

HARP

A new way  
to divide.

INSCAPE

# What we do.

We design and manufacture innovative commercial furniture that adapts to the ever-changing ways in which people effectively work and learn. Allowing you to create space that works harder, smarter and altogether better.

After all, we know that space is a critical asset. The way it's defined influences physical and emotional attitude, creates culture and affects the productivity of those within it. Exactly why we build this philosophy into all of our thinking and all of our products.

Our insight into the needs of modern commercial, educational and public-sector environments gives us an understanding of their evolving working practices. We've identified these as Collaborating, Focusing, Meeting and Socializing. These four cornerstones interpret how people work together, seek sanctuary, access technology and share ideas. And by understanding how people work, we can create the space that works around them.

Take a look through our portfolio and you'll find a collection of dynamic furniture solutions that are agile, intuitive and support the working practices for all sorts of environments from complex office settings to large-scale education projects and everything in between. We love what we do and we love a challenge, so if you need help creating a more effective and productive workspace – a space that works, get in touch.

CREATING  
NEIGHBORHOODS

Masterfully  
crafted.

**The modern workplace landscape increasingly recognizes the need for a multitude of spaces, including shared breakout spaces, private work and relaxation zones.**

Adaptable and reconfigurable products which create 'neighborhoods' allow for convenient evolution of spaces to new and emerging workplace trends. They enable the occupier to make products and spaces their own, empowering the user to build a space which best suits their requirements.

# Collaborative

The modern workplace landscape increasingly recognizes the need for a multitude of spaces, including shared breakout spaces, private work, relaxation zones and more traditional work settings. Adaptable multizone configurations which create 'neighborhoods' allow for convenient evolution of spaces to flex to new and emerging workplace trends. These 'hackable spaces' enable the occupier to make products and spaces their own, empowering the user to build a space which best suits their requirements.

Harp has evolved specifically with the fluid workplace evolution in mind. Available to configure as an individual workspace or a multi-zone format, Harp can be designed in an infinite number of ways to create a multitude of settings and space division solutions. Distinctively designed with use of unorthodox bungee cords to construct walls, Harp acts as a space divider and an enclave without obstructing visibility or creating a permanent wall structure.

The bungee cords make a bold design statement, providing a unique contrast between the strong industrial finish of the steel frames and the more subtle touches of detail given by the accessories. Available with planter modules to support space acoustics alongside aesthetically zoning settings, as well as multiple accessory options to personalize the design's required functionality.

## PRODUCT FEATURES

- Powder coated steel frames available in matt black only.
- Frame available in 39 3/8" W and 94 1/2" H
- Bungee cords available in 5 x colours: Black, White, Light Grey, Olive and Yellow.
- Accessories include: planters, shelves, whiteboard, AV unit.
- Planter, shelves and AV unit elements available in 7 x MDF colours.

## BENEFITS

- Harp helps define the evolving and fluid workplace evolution. Available to configure as an individual workspace or a multi-zone format, Harp can be designed in an infinite number of ways to create a multitude of settings and space division solutions.
- Harp creates spaces that can be changed and adjusted by the users themselves, without an install team. The shelves and whiteboards can be easily inserted and removed from the frames. This connections to home office experiences: While working in home office, a lot of people were used to the flexibly of adapting their own workspace in the comfort of their own home. Harp aims at bringing this element back to the actual office.
- The modern workplace landscape increasingly recognizes the need for a multitude of spaces, including shared breakout spaces, private work, relaxation zones and more orthodox work settings. Adaptable multizone configurations which create 'neighborhoods' allow for convenient evolution of spaces to flex to new and emerging workplace trends.
- Distinctively designed with use of unorthodox bungee cords to construct 'walls', Harp acts as a space divider and an enclave without obstructing visibility or creating a permanent wall structure.
- The bungee cords make a bold design statement, providing a unique contrast between the strong industrial finish of the steel frames and the more subtle touches of detail given by the accessories.
- Available with planter modules to support zoning settings, as well as multiple accessory options to personalize the design's required functionality.
- Harp is fresh aesthetic designed to define the new way of work. Rich in uniqueness of the design, material, numerous applications it addresses and freedom it provides.
- Each Shelf is designed to have a maximum load of up to 80 lb. Each Harp frame can be equipped with up to 5 maximum load shelves.
- Harp Bungee cords are made with UV and water resistant exterior.
- The Harp product offering is BIFMA compliant.

# Designed for workplace trends.

“Distinctively designed with use of unorthodox bungee cords to construct ‘walls’, Harp acts as a space divider and an enclave without obstructing visibility or creating a permanent wall structure.” — Connection

Configure your Harp design using our 3 step specification guide.

Step 1: Build the base frame.

# FRAMES

Select your Harp frame size and style.

## Step 2 : Select the finishes

# FINISHES

Select your MFC and bungee finish from these options.

Step 3 : Add your accessories.

# ACCESSORIES

Select your Harp accessories from these options.
