

November 2023

To whom it may concern,

**Russia Sanctions
EU Regulations 833/2014 and amended regulation 2022/2474**

From the 30th September 2023, the UK & EU have imposed tighter controls on the import of Iron and Steel, as set out in Council Regulation (EU) 833/2104 and The Russia (Sanctions) (EU Exit) Regulations 2019 (as amended) prohibiting the import and export of goods of Russian origin and processing in accordance with iron and steel goods as listed in Annex XVII when processed in a third country.

As a manufacturer and stockist of products which contain Iron and Steel, we therefore wish to give the following statement:

Fixfast Ltd hereby declare that our Iron & Steel products as defined in annex XVII of Regulation 833/2104 and amended by Regulation 2022/2474 and The Russia (Sanctions) (EU Exit) Regulations 2019 (as amended) do not contain content of Russian origin.

Jack Mumford
