

Smilio S survey terminals

- **Smilio S** is a connected device working on both Sigfox and LoRaWAN IoT networks
- Its design and features allow its integration in a wide range of use cases:
 - Collection of customer feedback “on the spot”, evaluation of clients/employees’ satisfaction
 - Alerts, reports (dysfunctions, dissatisfaction, security, etc.)
 - Triggering of any type of actions (on-demand services)
 - Clocking after intervention, proof of presence

Unique benefits

Dual mode Sigfox / LoRaWAN™ wireless technology.
No Wi-Fi, 3G, or Ethernet. No infrastructure work
required before installation.

Remote configuration via Downlink.

“Proof of Presence” Technology: integrated magnetic
sensor for staff time-stamping.

Up to 6-years battery life

Indoor or outdoor installation.

Robust and firmly secured
(vertical or horizontal fixations).

Buttons without moving parts + antibacterial
treatment = record hygiene and durability.

Inopportune voting filtration technology.

CE certification. Data and operations security.

Customization: number of buttons, colors, special
treatments against bacteria, UV-light, scratches..

Technical specifications

- Material: antistatic and anti-UV ABS polymer
- Box color: white
- Dimensions: 180 x 90 x 35 mm
- Weight: 400 g with batteries
- 3 LED lights for the confirmation of votes
- Battery types: 3,6 V AA Lithium Thionyle Chloride
- Hermetic (IP65) and resistant to extreme temperatures (-40°C to +60°C).
- Antibacterial treatment applied to all our standard terminals (optional for customized terminals)
- Designed and made in France

« Proof of Presence » technology

- All Smilio devices integrate a sensor which reacts to the path of a **Skiplly badge**.
- A convenient and reliable system to **track interventions on distant sites**: validation of a specific action after a service request, clocking after arrival / depart, request for urgent intervention, etc.
- All data is time and date stamped and automatically and continuously incremented in your information system **without any risk of data loss**.

Adaptive displays

Counter, wall or floor displays, tailor-made support systems (for refrigerated display cases or shelves)....: you will find, in our range, high-quality displays that will easily adapt to your environment and survey challenges.

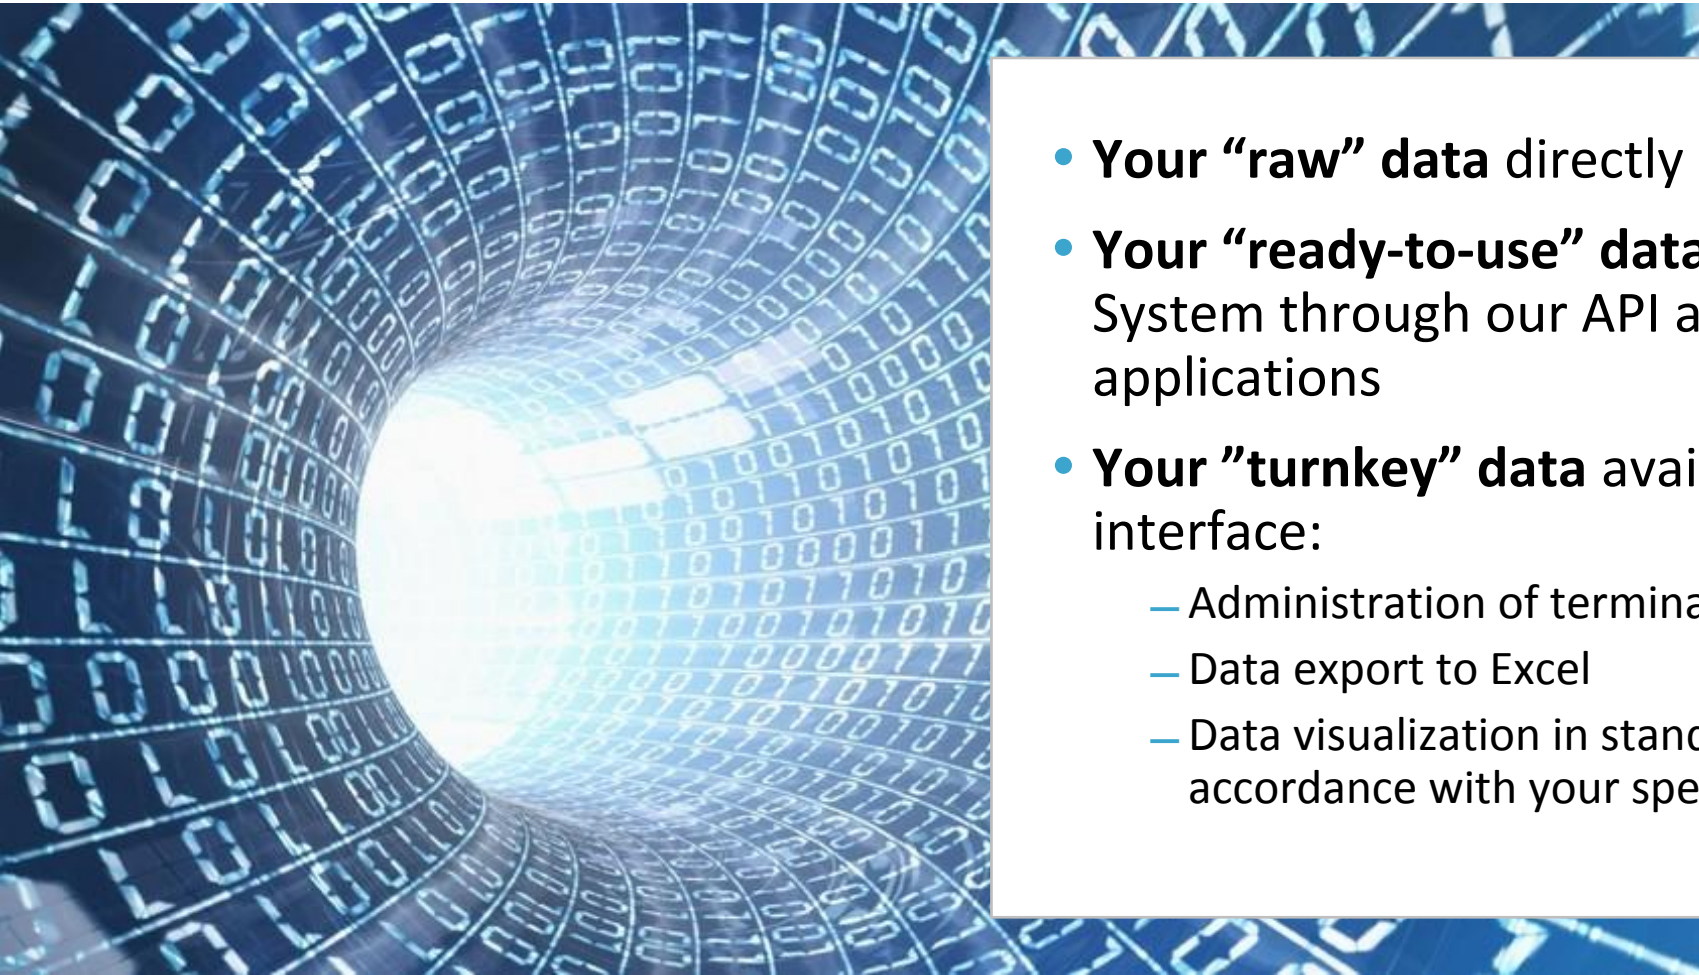

Zoom on « customization »

- **Buttons that adapt to your brand identity and use cases**
 - Number and shape of connected buttons (between 1 and 5)
 - Tailor-made façade: colors, picto, texts,...
 - Special treatments against bacteria (applied to all our standard terminals ; optional for customized products), against UV-light or scratches
- **Displays for a relevant communication**
 - All our display models allow to change the question of your surveys (posters or stickers)

**Smilio S is also a large
range of tailored
services...**

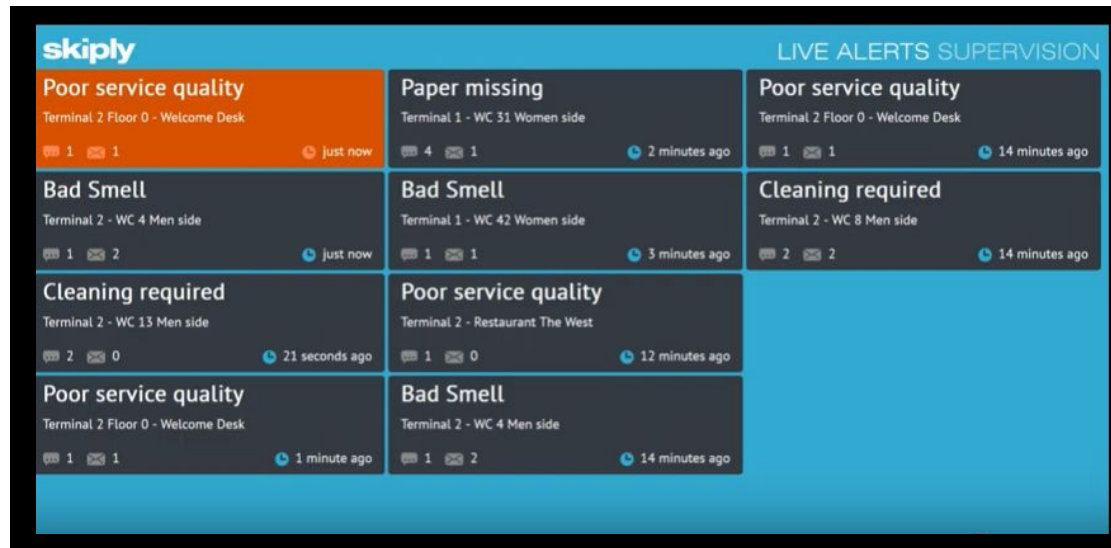

To access your data...

- **Your “raw” data** directly sent in your information system
- **Your “ready-to-use” data** integrated in your Information System through our API and plotted in your business applications
- **Your “turnkey” data** available on our Smilio web interface:
 - Administration of terminals, management of campaigns
 - Data export to Excel
 - Data visualization in standard or customized dashboards, in accordance with your specifications

To receive alerts in real-time...

- Dysfunctions, repeated dissatisfactions: **email and SMS alerts** can be configured and help you react quickly and correct problems
- Those alerts can even be played “live” on monitoring screens

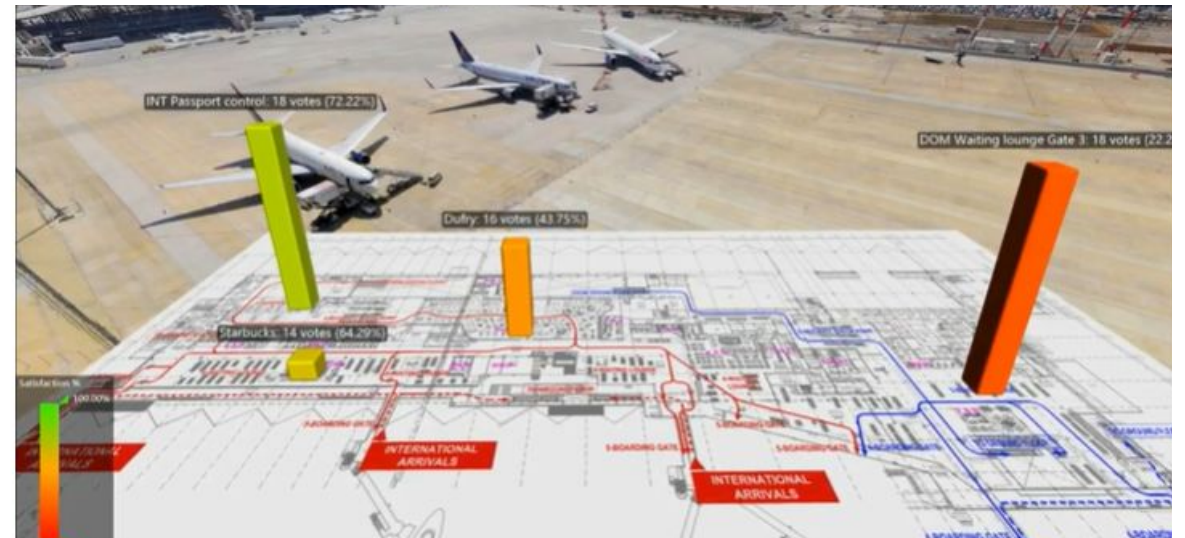

To visualize your data...

- Our dashboards are of a great help to:
 - easily **visualize** the results of surveys or time stampings
 - Analyze and cross-check** the data with external systems (cash data, staff schedules, weather data, etc.)
 - Compare** results between subsidiaries / franchisees
 - Lead** change and manage your teams

Immersive visualisation

- Another way to explore the data...

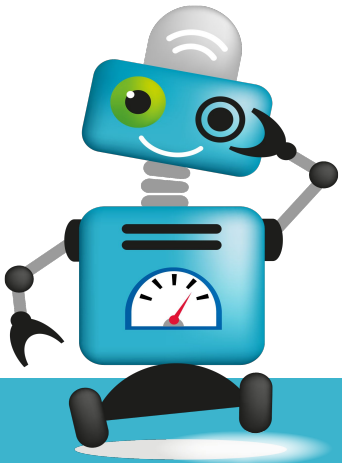

**Would you like to acquire
our Smilio terminals?**

Our « turnkey » formulas

Pack Autonomy

Includes:

- The acquisition of a Smilio S terminal
- A 3-year subscription to the IoT network (LoRa or Sigfox)
- The access to our Smilio web interface to:
 - Manage your campaigns and your terminals
 - Export your data into Excel

Pack Performance

Includes:

- The acquisition of a Smilio S terminal
- A 3-year subscription to the IoT network (LoRa or Sigfox)
- The access to our Smilio web interface to:
 - Manage your campaigns and your terminals
 - Export your data into Excel
 - Visualize your data in our standard dashboards

Our services « à la carte »

- For mass-deployments or project contexts that need a personalized approach, Skiplly can build a totally tailored solution:
 - Customized terminals, buttons, displays
 - Quantities / volume rates
 - Optional services:
 - IoT connectivity,
 - Alerting system,
 - Installation,
 - Data restitution,
 - Data visualization.
