

Find Inspiration Everywhere

Add local style and flare through custom design.

Accessory Stack for Inscape Bench is a smart, sleek, sophisticated feature for any open office environment. Personalize, create privacy, collaborate, support and watch the future of the modern workspace unfold.

The perfect complement to Inscape Bench, Accessory Stack gives you the flexibility to design your office the way you want. Find inspiration everywhere, the possibilities are endless. Accessory Stack is your canvas. Collaborate with local artisans to create the look and feel you're after.

Accessory Stack is back and forward compatible with our Inscape Bench frames and works alongside many existing Bench accessories so you can refresh your existing Bench products with Accessory Stack. If you start with Accessory Stack, you can change later to a traditional stack option, or even remove it completely. With Inscape Bench and Accessory Stack, your workplace will be ready for whatever tomorrow brings.

This document is meant to serve as a guideline only. Getting a sample from your local supplier or artist to ensure proper fit is highly recommended.

Height & Widths

Frame Product Code	W	H1	H2
INBASF2336-2F	33.375 "	17.325"	18.411"
INBASF2342-2F	39.375 "	17.325"	18.411"
INBASF2348-2F	45.375 "	17.325"	18.411"
INBASF2354-2F	51.375 "	17.325"	18.411"
INBASF2360-2F	57.375 "	17.325"	18.411"
INBASF2736-2F	33.375 "	20.700"	21.786"
INBASF2742-2F	39.375 "	20.700"	21.786"
INBASF2748-2F	45.375 "	20.700"	21.786"
INBASF2754-2F	51.375 "	20.700"	21.786"
INBASF2760-2F	57.375 "	20.700"	21.786"

Depths

.750" Minimum Loop Diameter for Hanging Options

4" Depth max before hanging options will interfere with height adjustable tables

.250" Max Thickness for Infill with Gasket

Gasket is for .250" (or 1/4") thick materials, gasket is removed to allow .375" (or 3/8") thick materials

.375" Max Thickness for Infill

Note: Thinner infills can be used but some movement is expected. Thicker materials that can compress to max thickness might be used

Weight Capacity

- A. 12 lbs from one contact point
- B. 18 lbs from two contact points at least 12" apart
- C. 30 lbs as a full length infill

Notes:

These are recommendations only. Getting a sample from your local supplier or artist to ensure proper fit is highly recommended.

Some non-standard options such as laser cut metal may be available from Inscape through our Specials Department. Contact us for more information.
