Shelf dividers are not included. See [Accessories section](#).

Pulls

Nuform Shapes come standard with inset handle pull at the top of each hinged door.

Lock option

Cabinets come standard without lock. Locking is NOT an option.

Finishes

Available in Office Specialty's standard finishes. Refer to [Finishes section](#) for finish options for case and fronts. Drawer bodies and accessories are finished in Eco Black.

GRID

ANSI/BIFMA

With the addition of counterweights where appropriate, Grid pedestals meet all ANSI/BIFMA specifications.

Construction

Pedestals are welded, “wrap-around” construction using 20 gauge high quality, tension leveled, cold rolled steel.

The steel gauges selected for drawer bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. “Wrap-around” construction with no visible vertical seams gives a clean appearance.
2. Completely enclosed case provides rigid construction and dust-free interiors.
3. Box drawer sides are slotted on 1” centers to allow for maximum flexibility for drawer division.
4. File (12”) drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
5. Fully-progressive ball bearing suspensions on all drawers, including pencil and box drawers, are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
6. Staged suspensions allow the drawer to be completely pulled out, providing access to the entire drawer depth.
7. Special “claw-like” device incorporated in the suspension “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
8. Casters and glides are both recessed “inboard” for a uniform exterior appearance with no visible hardware.
9. Modular interior allows for complete interchangeability of drawer types within the pedestal case. For example, two 6” box drawers may be replaced by one 12” file drawer.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Counterweights come standard with ALL mobile pedestals and must be field installed.

Drawer standard equipment

Pedestals containing 6” drawers have the option to order one pencil tray and one steel divider per pedestal.

12” drawers have the option to order suspension bar for side-to-side filing of letter or legal folders.

Casters

4 Swivel, recessed 1 $\frac{5}{8}$ ” black, double-wheel phenolic carpet casters are supplied with mobile pedestals and must be field installed. Recessed casters are not visible.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to $\frac{5}{8}$ ” by extending standard glide. Glides are accessible from inside the pedestal when the bottom drawer is fully extended or removed and may be adjusted with a $\frac{1}{4}$ ” socket driver.

Optional 1 $\frac{1}{2}$ ” stem glides are available. Specify separately and add \$30 list to the pedestal price. Requires field installation.

For optional Platform style glide, see the [Accessories Section](#) of this price list.

Locks

Pedestals come standard with lock. For lock location, see diagram at the front of this price list.

Random keying is standard. Pedestals may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Master keys are available at \$51 list.

Tops

Refer to [Accessories Section](#) to specify matching tops.

Finishes

Refer to the [Finish section](#) at the front of this price list.

Drawer Pulls

There are the following pull options for Nuform™ fronts.

Pull	Nuform
 <p>FP001 P290 Aluminum Leaf Finish</p>	
 <p>FP004 Brushed Nickel Finish</p>	
 <p>FP005 Brushed Nickel Finish</p>	
Available	Unavailable

Pulls FP004 and FP005 meet the guidelines for ADA compliance.

How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

Product code key example 1518Q-2F

- 15 cabinet width
- 18 cabinet depth
- Q Nuform front
- 2 number of drawers
- F 12" file drawer

NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.

Pedestals are standard with glides. Exterior pedestal heights are nominal. Actual heights (with glides fully recessed) are 1/8" less.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor. Counterweights are standard with all mobile pedestals and must be field installed. See [Counterweight matrix](#).

See [Pedestal Accessories](#) section for counterweight codes and pricing.

Lock option

Pedestals come standard with lock.

Finishes

Refer to [Finish section](#) for finish options for case and Nuform fronts.

Drawer bodies and accessories are finished in Eco Black.

Optional Accessories

All pedestal accessories are optional. See chart below for information on accessories by drawer height.

Drawer Height	Product Code	Product Description	Price
3" & 4.5"	WS-PTxx	Pencil Tray	\$37
6" & 7.5"	WS-PTxx	Pencil Tray	\$37
	WS-DVxx	Divider	\$22
18"D, 22"D, 28"D Pedestals Only (28"D requires 2 per drawer)			
10.5", 12", 13.5, & 15"	SSFxx	Side-To-Side Filing Bar	\$8

Visit the [Pedestal Accessories](#) section for full accessory details.

	Description	Part number	Height	Width	Weight (lbs)	Nuform classic/ neutral paint/ base price	Nuform select/ neutral paint	Accent paint

ANSI/BIFMA

With the addition of counterweights where appropriate, Grid lateral files meet all ANSI/BIFMA specifications.

Construction

Lateral files and hinged door cabinets are of all-welded construction using 20 and 22 gauge high quality, tension leveled, cold rolled steel. The steel gauges selected for drawer bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
4. Special “claw-like” device incorporated in suspensions “grips” the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
5. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.

Safelock™

The patented Safelock mechanism provides complete security against accidental opening of two or more drawers simultaneously.

When any drawer or shelf is extended, even fractionally, Safelock ensures that all other openings, except for the 3” drawer, immediately become inoperable. Safelock is standard on all lateral files.

Counterweights

Counterweights are required for ALL freestanding units that are not anchored or ganged to other cabinets or bolted to walls/floor.

Drawer standard equipment

Pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Optional accessories are available.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to $\frac{5}{8}$ ” by extending standard glide. Standard glides may be used with or without base aprons. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a $\frac{1}{4}$ ” socket driver.

Optional $\frac{1}{2}$ ” stem glides are available. Specify separately and add \$30 list to the cabinet price. Requires field installation. For optional Platform glide, see [Accessories Section](#) of this price list.

Locks

Cabinets come standard with lock. For lock location, see the diagram at the front of this price list. Random keying is standard. Files may be ordered keyed alike. Specify. Locks feature removable core and are standard with two keys, one of which features a black neoprene plastic cover.

Master keys are available at \$51 list.

Tops

Refer to [Accessories Section](#) to specify matching tops.

Finishes

Refer to the [Finish section](#) at the front of this price list.

Drawer Pulls

There are the following pull options for Nuform™ fronts.

Pull	Nuform
 FP001 P290 Aluminum Leaf Finish	
 FP004 Brushed Nickel Finish	
 FP005 Brushed Nickel Finish	

Available	Unavailable
-----------	-------------

Pulls FP004 and FP005 meet the guidelines for ADA compliance.

How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

Construction

Cabinets are of all-welded construction using high quality, tension leveled cold rolled steel. The steel gauges selected for drawer fronts, bodies and accessories ensure the highest quality durability and performance for all components.

Construction features & benefits

1. All interiors are modular and interchangeable so that cabinets can be retrofitted with new accessories and interiors as required.
2. Corners are strengthened with a reinforcing gusset and are welded at junction of top and case fronts, eliminating horizontal lines for a cleaner, flush appearance on the face of the cabinet.
3. Box drawer sides are slotted on 1" centers to allow for maximum flexibility for drawer division.
4. File drawer bodies have full-height sides to accommodate hanging file folders, eliminating the need for optional file frames.
5. Front leading edge of fixed shelf is flat for easy removal of material.
6. Fully-progressive ball bearing suspensions are staged so that left and right sides work in unison. This provides smooth drawer operation with minimum force.
7. Special "claw-like" device incorporated in the suspensions "grips" the fixed section of the suspension arm preventing drawer bounce-back or creep when drawer is closed.
8. Lock fingers are configured with right angle bend upward, not downward, so that lift-up doors cannot be pulled down to disengage fingers from door slots and be forced to circumvent lock system.
9. Shorter hinged door unit is equipped with one adjustable shelf, slotted on 1" centers for dividers.
10. Self-closing, 110° opening, European style cupboard hinges provide smooth hinged door operation. Hinges are not visible from the exterior of the cabinet.
11. All Lockers, with the exception of the 26 7/8" high locker, have ventilation holes in the top of the cabinet to enhance air circulation within the full height door and the shorter hinged door sections.

Safelock™

The patented Safelock mechanism is standard on the 42" wide Locker and on Lockers that have more than one file (10 1/2" and 12") drawer. It provides complete security against accidental opening of two or more drawers simultaneously. When any drawer is extended, even fractionally,

Safelock ensures that all other openings immediately become inoperable.

Drawer standard equipment

Lockers containing 3" or 6" drawers are provided with one pencil tray per cabinet. 6" drawers are additionally standard with one steel divider. 10 1/2", 12" and 15" letter-width file drawers have one suspension bar for side-to-side filing of letter or legal-size folders.

Full-width pullout drawers are standard with one pair hangfile bars for side-to-side suspended filing. Full-width fixed shelves are standard with 3 plate dividers. Optional accessories are available.

Glides

Overall heights are inclusive of metal glides. Heights may be increased up to 5/8" by extending standard glide. Glides are accessible from inside the cabinet when the bottom drawer is fully extended or removed and may be adjusted with a 1/4" socket driver.

Optional 1 1/2" stem glides are available. Specify separately and add \$30 list to the cabinet price. Requires field installation.

Locks

Lockers come standard with lock. For lock location, see the front of this price list.

Random keying is standard. Files may be ordered keyed alike. Locks feature removable core and are standard with two keys, one of which has a black neoprene plastic key cover.

Master keys are available at \$51 list.

Finishes

Refer to the [Finish section](#) at the front of this price list.

Drawer Pulls

There are the following pull options for Nuform™ fronts.

Pull	Nuform
 <p>FP001 P290 Aluminum Leaf Finish</p>	
 <p>FP004 Brushed Nickel Finish</p>	
 <p>FP005 Brushed Nickel Finish</p>	
Available	Unavailable

Pulls FP004 FP005 meet the guidelines for ADA compliance.

How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

Product code key example VL121839Q-HD

- V** Single-Use Locker
- L** left handed
- 12** cabinet width
- 18** nominal cabinet depth
- 39** interior height
- Q** Nuform front
- HD** hinged door

NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less.

Adding rectangular glides increases exterior height.

Hinged doors are standard with self-closing European style hinges that open 110°. Shelves are slotted every 1 $\frac{1}{2}$ " and are height adjustable in 1 $\frac{1}{2}$ " increments. Shelf dividers are not included. See [Accessories Section](#).

Optional shelves or coat rod with shelf can be selected.

Accessories

See [Accessories Section](#) for counterweights and accessories.

Lock option

Lockers come standard with lock.

If lock is not required add suffix '/NL' after product number. Deduct \$57 list per lock.

eLocks

Nuform Lockers are available with an eLock option. Add \$411 to list price for eLock.

eLocks are powerful and offer easy administration with Smartphone App. They have all metal construction with motorized locking bolt. The locker can be accessed with the keypad or the free app.

eLocks come in two types:

- Single-use (i.e. hotel safe)
- Multi-use (i.e. company employee)

eLocks come in two locking bolt styles:

- Deadbolt (check to lock)
- Slam (automatically locks after 3 seconds)

Note that the Slam style locking bolt is only available with the Multi-Use eLock type.

Finishes

Refer to [Finish section](#) for finish options for case and Nuform fronts. Drawer bodies and accessories are finished in Eco Black.

How to order

1. Specify product number.
2. Specify case finish.
3. Specify front finish.
4. Specify options.

Product code key example VL121852Q-HD

- V** Single-Use Locker
- L** left handed
- 12** cabinet width
- 18** nominal cabinet depth
- 52** interior height
- Q** Nuform front
- HD** hinged door

NOTE: Pricing for Drawer pull FP001 is standard. For additional pulls review pull option chart.

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are 1/8" less.

Adding rectangular glides increases exterior height.

Hinged doors are standard with self-closing European style hinges that open 110°. Shelves are slotted every 1 1/2" and are height adjustable in 1 1/2" increments. Shelf dividers are not included. See [Accessories Section](#).

Accessories

See [Accessories Section](#) for counterweights and accessories.

Lock option

Lockers come standard with lock.

If lock is not required add suffix 'N/L' after product number. Deduct \$57 list per lock.

eLocks

Nuform Lockers are available with an eLock option. Add \$411 to list price for eLock.

eLocks are powerful and offer easy administration with Smartphone App. They have all metal construction with motorized locking bolt. The locker can be accessed with the keypad or the free app.

eLocks come in two types:

- Single-use (i.e. hotel safe)
- Multi-use (i.e. company employee)

eLocks come in two locking bolt styles:

- Deadbolt (check to lock)
- Slam (automatically locks after 3 seconds)

Note that the Slam style locking bolt is only available with the Multi-Use eLock type.

Finishes

Refer to [Finish section](#) for finish options for case and Nuform fronts. Drawer bodies and accessories are finished in Eco Black.

Product code key example WL3060Q-6HDV

- WL** Cubbi-Stor Locker
30 locker width
60 interior height
Q Nuform front
6 number of openings
HD hinged doors

Exterior cabinet heights are nominal. Actual heights (with glides fully recessed) are $\frac{1}{8}$ " less. Hinged doors are standard with self closing European style hinges and open 110°.

A hinged door insert includes a bottom shelf. This means that the insert door height and usable interior space is actually $1\frac{1}{2}$ " less than the heights noted in the descriptions.

Lock option

Nuform Cubbi-Stor come with eLocks only.

eLocks

eLocks are powerful and offer easy administration with Smartphone App. They have all metal construction with motorized locking bolt. The locker can be accessed with the keypad or the free app.

eLocks come in two types:

- Single-use (i.e. hotel safe)
- Multi-use (i.e. company employee)

eLocks come in two locking bolt styles:

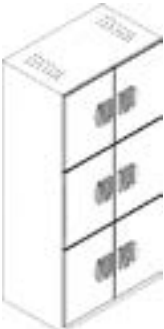

- Deadbolt (check to lock)
- Slam (automatically locks after 3 seconds)

Note that the Slam style locking bolt is only available with the Multi-Use eLock type.

Finishes

Refer to [Finish section](#) for finish options for case and Nuform fronts.

How to order

1. Specify product number.
2. Specify upholstery name and number.

The **Classic Cushion** is 1 ¼” thick CAL 117 compliant polyurethane foam with a 2.3 lb/ft. density. This upholstered cushion is balanced with a 7/16” board and is attached to the pedestal top with heavy duty Velcro. The 5-pc construction, features double row top stitching on all seams, seen in fine upholstered pieces. The result provides crisp rectilinear styling.

The **Lite Cushion** is ¾” thick CAL 117 compliant polyurethane foam with a 2.3 lb/ft. density. This upholstered cushion is balanced with a ¼” board and is attached to the pedestal top with Velcro. Our Lite Cushion has seamless features allowing it to highlight the fabric details. The result provides a modern and simple look. The Lite Cushion is available in the following Grade A fabrics only: Fedora, Glint, Pebble, Rancho & Script

Upholstery

Select from our graded upholstery program of solid color fabrics and vinyls or choose COM option (Customers Own Material). To determine if a COM fabric has been pre-approved for use on our cushion topper, contact your Client Services Representative or go to officespecialty.com. Refer to page 15 for additional layout and COM details.

Due to the nature of the design and manufacture of our cushion, only approved fabrics will be accepted for application. For a description of the procedure required for COM fabric approval see sample ‘Cushion COM Test Request’ form found in the [General Information](#) section of this price list. This form can be downloaded from [Insite](#) or by contacting your Client Services Representative for assistance.

How to order

1. Specify product number.

Whiteboards have raised edges at each end and include a separate 10 ½” wide marker tray. Whiteboards and marker trays are manufactured from steel and mount magnetically. Marker tray and side trim on whiteboards are field installed.

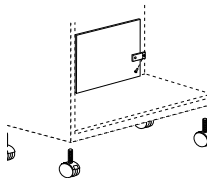

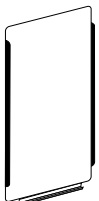

Modular Towers Mobile Kit comes with two locking swivel casters, two non-locking swivel casters and a counterweight. Mobile Kit can only be mounted on Office Specialty Modular Storage Towers with an exterior case height of 46 ½” or higher and having a pedestal drawer configuration that does not exceed 30” interior dimensional opening.

Note: The mobile kit adds 3 ½” to the height.

Finishes

Whiteboards are powder coated in white paint specially formulated for dry erase markers. Marker tray and raised edges on whiteboard are finished in black.

Note: Whiteboards are not intended for use with PERMANENT markers. Only Expo Markers are to be used on any Office Specialty Whiteboard. Whiteboards should be cleaned with Expo Eraser or a Microfiber cleaning cloth along with Expo Cleaning Solution which is formulated to remove residue from Expo Dry Erase Markers.

Workstations

RockIt

Core and Supports

- Back-to-back core application is standard with base pricing
- Core is available in any of Office Specialty's standard paint colors
- Core is available in three conditions: double end, middle, single end. Specify "middle" condition if power pole is needed
- In a 90° application, to give the recommended space behind a user, the recommended minimum core length for a 30"D worksurface is 72", and for a 24"D worksurface is 60"
- Accessory gasket is always included in core slot
- Angled Leg Hip Supports (RKCSPAx(x)) are used in both mid and end applications and are not handed. The 90° End Angled Leg Hip Supports (RKWSPAxx) are specific to the unsupported end of the surface.
- Leg post on all Angled Leg Hip Supports can be optioned as wood or painted steel
- Leg posts and hip are available in any of Office Specialty's standard paint colors
- Angled Leg Hip Supports always includes a gasket for accessories in hip slot
- Angled Leg Hip Supports comes with optional Hip Top Cover: open accessory slot or full cover (color options available). Accessories cannot be mounted in full cover.
- 8" Core Supporting Angled Leg Hip Support is only available with a full top cover therefore no accessories can be mounted here
- Hip Top Covers can also be ordered separately as needed
- 48" or 60" 90° Double Sided End Angled Leg Hip Supports must be used on either 2 fixed worksurfaces or 2 SkyRockit Height Adjustable worksurfaces

- The optional Reinforcement Bar can be added to the Angled Leg Hip Support to strengthen any double sided RockIt application. The bar is not required for a light user but is recommend for medium to heavy users.
- 2 station applications require an end Reinforcement Bar on both sides
- 4 station or larger applications require a mid Reinforcement Bar on each Hip Support that is supporting surfaces off both sides. For these applications, no end bars are required.
- Reinforcement Bars are available in any of Office Specialty's paint colors

- The Leg Anchor Bracket is required to have a freestanding RockIt core and is available in any of Office Specialty's standard colors
- Freestanding Core must be bolted to concrete floor using a minimum of 2 anchor brackets at each end

Electrical

- Power In-Feeds may enter into the core from the floor and must enter the core on the opposite end to the data ports
- Power In-Feeds have a 7' long whip
- A wire covering is included with the Power In-Feed (RKEFWK-8) to enclose exposed power
- The wire covering has two options available: Cable Casing (available in silver only) or Cable Sleeve (available in black, beige, gray or white)
- 8" Core Leg Power In-Feed with Cover includes the In-Feed but has the option for no power and an optional Cable Sleeve (available in black, beige, gray or white)
- The Cable Sleeve has been factory cut on both ends with a hot knife, to help stop fraying. Care must be taken when opening Velcro at ends. Though not recommended, if sleeve must be cut shorter on-site, hide cut end up inside core, using care and zip tie/tape to help stop fraying.
- New York City Power In-Feed comes complete with attachment bracket which is available in any of Office Specialty's standard paint colors
- Both Power In-Feeds with Cover are only compatible with the 8" Core Supporting Angled Leg Hip Support
- Both Power In-Feeds with Cover have the option to select mid or end application. End option is fully covered. Mid option has opening at the top.
- Power In-Feeds do not require access through a duplex location
- All Power In-Feeds with Cover are available in any of Office Specialty's standard paint colors
- 8" Core Leg New York City Power In-Feed with Cover includes the in-feed. If cover only is required, please use regular version and option no power.

- Power Modules mount to the back edge of a surface and are accessible by the user above the surface
- Power Modules plug into the duplexes
- The Clamp-On Power Module is available in a black or white finish. It has a 96" long power cord and LED surge protection indication. It attaches to 1" and 1 1/4" thick worksurfaces and the mount includes a device holder.
- The Clamp-On Power Module with Colored Components comes in many different configurations with receptacles, USB (1 type A and 1 type B) ports and availability lights. Power Modules come in black, white or gray and have colored options for the lid; Black, White, Teal, Red, Purple, Blue, Green, Gray. The availability light is user controlled and requires a free software download.
- All electrical components on this page are field installed

Worksurfaces

- When manually specifying worksurface in laminate, add suffix “-S” to the code
- These worksurfaces include a small scallop in the center of the back of the surface for cord drop and monitor arm mount
- Core mount brackets included and are available in any of Office Specialty’s standard paint colors
- Depths and widths are nominal
- The wire management gap between the worksurface and the core is 0.562”
- Scallop dimensions are ½”D x 8”W
- Plywood edge option is available
- Cable management trays are ordered separately as needed
- With the exception of the scallop, monitor arms and power modules can be placed anywhere along the back edge of the surface

SkyRockIt Height Adjustable Worksurface

- When manually specifying worksurface in laminate, add suffix “-S” to the code
- The pneumatic SkyRockIt Height Adjustable Worksurfaces come fully ready to be installed and are integrated with the core and legs
- They include the counterbalance mechanism along with a worksurface and may be switched out for a fixed worksurface at any time
- Base mechanism finish options are: black (close match to Onyx paint finish) or white (close match to Simply White paint finish)
- These manual pneumatic height adjustable tables have a lift capacity of max 25 lbs (includes worksurface)
- Height adjustment is 28½” to 40”; a total range of 11½”
- Stretcher bar and core mount brackets included
- Stretcher bar is available in Eco Black paint only
- Brackets are available in any of Office Specialty’s standard paint colors
- Depths and widths are nominal
- Plywood edge option is available
- Can be used in a single sided application
- Surface extends 6” towards the user when raised
- Be aware of accessories on core and hip that will interfere with the function of the raising of surface
- Height Adjustable surfaces have a 1” on all sides to avoid the potential for pinch points when surfaces are raised and lowered
- Optional Height Adjustable Cable Tray can be ordered separately as needed
- SkyRockIt Height Adjustable Worksurface has a scallop on back edge of surface (Scallop dimensions are ½”D x 8”W)
- SkyRockIt Height Adjustable Worksurface for 90° Workstations has no scallop and can only attach to either end of the core, but cannot attach in the middle
- Height Adjustable and fixed height worksurfaces can be used back to back
- In a 90° application, to give the recommended space behind a user, the recommended minimum core length for a 30”d worksurface is 72”

SkyRockIt Electric Height Adjustable Worksurface

- When manually specifying worksurface in laminate, add suffix “-S” to the code
- The SkyRockIt Electric Height Adjustable Worksurface utilizes a unique single mechanism that is integrated with the core and legs
- It includes an electronic actuator mechanism along with a worksurface
- All supports and housing below the surface are available in any of Office Specialty’s standard paint colors
- The exposed telescoping actuator finish options are: black (close match to Kettle Black paint finish) or white (close match to Simply White paint finish)
- Under surface support bars are available in Eco Black paint only
- These electric height adjustable surfaces have a lift capacity of max 130 lbs (in addition worksurface)
- Height adjustment is 28 ½” to 46”; a total range of 17 ½”
- Depths and widths are nominal
- Plywood edge option is available
- Be aware of accessories on core and hip that overhang and will interfere with the function of the raising of surface
- Height Adjustable surfaces have a 1” gap on all sides to avoid the potential for pinch points when surfaces are raised and lowered
- Cable Chain is included. Available in black only.
- Optional Cable Tray (RK90CMT18) can be ordered separately as needed
- The worksurface has a large scallop on back edge of surface to allow monitor arms to be installed directly left or right of the center mechanism post (Scallop dimensions are ¾”D x 17”W)

- Height Adjustable and fixed height worksurfaces can be used back to back
- UL does not approve the use of the Table Mounted Privacy Screen on the SkyRockIt Electrical Height Adjustable Worksurface
- Can also be used in a single sided or private office application. It is recommended that in these applications a Single Sided Core Mounted Modesty be specified.

Handset Options

Included at no cost:

1. Handset with Up Down Buttons

OR

2. Intuitive Paddle

Optional with upcharge:

3. Handset with Up Down Buttons + Memory Display (+\$92)

OR

4. Intuitive Paddle with Bluetooth + Memory Display (+\$92)

SkyRockIt Electric Height Adjustable Worksurface

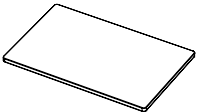

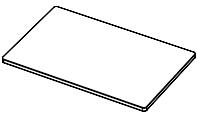

Rectangular for 90° Workstations

- When manually specifying worksurface in laminate, add suffix “-S” to the code
- Core mount brackets included and are available in any of Office Specialty’s standard paint colors
- Depths and widths are nominal
- The wire management gap between the worksurface and the core is 0.562”
- Plywood edge option is available
- Cable management trays are ordered separately as needed
- Monitor arms and power modules can be placed anywhere along the back edge of the surface
- All back to back applications must have the same depth worksurfaces
- Height Adjustable and fixed height worksurfaces can be used back to back
- In a 90° application, to give the recommended space behind a user, the recommended minimum core length for a 30”D worksurface is 72”, and for a 24”D worksurface is 60”

Storage

- Taller items in top drawer may interfere with stretcher bar which runs through box drawer
- All Cargo Storage is mounted under-surface
- Drawers and cases are constructed of steel and can be optioned separately in any of Office Specialty's standard paint colors
- Optional locking for box drawers only

For all cargo storage:

- For mounting on fixed surfaces only
- Not compatible with height adjustable worksurfaces
- Push to open slides – push circle to open and close (full extension)

Lock option

Storage drawers come standard with lock. If lock is not required add suffix "/NL" after product number. Deduct \$54 list.

- Extension Surface must be specified separately when using Bunker Storage
- The Waste/Recycling Bunker Storage unit accommodates standard small recycling bins; 14 ¾"D x 11 ¼"W x 7 ½"H or smaller
- A laminate or Nuform finish is selected for the center shelf
- Any of Office Specialty's standard paint colors are available for use on the case and brackets

- Bin front colors are optioned separately from the case

Open Shelf Bunker
Storage

- Pedestals are constructed of steel and can be optioned in any of Office Specialty's standard paint colors
- Optional locking for box drawers only
- Cushion included
- Push to open slides – push circle to open and close (full extension)
- For RK1215-BFM5, front three casters are fixed, rear two casters swivel
- Optional PET Soft Landing available on select pedestals (black only)

Fabric upcharge for mobile (standard) cushion pedestals

Note: To price fabric grade options, add the upcharge (+\$) in the chart below to the base price of the List price (Grade A) column. This will be the total cost for that product.

Grade B/COM	Grade C	Grade D
+\$54	+\$100	+\$141

Lock option

Storage drawers come standard with lock. If lock is not required add suffix "/NL" after product number. Deduct \$54 list.

Accessories

- The Table Mounted Privacy Screen attaches to the back of a height adjustable worksurface with screws and is tackable
- Brackets included with screen/riser are available in any of Office Specialty's standard paint colors
- Widths for the RKTBMPSxx are nominal
- Screen/riser is slightly shorter in width than worksurface
- These screens/risers are designed to match the Tackable Fabric Riser

- The Surface Mounted Tackable Fabric Riser for 90° Workstations is 16 7/8" above the worksurface and 6" below

- When manually specifying worksurface in laminate, add suffix “-S” to the code
- The Extension Surface attaches to the front rail of the Hip by three brackets
- This surface must be specified separately with the bunker storage
- If Bunker storage is needed, the extension surface should be optioned without brackets as storage comes with all brackets needed to connect both the storage and the extension
- Brackets are available in any of Office Specialty’s standard paint colors
- Plywood edge option is available on Extension Surface
- Extension Surface and Bunker are not compatible with Power Pole

- The Accessory Hook mounts to the front rail of the Hip and can be moved along any location of the groove
- Hook is available in any of Office Specialty’s standard paint colors
- The Hipstash is metal and mounted to the hip. It is available in any of Office Specialty’s standard paint colors.

Please refer to the accessory allowance section in the Application Guide for size application details.

- Bottom of all modesty panels lines up with the bottom of the Leg Hip Support Modesty
 - Leg Hip Support Modesty panel is mounted to the Leg Hip and provides modesty below the surface. Sizes are specific to the width of the leg.
 - Leg Hip Support Modesty panel is for end applications only and cannot be used when Bunkers are present. Includes a gasket in structure.
 - Leg Hip Support Modesty Panel is not recommended for use with power pole, due to precise field cutting required
 - The Table Mounted Modesty Panel for 90° Workstations is mounted to the underside of the worksurface
- Please refer to the accessory allowance section in the Application Guide for size application details.**
