Connected wall mounted Terminal

Measure the quality of your services

 IoT Ready
Sigfox - LoraWan

 Real time data

 High participation rate

Participatory control

Let your clients and employees express themselves on a daily basis to answer their needs and ameliorate the quality of your services.

Alert system

The terminal automatically sends an alert via sms or email to the cleaning staff when satisfaction level drops. This allows your crew to take immediate response to any problems.

Check-in system

Easy to use it allows your cleaning crew to check-in, enabling you to track and measure their progress and impact of their work.

Autonomy

A long lasting autonomy of 2 years on double A batteries. An alert is sent to you by email 15 days prior to the end of battery cycle.

Installation

Fast and easy to install, done in just 3 min, the wall mounted terminal is fixed with double sided tape.

Customization

Colors, shape & design

Technical specs

Diameter : 25 cm (~ 9 inches)
