ABOUT US

Western Point Global Solutions Limited is an ISO 9001:2015 Certified, forward-thinking, data-driven energy services company delivering fully integrated technical, operational, and project solutions across the entire energy value chain. We leverage advanced data analytics, deep domain engineering expertise, and cutting-edge digital technologies to help operators optimize asset performance, enhance operational efficiency, and maximize value creation—while upholding the highest standards of safety, reliability, and environmental stewardship.

With a strong focus on innovation and execution excellence, Western Point provides a comprehensive suite of services tailored to meet the dynamic needs of the energy industry. Our core offerings include Wellhead Maintenance and Integrity Management, Well Intervention Services, Reservoir Management and Optimization, Strategic Procurement and Supply Chain Solutions, Corrosion Control and Asset Integrity Services, Facility Inspection and Diagnostics, Onshore and Offshore Construction and Installation, Instrumentation and Control Systems, Technical Consultancy, and Capacity Development through Specialized Training Programs.

Our multidisciplinary capabilities enable us to seamlessly support both greenfield developments and brownfield optimization projects across onshore and offshore environments. Backed by a team of highly skilled professionals and a commitment to continuous improvement, Western Point partners with clients to deliver fit-for-purpose

solutions that drive operational excellence, reduce risk, and ensure sustainable energy production.

OUR MISSION

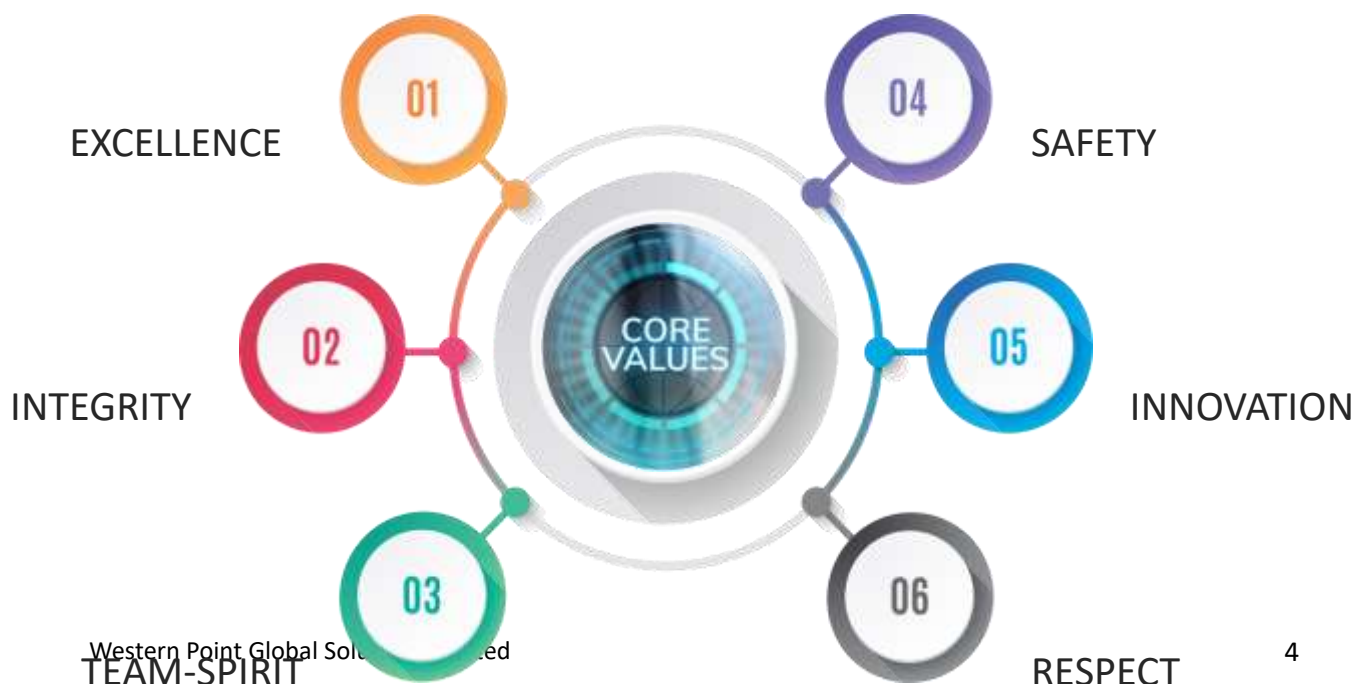

Thrive as a leader amongst indigenous energy servicing companies, with a record of providing innovative solutions in our areas of expertise, and an unparalleled commitment to excellent service delivery in the oil and gas industry.

OUR VISION

To become the fastest growing and best technologically driven indigenous Oil and Gas services company that provides excellent solutions and services to our client's needs.

OUR CORE VALUE

WHY WESTERN POINT GLOBAL SOLUTIONS LIMITED?

- ISO 9001: 2015 certified indigenous energy services company with strong local insight and globally aligned standards.
- Experienced leadership team delivering technically sound, high-quality solutions.
- Client-focused approach ensuring value-driven and quality service delivery.
- Skilled workforce committed to professionalism, precision, and accountability.
- Strategic partnerships enabling integrated, efficient, and cost-effective solutions.
- Strong HSE culture with emphasis on safety, environmental stewardship, and operational integrity.
- Solution-driven mindset with capability to execute complex projects and exceed client expectations.

OUR CORE SERVICES

Western Point Global Solutions Limited delivers integrated, quality solutions across the upstream and midstream oil and gas value chain, with strong technical depth, field-proven execution capability, and strict adherence to HSE and regulatory standards.

1. WELLHEAD SERVICES
2. WELL INTERVENTIONS AND SOLUTIONS
3. PROCUREMENT
4. CORROSION CONTROL SERVICES
5. INSTRUMENTATION AND CONTROL
6. ONSHORE/OFFSHORE ENGINEERING AND CONSTRUCTION
7. PIPELINE SERVICES
8. CONSULTANCY AND TRAINING
9. MARINE SERVICES
10. RENTAL SERVICES

WELLHEAD SERVICE

We offer comprehensive wellhead integrity management services covering installation, commissioning, routine maintenance, pressure testing, troubleshooting, and refurbishment of wellhead accessories and Xmas tree systems. We ensure barrier integrity, equipment reliability, and compliance with OEM specifications and industry standards.

- 1st & 2nd Line Maintenance
- Repair, Refurbishment and Installation of Wellhead Equipment & Accessories
- Repair, Refurbishment, and Installation of Chokes and Valves (All Brands)
- Supply of Valves (Gate, Ball, Globe, Check, Butterfly, Plug & Actuator)
- Wellhead Integrity Monitoring
- Xmas Tree Valve Greasing and Valve Pressure Testing

WELL INTERVENTION

MISCELLANEOUS RENTAL
EQUIPMENT

We provide rigless and rig-based well intervention operations aimed at restoring and optimizing well productivity. Services include Slickline, E-Line, Coiled Tubing, well diagnostics, fishing, stimulation support, and remedial interventions designed to enhance reservoir performance and extend well life.

- Slickline
- E-line
- Coiled Tubing

- Well Testing & Diagnostics
- Well Integrity & Inspection Services
- Wireline Equipment Rental

WELL INTERVENTIONS SOLUTIONS

Western Point Global Solutions Limited partnered with Subcem AS to provide specialized rigless well intervention solutions focused on annular barrier restoration, zonal isolation, and water shut off. We leverage Subcem’s proprietary polymer-based sealing technology, to effectively remediate sustained casing pressure (SCP), casing leaks, and unwanted fluid migration, thereby restoring well integrity without the need for high-cost workovers. Deployed through Slickline, E-Line and Coiled Tubing, our solutions ensure precise

placement, minimal downtime, and cost-efficient operations, making them ideal for mature and brownfield assets.

- Sublox™
- Sublox™-C
- Sublox™-L

PROCUREMENT & SUPPLY CHAIN MANAGEMENT

We provide end-to-end procurement services for oilfield equipment, OCTG, valves, instrumentation, and spares. We collaborate with a global OEM and vendor network to deliver technically compliant materials, ensuring cost efficiency, quality assurance, and timely project delivery. We have buy-in house across countries like UK, Dubai, Norway, China and U.S.A

CORROSION CONTROL & ASSET INTEGRITY SERVICES

We offer corrosion mitigation and asset integrity management programs including cathodic protection (CP), chemical injection systems, corrosion monitoring, inspection, and maintenance strategies to safeguard pipelines, flowlines, and processing facilities.

INSTRUMENTATION, CONTROL & AUTOMATION (IC&A)

We carry out design, installation, calibration, and maintenance of field instrumentation and control systems. We support SCADA, process automation, and control system optimization to ensure accurate data acquisition, process efficiency, and safe operations.

ONSHORE/OFFSHORE ENGINEERING, PROCUREMENT, CONSTRUCTION & INSTALLATION (EPCI)

We carry out delivery of turnkey EPCI solutions covering detailed engineering design, fabrication, construction, installation, and commissioning for upstream and midstream facilities. We execute projects in line with international standards, ensuring quality, schedule adherence, and cost control.

PIPELINE & FLOWLINE SERVICES

We provide pipeline engineering, installation, pre-commissioning, commissioning, pigging, integrity assessment, leak detection, and maintenance services. We ensure pipeline systems operate within design parameters and regulatory requirements.

CONSULTANCY & TRAINING

We offer specialized consultancy services spanning well engineering, production optimization, asset management, and project advisory. We also deliver industry-focused technical training programs to enhance workforce competency and operational excellence.

MARINE & OFFSHORE SUPPORT SERVICES

We provide marine logistics and offshore support including vessel coordination, crew transfer, equipment mobilization/demobilization, and offshore operational support to ensure seamless execution of offshore campaigns.

EQUIPMENT RENTAL SERVICES

We carry out supply of certified oilfield tools and equipment on short- and long-term lease to support drilling, completion, intervention, and production operations. Our rental solutions provide operational flexibility while reducing capital expenditure.

PAST WELLHEAD EXPERIENCE

1. 1st & 2nd Line Wellhead Maintenance Services

2. ISOKO DEEP - 2nd Line Wellhead Maintenance Service

PAST TUBING SPOOL MAINTENANCE EXPERIENCE

1. 11-5/8 Tubing Spool

PAST FLANGE MAINTENANCE EXPERIENCE

PAST WELL INTERVENTIONS EXPERIENCE

1. Egbolom 2 - Bottom Hole Pressure Survey Program

EQUIPMENT LOADING – COILED TUBING SERVICE

NITROGEN LIFT OPERATION – COILED TUBING OPERATION

UNPLUGGING JOB – AKASO WELL 4

DRIFTING AKASO WELL 13

FISHING – CAWTHORNE 1- WELL 47

PAST OIL AND GAS TRAINING EXPERIENCE

1. Fundamentals of Machine/AI for Petroleum Engineers
