

**Space for
everything.**

Space for everything.

You live a third of your life in the office, and with all that living comes a lot of stuff. So, where are you going to put it?

At Office Specialty, we believe life lives in cupboards, drawers, and cabinets. It's where we lock our backpacks, stow the trash cans, and hide the meeting room remotes. We love storage and once you see what we can do for you, you will too.

“Just because you have
baggage doesn’t mean you
have to haul it around.”

— Author unknown

Why we stand out.

Design approach

We want you to rethink how you design workspaces — start with storage!

We all love a beautiful design but without function that design will fall short once put to use. Our storage-based design approach plans for people first and all the things that they bring. Leading your design plan with storage allows space for books, bags, shoes and tech, minimizing the possibility of future clutter.

Every inch counts

Our 1 ½ inch story

You could have the traditional storage case at 2 inch increments but we want to help you make the most of your real estate — that's why our case heights come in 1 ½ inch increments so you can get the perfect fit even in the tightest of spaces.

Multiple configurations

42 case heights, 10 drawer openings. No matter what needs to be stored we have a functional and good-looking solution.

We help give you
the breathing room to do
extraordinary things.

Meet the family

Family is all about working together and our products do just that.

Our standard offering includes the classics like Laterals, Lockers, Bookcases and Pedestals and our multifunctional lineups also include Workbars and dedicated Waste and Recycle units.

Can't find what you're looking for? Work with us to create something completely new. Using our custom solutions, you can create the storage you've always wanted.

Pedestals, laterals & verticals

File away your wallet, snacks, stray charging cables or anything else that's taking over desk space with your own twist on storage classics. Lay out your perfect lateral with modular interiors that can mix, match and evolve with your storage plans.

Bookcases & cabinets

Transform your space to show off your keepsakes, book collection, or framed photos, hold your backpack or extra laptop bag. With the ability to mix materials and thousands of finish options, your storage can hide in plain sight, or promote workplace individuality.

Lockers & towers

Spruce up any space with personal storage options that are durable, secure and stylish. Our lockers and towers can be outfitted to hold anything — coats, shoes, tech, you name it. Design them to blend in or stand out with loads of color options.

Workbars

Workbars are the perfect mashup of functional storage and solid worksurface, built to fit in wherever you need it. Using a mixture of storage solutions and worksurfaces, each Workbar is built to help you maximize your workspace without having to sacrifice on style or function.

Waste & recycle

Encourage clean spaces all over the workplace with a Waste and Recycle unit that's specifically designed for collaborative spaces — from common areas to lunchrooms.

Build-ups

When you play with our Build-up program the possibilities are endless. Choose from up to 42 different heights, sized from 18–80 inches, to create something completely new. Make it your own with interior components, and accessories. You can also match virtually any panel, storage or worksurface.

If you can dream it, we can make it.

You spend a lot of time in the office, and we want to make sure you have the room to make it feel like your own space — comfortable and organized. Our approach to storage is all about encouraging the well-being of everyone in a workplace environment, with solutions built to minimize clutter and foster collaboration.

Better quality

We work hard so you can too. We are masters at metal work, dedicated to sourcing only the finest materials to create pieces that stand the test of time. Smart storage all wrapped up in impeccable craftsmanship.

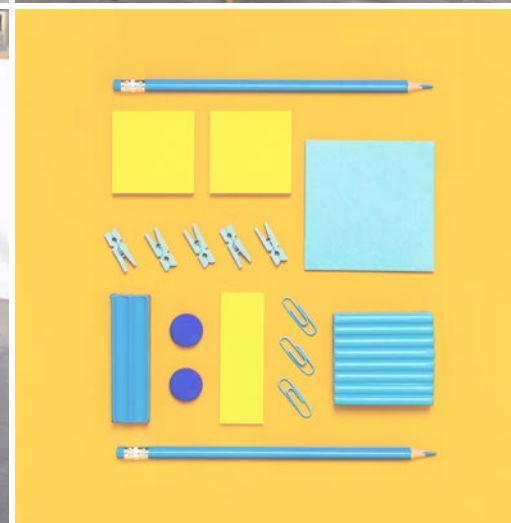

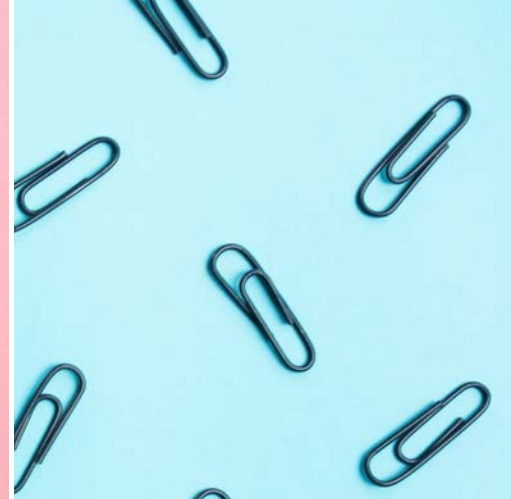

More choice

Companies grow, offices move, and workspaces are always changing. With our modular interiors, you can modify your storage at any time. Don't leave your storage in the past. The options are endless with OS.

Less waste

Our storage solutions are built to last and are completely reconfigurable, able to adapt as your workspace needs change, extending the product life cycle. Our commitment to level® certification reflects our belief that sustainability is defined by multiple perspectives, including a company's social actions, energy usage and carbon footprint, material selection, and its human and ecosystem health impacts.

It's our specialty.

Made in North America, we've been clearing clutter and keeping people organized since 1888. It's not just our thing, it's our specialty.

From pedestals to lockers and everything in between, Office Specialty provides you with the solutions you need to work smarter.

There's space for everything here, let us help you find it.
